Political-Military Evolution Monte R. Bullard,2019-03-08 In recent years the People s Liberation Army PLA has relinquished much of its political power to China s civilian leadership and has turned to the task of professionalizing the military The transition of the PLA into a relatively apolitical force in Chinese society has occurred alongside great progress toward military modernization with the foundation now laid for the PLA to become one of the world s most powerful military forces Dr Bullard traces the PLA s extremely important and almost revolutionary transition examines the structural changes associated with it and assesses current military policies and trends He discusses in detail the political commissar system the key institution for all political military relationships in the Chinese military system **Policy Research Study:**

Political-military Relationships in Communist China United States. Adelman,2019-03-13 This book analyzes the historical and contemporary political roles of armies in the majority of the world s Communist countries stressing the problems faced and overcome by Communist parties in the creation and development of legitimate and effective armies The authors all area specialists explore the sources of the dramatic differences between the highly visible and

powerful political roles of the Chinese Vietnamese and Cuban armies the small but increasing political role of the Soviet army and the minimal political roles of most Eastern European armies Emphasized are such variables as the nature of revolution the role of civil war and the extent of external interference particularly from the Soviet Union The authors show how these variables are key factors in determining the path of army political development The Chinese Military System Harvey W Nelsen,2019-07-11 To understand the Chinese military and thereby the dynamics of China s peacetime army one must understand its organizational system To that end Harvey Nelsen has written a book that examines in detail the entire organization of the Chinese People s Liberation Army PLA Dr Nelsen studies the PLA from top to bottom Throughout he challenges the widely held theory that military politics in China are largely determined by personal relations among officers and that the PLA is more a civic action army than are most military organizations Important as a purely military study this book is valuable also for the light it sheds on the whole of Chinese bureaucratic politics This second edition has been revised to reflect changes that have occurred since the death of Chairman Mao as well as to incorporate new information about the Chinese military and political system during Mao s reign
