

The Political Economy of Central America since 1920

Victor Bulmer-Thomas

Political Economy Of Central America Since 1920

**Diego Sanchez-Ancochea, Salvador
Martí i Puig**

Political Economy Of Central America Since 1920:

The Political Economy of Central America since 1920 Victor Bulmer-Thomas, 1987-12-10 In this book Victor Bulmer Thomas uses his previously unpublished estimates of the national accounts to explore economic and social development in the five Central American republics from 1920. He examines in detail variations in economic policy between countries which help to account for differences in performance. The major political developments are woven into the analysis and linked to changes in internal and external conditions. Growth under liberal oligarchic rule in the 1920s, heavily dependent on exports of coffee and bananas, was accompanied by modest reform programmes. The 1929 depression, which hit the region hard, undermined most of the reforms and ushered in a period of dictatorial rule in all republics except Costa Rica. The Second World War, particularly after the entry of the United States, at first strengthened the dictatorships but ultimately produced challenges to rule by authoritarian caudillos. The social upheavals accompanying the post-war export-led boom forced governments in each republic to address the question of economic, social and political reform. *The Political Economy of Central America Since 1920* Victor Bulmer-Thomas, 1994

Inside The Volcano Frederick Stirton Weaver, 2018-02-19 This book provides a historical background to recent Central American social unrest, repression and revolution to help readers engage in current arguments, claims and debates in a critically and historically informed manner.

Studies in the Economics of Central America V. Bulmer-Thomas, 1988-06-18 A study explaining how the social upheavals which led to the Nicaraguan revolution and the civil wars in El Salvador and Guatemala were rooted in the export-led model followed in the region. The author also explores their efforts to achieve regional co-operation in the economic sphere.

The Economic History of Latin America Since Independence V. Bulmer-Thomas, 2003-08-04 A comprehensive, balanced portrait of the factors affecting economic development in Latin America, first published in 2003.

Central America Since Independence Leslie Bethell, 1991-10-25 General chapters on Central America, 1821-1870, 1870-1930, 1930 to the present, are followed by chapters on each of the five Central American republics: Guatemala, El Salvador, Nicaragua, Honduras, Costa Rica, since 1930. Excerpted from the Cambridge History of Latin America.

The Economic History of Latin America since Independence Victor Bulmer-Thomas, 2014-02-10 This study, now in a revised and updated third edition, covers the economic history of Latin America from independence in the 1820s to the present. It stresses the differences between Latin American countries while recognizing the external influences to which the whole region has been subject. Victor Bulmer Thomas notes the failure of the region to close the gap in living standards between it and the United States and explores the reasons. He also examines the new paradigm taking shape in Latin America since the debt crisis of the 1980s and asks whether this new economic model will be able to bring the growth and improvement in equity that the region desperately needs. This third edition contains a wealth of new material that draws on the new research in the area in the past ten years.

Handbook of Central American Governance Diego Sanchez-Ancochea, Salvador Martí i Puig, 2013-12-17 Central America constitutes a

fascinating case study of the challenges opportunities and characteristics of the process of transformation in today's global economy. Comprised of a politically diverse range of societies, this region has long been of interest to students of economic development and political change. The Handbook of Central American Governance aims to describe and explain the manifold processes that are taking place in Central America that are altering patterns of social, political and economic governance, with particular focus on the impact of globalization and democratization. Containing sections on topics such as state and democracy, key political and social actors, inequality and social policy, and international relations, in addition to in-depth studies on five key countries: Costa Rica, Nicaragua, El Salvador, Honduras, and Guatemala, this text is composed of contributions from some of the leading scholars in the field. No other single volume studies the current characteristics of the region from a political, economic and social perspective or reviews recent research in such detail. As such, this handbook is of value to academics, students and researchers as well as to policy makers and those with an interest in governance and political processes.

The Oxford Handbook of Central American History Robert H. Holden, 2022. Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven-country region of Latin America. Chapters engage both the novice's search for basic orientation and context and the experienced scholar's interest in evaluative critiques of the historical literature.

The Economies of Latin America César Yáñez, 2015-10-06. The economic backwardness of Latin America and the Caribbean has long been discussed but seldom been the subject of such a wide-ranging quantitative study. The twelve essays in this collection present a twenty-first-century analysis of a long-term issue, providing extensive geographical coverage and allowing reinterpretations of the past.

This is likewise one of the factors by obtaining the soft documents of this **Political Economy Of Central America Since 1920** by online.
