Political Education:

Political Education Robert J. Brownhill, Patricia Smart, 1989-01-01 **Political Education** Robert Brownhill, Patricia Smart, 2025-06-02 A debate has been in existence as to whether political education or indeed political argument of any kind should be kept out of the classroom There are those who argue that political education is synonymous with indoctrination and others who suggest that education is by its nature political For those who agree that there should be a distinct political aspect of the curriculum which instils political knowledge and awareness there is of course the question of where the emphasis should be placed How is it possible to achieve any kind of balance First published in 1989 Political Education analyses the debate about the introduction of courses in political education to secondary tertiary and adult education as well as to youth work It also examines the introduction of an element of political education to specific subjects It puts forward an argument for political education and discusses what it should consist of and how it should be undertaken This book will be of interest to students and researchers of education Political Education in Times of Populism Edda Sant, 2021-06-21 In professional and academic contexts nothing is more important than helping people to understand and engage with democratic society Sant has written an excellent book which helps greatly towards that end She has developed incisive new arguments about the nature of contemporary politics and education Using the most recent as well as classic literature she explores key ideas and issues Through wide ranging discussions and by referring to her own valuable empirical work she characterizes and creates thoughtful insights and innovative pedagogical approaches This book achieves the very difficult task of illuminating complex ideas at the same time as helping to determine practical ways to achieve social justice through education Political education has been neglected for too long This book is a bold new step in its achievement Ian Davies Emeritus Professor University of York UK This book examines political education in times of democratic crisis polarisation and uncertainty Using populism as a diagnostic tool the book scrutinises current democratic practices and considers alternatives for future social studies and citizenship education The author examines contemporary events including Brexit the Catalan referendum for independence and protests in Chile to ask how democratic educators can respond to times of crisis Centered on themes of knowledge and ideology the book draws together political philosophy and educational research to map out critically analyse and offer alternatives to dominant debates on political education It will be of interest and value to scholars examining the relationship between democracy and educational theory and practice Edda Sant is Senior Lecturer at Manchester Metropolitan University UK A former social studies teacher her research interests lie in citizenship political and democratic education She has published widely in this field and in 2016 was recognized with a Children's Identity Citizenship European Association Award Political Education Christopher T.
