Gold and Power in Ancient Costa Rica, Panama, and Colombia Jeffrey Quilter,John W. Hoopes,2003 The lands between Mesoamerica and the Central Andes are famed for the rich diversity of ancient cultures that inhabited them Throughout this vast region from about AD 700 until the sixteenth century Spanish invasion a rich and varied tradition of goldworking was practiced The amount of gold produced and worn by native inhabitants was so great that Columbus dubbed the last New

World shores he sailed as Costa Rica the Rich Coast Despite the long recognized importance of the region in its contribution to Pre Columbian culture very few books are readily available especially in English on these lands of gold Gold and Power in Ancient Costa Rica Panama and Colombia now fills that gap with eleven articles by leading scholars in the field Issues of culture change the nature of chiefdom societies long distance trade and transport ideologies of value and the technologies of goldworking are covered in these essays as are the role of metals as expressions and materializations of spiritual political and economic power These topics are accompanied by new information on the role of stone statuary and lapidary work craft and trade specialization and many more topics including a reevaluation of the concept of the Intermediate Area Collectively the volume provides a new perspective on the prehistory of these lands and includes articles by Latin American scholars whose writings have rarely been published in English

Cobble Circles and Standing Stones Jeffrey Quilter, 2004-04 In this first person tale of archaeological adventure in the tropical forest Jeffrey Quilter tells the story of his excavation of Rivas a great ceremonial center at the foot of the Talamanca Mountain range which flourished between A D 900 and 1300 and its fabled gold filled cemetery the Pante n de La Reina Beginning with the 1992 field season and ending with the last excavations in 1998 Quilter discusses Rivas builders and users theories on chiefdom societies and the daily interactions and surprises of modern archaeological fieldwork Writing in the first person with a balance between informal language and academic theory Quilter concludes that Rivas was a ceremonial center for mortuary rituals to bury chiefly elite on the Pante n Through use of his narrative technique he provides the reader with accounts of discoveries as they occurred in fieldwork and the development of interpretations to explain the ancient refuse and cobble architecture his team uncovered As his story progresses amid the enchantment of the Costa Rican landscape research plans are adjusted and sometimes completely overturned as new discoveries often serendipitous ones are made Such changing circumstances lead to new insights into the rise and fall of the people who built the cobble circles and raised the standing stones at Rivas a thousand years ago The only book in English that focuses on a single archaeological site in Costa Rica which continues to develop as a destination for archaeological tourism Cobble Stones and Standing Circles will appeal to laypeople and professionals alike
