Political Obligation In Its Historical Context

Istvan Hont, Michael Ignatieff

Political Obligation In Its Historical Context:

Political Obligation in Its Historical Context John Dunn, 2002-04-11 Mr Dunn addresses the central questions of political philosophy from an unusually broad variety of perspectives **Toleration and the Constitution** David A. J.

Richards, 1989-04-06 Why have the issues of religious liberty free speech and constitutional privacy come to figure so prominently in our society What are the origins of the basic principles of our constitutional law This work develops a general theory of constitutional interpretation based on an original synthesis of political theory history law and a larger approach to the interpretation of culture Presenting both historical and theoretical arguments in support of a theory that affirms the moral sovereignty of the people Richards maintains that toleration or respect for conscience and individual freedom is the central constitutional ideal He discusses such current topics of constitutional controversy as church state relations the scope of free speech and the application of the constitutional right to privacy to abortion and consensual adult sexual relations

Political Theory and the Modern State David Held, 2013-04-24 This volume offers an incisive overview of central issues and controversies in political thought and analysis It includes major discussions of the idea of the modern state contemporary theories of the state problems of power and legitimation new forms of democratic ideal citizenship and social movements the direction of public policy and the fate of sovereignty in the modern global system While analysing these topics the author critically assesses the thought of many of those who have contributed decisively to political discussion Among those whose works are discussed are classic figures such as Hobbes Locke Mill and Marx as well as contemporary writers such as Habermas Offe and Giddens *Political Theory and the Modern State* is an ideal resource for students seeking an introduction to modern politics and political sociology It is also an original statement about the many competing perspectives in political thought today **The Temporality of Political Obligation** Justin Chandler Mueller, 2015-12-22 The Temporality of

Political Obligation offers a critique and reconceptualization of the ways in which our political obligations what we owe to political authorities and communities and the reasons why we ought to obey their rules have been traditionally conceptualized justified and contested Drawing from theories of time and temporality Justin Mueller demonstrates some of the unacknowledged assumptions and theoretical blind spots shared among these ostensibly opposed positions and the problems and contradictions that this neglect of time poses Enriching the literature on the philosophers Henri Bergson and Gilles Deleuze Mueller demonstrates how their theoretical frameworks on time can be used to analyze a political problem that is usually confined to the concerns of normative liberal democratic theory Politically this book provides readers with the means to better identify and analyze the diverse temporalities they encounter in everyday life and better understand their experiences of them A welcomed and timely read which will be of interest to scholars involved in recent efforts to engage with the social and political dimensions and consequences of time and temporality **Rethinking Modern Political**

Theory John Dunn, 1985-06-06 This volume of essays discusses the weaknesses in modern political theory and suggests how

they might begin to be remedied **Legitimacy in Liberal Democracies** Benjamin M. Studebaker, 2024-11-30 In this book Studebaker develops a theory of legitimacy to explain the crisis of liberal democracy in established democracies like the United Kingdom and the United States In these countries there is deep dissatisfaction with political procedures yet no credible alternatives have emerged Without alternatives the crisis cannot produce revolution Instead Studebaker suggests that the disagreements that ordinarily lead to political violence instead proliferate throughout the state and society As the distinction between legitimacy and ideology blurs efforts to generate legitimacy instead generate greater inequality pluralism and gridlock As different factions try to save democracy in radically different ways diverse advocates of democracy get in each other's way and even begin to appear authoritarian to one another In *Legitimacy in Liberal Democracies* Studebaker depicts a legitimacy crisis rife with state capacity problems in which citizens tell each other many conflicting legitimization stories as they search for ways to live with a dissatisfying political system they cannot replace The result is a legitimization hydra a state that is burdened by an excess of narratives that struggles to take any action at all **Wealth and Virtue** Istvan Hont, Michael Ignatieff, 1986-01-30 *Wealth and Virtue* reassesses the remarkable contribution of the Scottish Enlightenment to the formation of modern economics and to theories of capitalism Its unique range indicates the scope of the Scottish intellectual achievement of the eighteenth century and explores the process by which the boundaries between economic thought jurisprudence moral philosophy and theoretical history came to be established Dealing not only with major figures like Hume and Smith there are also studies of lesser known thinkers like Andrew Fletcher Gershom Carmichael Lord Kames and John Millar as well as of Locke in the light of eighteenth century social theory the intellectual culture of the University of Edinburgh in the middle of the eighteenth century and of the performance of the Scottish economy on the eve of the publication of the *Wealth of Nations* While the scholarly emphasis is on the rigorous historical reconstruction of both theory and context *Wealth and Virtue* directly addresses itself to modern political theorists and economists and throws light on a number of major focal points of controversy in legal and political philosophy **Platonic Political Art** John R. Wallach, 2010-11-01 In this first comprehensive treatment of Plato's political thought in a long time John Wallach offers a critical historicist interpretation of Plato Wallach shows how Plato's theory while a radical critique of the conventional ethical and political practice of his own era can be seen as having the potential for contributing to democratic discourse about ethics and politics today The author argues that Plato articulates and solves his Socratic Problem in his various dialogues in different but potentially complementary ways The book effectively extracts Plato from the straightjacket of Platonism and from the interpretive perspectives of the past fifty years principally those of Karl Popper Leo Strauss Hannah Arendt M I Finley Jacques Derrida and Gregory Vlastos The author's distinctive approach for understanding Plato and he argues for the history of political theory in general can inform contemporary theorizing about democracy opening pathways for criticizing democracy on behalf of virtue justice and democracy itself *Political Obligation* John Horton, 2017-08-24 How should we

understand the relationship between citizens and governments and what are the obligations of citizens In this substantially revised new edition of an influential text John Horton challenges dominant theories by offering an associative account focusing particularly on what it is to be a member of a political community *Political Judgement* Richard Bourke, Raymond Geuss, 2009-08-20 Leading scholars re examine political judgement attempting to understand the relationship between political theory and political practice

Reviewing **Political Obligation In Its Historical Context**: Unlocking the Spellbinding Force of Linguistics
