Political Restructuring In Europe East And West Ethical Perspectives:

Political Restructuring in Europe Chris Brown, 2003-09-02 Distinguished scholars of law political philosophy and international relations consider the ethical background to Europe's restructuring Including for example the rights to secession or self determination of minorities in Eastern Europe **Edinburgh Companion to Contemporary Liberalism**

Mark Evans, 2019-07-29 This is the premier collection of material on a comprehensive range of topics in contemporary liberalism It shows how liberalism can tackle wide ranging practical concerns that urgently demand attention in twenty first century politics **The International Politics of East Central Europe** Adrian G. V. Hyde-Price, 1996 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the Studies in Imperialism series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children's literature The cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour **The Liberal Project and the Transformation of Democracy**

Sabrina P. Ramet, 2007-02-28 Students of democratic theory have watched the dramatic transformation of Eastern Europe from communism to various forms of democracy in the last two decades With her unique blend of theory and empirical analysis veteran observer Sabrina P Ramet offers clear insight into the processes challenges and accomplishments of this area Drawing on a classical understanding of liberalism based on a philosophy of Natural Law she probes the issues of capitalism national sovereignty and self determination gender inequality and political legitimacy in the context of Eastern Europe's particular experience She also explores the limitations of classical liberalism and argues for the extension of liberal principles to encompass the rights of women and protection of all species as well as the environment Political theorists political scientists students of Eastern Europe and those interested in the larger questions of political philosophy will be richly rewarded in their reading of this volume by a renowned scholar of Eastern European politics **The European Union and the Promotion of Democracy** Richard Youngs, 2002-01-03 This book assesses European Union policies aimed at encouraging democratization in East Asia and the North African and Middle Eastern States within the Euro Mediterranean Partnership these two regions being the source of some of the strongest conceptual challenges to Western liberal democracy since the end of the cold war The book addresses theoretical debates over the international dimensions of political change

and the EU's characteristics as an international actor. The factors both driving and inhibiting European democracy promotion policies are explored. The book outlines the EU's distinctive bottom-up philosophy aimed at constructing the socio-economic and ideational foundations for political liberalization but argues that the EU has in practice failed to develop a fully comprehensive and coherent democracy promotion strategy.

Ethics and World Politics Duncan Bell, 2010-03-25. The book opens with a discussion of different methods and approaches employed to study the subject including analytical political theory, post-structuralism and critical theory. It then surveys some of the most prominent perspectives on global ethics including cosmopolitanism, communitarianism of various kinds, theories of international society, realism, postcolonialism, feminism and green political thought. Part III examines a variety of more specific issues including immigration, democracy, human rights, the just war tradition and its critics, international law and global poverty and inequality. Publisher description.

Rethinking International Relations Theory Martin Griffiths, 2011-03-02. International Relations (IR) theory has seen a proliferation of competing and increasingly trenchant worldviews with no consensus on how to evaluate their relative strengths and weakness. This innovative new text provides an original interpretation of how best to navigate the clash of perspectives in contemporary IR theory. The book provides a systematic overview of the main worldviews such as realism, liberalism and constructivism and their associated theoretical underpinnings. Placing liberal internationalism at the heart of the debate, it argues that the main division in IR theory is between liberal internationalism and its critics. Griffiths examines both the strengths and weaknesses of liberal internationalism as a worldview and also explores the competing worldviews that have been generated by the perceived flaws of this perspective. Examination of crucial policy issues is incorporated throughout the text, restoring the relevance of theory for those who wish to understand those policy issues. Moreover, this book revitalises the *raison d'être* of contemporary IR theory and shows the role it can play in making sense of the twenty-first century.

Yugoslavia and After David A. Dyker, Ivan Vejvoda, 2014-09-19. This new book presents contributions by leading authorities on the origins of the Balkan crisis, the reasons for the decay and dissolution of the old Yugoslavia, the nature of the new regimes, the prospects for solution of the remaining conflicts and for the building of viable successor states.

Failed Imagination? Andrew J. Williams, 1998. Francisco Gomez de Sandoval Duke of Lerma 1553-1625 is the last major unknown statesman in modern European history. Patrick Williams brings him dramatically to life and challenges the assumptions that historians have made about him and about Spanish history at a time of profound crisis, inviting a re-evaluation of the phenomenon of government by favourites in this seminal period of European history. Lerma served Philip III as his favourite and first minister between 1598 and 1618. His power dazzled contemporaries, one petitioner telling Philip that he had come to see him because he could not get an appointment with the Duke of Lerma. Within a decade of assuming office, Lerma had raised his family from humiliating poverty to great riches and was the greatest patron of the arts in Europe. His use of power provoked intense debate about the nature of corruption in government. Yet Lerma remained deeply ambivalent about his

position Determined to follow family tradition and retire into religious life to secure the salvation of his soul he secured a cardinalate in 1617 ending his life as a prince of the Church International Society, Global Polity Chris Brown,2014-11-03
