

Political Theology Of Nature

Graham Hammill, Julia Reinhard Lupton

Political Theology Of Nature:

A Political Theology of Nature Peter Scott, 2003-03-06 This book argues that the modern separation of humanity from nature can be traced to the displacement of the triune God. Locating the source of our current ecological crisis in this separation, Peter Scott argues that it can only be healed within theology through a revival of a Trinitarian doctrine of creation interacting with political philosophies of ecology. Drawing insights from deep ecology, ecofeminism, and social and socialist ecologies, Scott proposes a common realm of God, nature, and humanity. Both Trinitarian and political, the theology of this common realm is worked out by reference to Christ and Spirit. Christ's resurrection is presented as the liberation and renewal of ecological relations in nature and society; the movement of the Holy Spirit is understood as the renewal of fellowship between humanity and nature through ecological democracy; and the Eucharist is proposed as the principal political resource Christianity offers for an ecological age.

Liberative Political Theology Miguel A. De La Torre, 2021-05-15 Jos Mart s Liberative Political Theology argues that Mart s religious views which at first glance might appear outdated and irrelevant are actually critical to understanding his social vision During a time in which the predominant philosophical view was materialistic e g Darwin Marx Mart sought to reconcile social and political trends with the metaphysical believing that ignoring the spiritual would create a soulless approach toward achieving a liberative society As such Mart used religious concepts and ideas as tools that could bring forth a more just social order In short this book argues Mart could be considered a precursor to what would come to be called liberation theology Miguel De La Torre has authored the most comprehensive text written thus far concerning Mart s religious views and how they affected his political thought The few similar texts that exist are written in Spanish and most of them romanticize Mart s spirituality in an attempt to portray him as a Christian believer Only a handful provide an academic investigation of Mart s theological thought based solely on his writings and those concentrate on just one aspect of Mart s religious influences Jos Mart s Liberative Political Theology allows for mutual influence between Mart s political and religious views rather than assuming one had precedence over the other **A Radical Political Theology for the Anthropocene Era** Ryan

Lupton, 2024-05-31 Political theology is a distinctly modern problem one that takes shape in some of the most important theoretical writings of the twentieth and twenty first centuries But its origins stem from the early modern period in medieval

iconographies of sacred kinship and the critique of traditional sovereignty mounted by Hobbes and Spinoza In this book Graham Hammill and Julia Reinhard Lupton assemble established and emerging scholars in early modern studies to examine the role played by sixteenth and seventeenth century literature and thought in modern conceptions of political theology Political Theology and Early Modernity explores texts by Shakespeare Machiavelli Milton and others that have served as points of departure for such thinkers as Schmitt Strauss Benjamin and Arendt Written from a spectrum of positions ranging from renewed defenses of secularism to attempts to reconceive the religious character of collective life and literary experience these essays probe moments of productive conflict disavowal and entanglement in politics and religion as they pass between early modern and modern scenes of thought This stimulating collection is the first to answer not only how Renaissance and baroque literature help explain the persistence of political theology in modernity and postmodernity but also how the reemergence of political theology as an intellectual and political problem deepens our understanding of the early modern period

The Ghost of Totalitarianism Martín Grassi ,2024-09-13 Martin Grassi deconstructs the totalitarian paradigm underlying Western political and theological discourses by a critical examination of the concept of spirit pneuma This notion plays a paramount role in such Western discourses as biology cosmology politics and theology for it is the principle that turns a plurality of elements into a systematic unity Christian political theology finds in the Holy Spirit the principle of efficacy of God s economy of redemption which has been ultimately defined as the realization of the Kingdom of God as a perfect and unified political system under the One Ruler Only through a deconstruction of this semantic performance of the Spirit are we to look for an alternative understanding of God and a Trinitarian dynamics that could stress singularity and relationality without reducing community to a merely organic totality

Political Theology of Kierkegaard Saitya Brata Das,2020-02-14 Saitya Brata Das argues that in Kierkegaard s work we find a radical eschatological critique not only of the liberal humanist pathos of modernity but also the political theology of Carl Schmitt that seeks to legitimise the sovereign power of the state by an appeal to a divine or theological foundation Relating Kierkegaard s notion of Christianity without Christendom to the Schellingian eschatological critique of sovereignty he shows how Schelling s insistence on the eschatological difference between religion and politics is transformed and further intensified in Kierkegaard s critique of historical reason Such an exception without sovereignty Das argues is the very task of our contemporary time

Technofutures, Nature and the Sacred Celia Deane-Drummond,Sigurd Bergmann,Bronislaw Szerszynski,2016-03-03 The capacity of human beings to invent construct and use technical artifacts is a hugely consequential factor in the evolution of society and in the entangled relations between humans other creatures and their natural environments Moving from a critical consideration of theories to narratives about technology and then to particular and specific practices *Technofutures Nature and the Sacred* seeks to arrive at a genuinely transdisciplinary perspective focusing attention on the intersection between technology religion and society and using insights from the environmental

humanities It works from both theoretical and practical contexts by using newly emerging case studies including geo engineering and soil carbon technologies and breaks open new ground by engaging theological scientific philosophical and cultural aspects of the technology religion nature nexus Encouraging us to reflect on the significance and place of religious beliefs in dealing with new technologies and engaging critical theory common in sociological political and literary discourses the authors explore the implicit religious claims embedded in technology
