Eduardo Chibás Ilan Ehrlich, 2015-03-26 This comprehensive biography of Eduardo René Chibás 1907-1951 traces the life and times of Cuba's most popular and charismatic politician during the late 1940s and early 1950s Chibás whose admirers included young Fidel Castro emphasized honesty in Cuban public life and promised to sweep away corrupt politicians during his popular Sunday broadcasts His ties with supporters many of whom knew him simply as Eddy were closer and more informal than any previous Cuban politician During his 1948 presidential campaign Chibás often hurled himself into the arms of adoring supporters after speeches Such gestures were met with wonder and disgust by politicians more accustomed to buying votes than winning hearts His suicide in 1951 dashed the dreams of his followers who hoped he would deliver an honest government that provided services for the island's poor and respected Cuba's progressive 1940 constitution His death which was followed seven months hence by a military coup and eight years later by Castro's revolution represents one of the great what ifs of Cuban politics This seminal work explores Chibás's life in order to explain the nature of Cuban politics from the mid twentieth century to today *Latin America's Democratic Crusade* Allen Wells, 2023-01-01 By emphasizing Latin American reformers' decades long struggle to defeat authoritarianism this transnational history challenges the timeworn Cold War paradigm and recasts the region's political evolution Scholars persist in framing the Cold War as a battle between left and right one in which the Global South is cast as either witting or unwitting proxies of Washington and Moscow What if the era is told from the perspective of the many who preferred reform to revolution Scholars have routinely neglected dismissed or caricatured moderate politicians In this book Allen Wells argues that until the Cuban Revolution the struggle was not between capitalism and communism that was Washington's abiding preoccupation but between democracy and dictatorship Beginning in the 1920s the fight against authoritarianism was contested on multiple fronts political ideological and cultural taking on the dimensions of a political crusade Convinced that despots represented an existential threat reformers declared that no civilian government was safe until the cancer of dictatorship was excised from the hemisphere Dictators retaliated often with deadly results exporting strategies that had been honed at home to guarantee their political survival Grafted onto this war without borders was a belated Cold War with all its political convulsions the aftershocks of which are still felt today
