

# Ideology and Partisanship

- Ideology: An organized coherent set of ideas that forms a perspective on the political world and how it works.
- There is a correlation between ideology and partisanship with liberalism being associated with the Democratic Party and conservatism with the Republican Party.
- Furthermore, the stronger one's ideological commitments, the stronger one's partisanship.

Political Parties and the Winning of Office Joseph A. Schlesinger, 1991 This book offers an integrated theoretical perspective for explaining political party operations Schlesinger examines the distinctive structure of the party organization the nature of its collective outputs and the direct and indirect rewards it offers participants He also develops the impact of political ambitions and the structure of political opportunities and electoral arrangements on party capabilities Schlesinger concludes by looking at the changing multinuclear party and the implications of his theory for comparative research The comparative potential of the theory is demonstrated through the construction of a typology of parties based on officeholders age and career paths for five Western democracies ISBN 0 472 10202 8 37 50      Guide to U.S. Political Parties Marjorie R. Hershey, 2014-04-01 This one volume reference presents the major conceptual approaches to the study of U S political parties and the national party system describing the organization and behavior of U S political parties in thematic narrative chapters that help undergraduate students better understand party origins historical development and current operations Further it provides researchers with in depth analysis of important subtopics and connections to other aspects of politics Key Features Thematic narrative chapters organized into six major parts provide the context as well as in depth analysis of the unique system of party politics in the United States Top analysts of party politics provide insightful chapters that explore how and why the U S parties have changed over time including major organizational transformations by the parties behavioral changes among candidates and party activists and attitudinal changes among their partisans in the electorate The authors discuss the way the traditional concept of formal party organizations gave way over time to a candidate centered model fueled in part by changes in campaign finance the rise of new communication technologies and fragmentation of the electorate This book is an ideal reference for students and researchers who want to develop a deeper understanding of the current challenges faced by citizens of republican government in the United States      Political Parties in American Society NA NA, 2016-09-27 In this comprehensive introduction to political parties two of the country s foremost scholars combine the traditional PIE PIO PO approach with unique chapters on such issues as race and campaign finance Throughout the book the authors argue strongly in favor of the continued relevance of parties in the American political system and provide strong evidence that parties have adapted to the changing American political scene      **Political Ideologies and Political Parties in America** Hans Noel, 2014-01-31 Political Ideologies and Political Parties in America puts ideology front and center in the discussion of party coalition change Treating ideology as neither a nuisance nor a given the analysis describes the development of the modern liberal and conservative ideologies that form the basis of our modern political parties Hans Noel shows that liberalism and conservatism emerged as important forces independent of existing political parties These ideologies then reshaped parties in their own image Modern polarization can thus be explained as the natural outcome of living in a period perhaps the first in our history in which two dominant ideologies have captured the two dominant political

parties

**The Reshaping of West European Party Politics** Christoffer Green-Pedersen, 2019-07-31 Long gone are the times when class based political parties with extensive membership dominated politics. Instead, party politics has become issue based. Surprisingly few studies have focused on how the issue content of West European party politics has developed over the past decades. Empirically Reshaping of West European Party Politics studies party politics in Belgium, Denmark, France, Germany, the Netherlands, Sweden, and the UK from 1980 and onwards. This book highlights the more complex party system agenda with the decline but not disappearance of macroeconomic issues as well as the rise in new politics issues together with education and health care. Moreover, various new politics issues such as immigration, the environment, and European integration have seen very different trajectories. To explain the development of the individual issues, this volume develops a new theoretical model labelled the issue incentive model of party system attention. The aim of the model is to explain how much attention issues get throughout the party system, which is labelled the party system agenda. To explain the development of the party system agenda, one needs to focus on the incentives that individual policy issues offer to large mainstream parties, i.e. the typical Social Democratic, Christian Democratic, or Conservative Liberal parties that have dominated West European governments for decades. The core idea of the model is that the incentives that individual policy issues offer to these vote and office seeking parties depend on three factors: namely, issue characteristics, issue ownership, and coalition considerations. The issue incentive model builds on and develops a top-down perspective on which the issue content of party politics is determined by the strategic considerations of political parties and their competition with each other.

**Comparative Politics** is a series for researchers, teachers, and students of political science that deals with contemporary government and politics. Global in scope, books in the series are characterised by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information, visit [www.ecprnet.eu](http://www.ecprnet.eu). The series is edited by Emilie van Haute, Professor of Political Science, Université libre de Bruxelles; Ferdinand Müller-Rommel, Director of the Center for the Study of Democracy, Leuphana University; and Susan Scarrow John and Rebecca Moores, Professor of Political Science, University of Houston.

**A Different Democracy** Steven L. Taylor, Matthew S. Shugart, Arend Lijphart, Bernard Grofman, 2014-10-28 Four distinguished scholars in political science analyze American democracy from a comparative point of view, exploring how the U.S. political system differs from that of thirty other democracies and what those differences ultimately mean for democratic performance. This essential text approaches the following institutions from a political engineering point of view: constitutions, electoral systems, and political parties, as well as legislative, executive, and judicial power. The text looks at democracies from around the world over a two-decade time frame. The result is not only a fresh view of the much-discussed theme of American exceptionalism but also an innovative approach to comparative politics that treats the United States as but one case among many. An ideal textbook for both American and comparative politics courses.

**Political Parties and Party Systems** Moshe Maor, 2005-08-10 This

comprehensive textbook outlines and illuminates the main theories of political parties and party systems Applying these theoretical approaches to British party politics Moshe Maor covers all the key subjects of study including classification of party definitions party systems change party institutionalization cohesion and dissent intraparty conflicts and legislative bargaining multiparty electoral competition Maor's study highlights the importance of the intraparty arena and actors in understanding the shape and behaviour of political parties providing essential reading to students of party systems and of British politics
