Prebureaucratic Europeans A Study Of A Portuguese Fishing Community:

Pre-bureaucratic Europeans Jan Brøgger, 1989 The fishing community described in this study has remained comparatively isolated from mainstream European culture retaining a much less compartmentalized communal nature than the rest of society Brøgger examines marriages and family structure manners behavior and communal living the social organization of fishing supernatural beliefs connected with fishing and healing and belief to portray life in this distinct society in central Portugal

Historical Dictionary of Portugal Douglas L. Wheeler, Walter C. Opello Jr., 2010-05-10 Portugal is a small Western European nation with a large distinctive past replete with both triumph and tragedy One of the continent's oldest nation states Portugal has frontiers that are essentially unchanged since the late 14th century The country's unique character and 850 year history as an independent state present several curious paradoxes As of 1974 when much of the remainder of the Portuguese overseas empire was decolonized Portuguese society appeared to be the most ethnically homogeneous of the two Iberian states and of much of Europe This in spite of the fact that Portuguese society had received during 2 000 years of infusions of other ethnic groups in invasions and immigration Phoenicians Greeks Celts Romans Suevi Visigoths Muslims Arab and Berber Jews Italians Flemings Burgundian French black Africans and Asians Indeed Portugal has been a crossroads despite its relative isolation in the western corner of the Iberian Peninsula between the West and North Africa Tropical Africa and Asia and America Since 1974 Portugal's society has become less homogeneous as there has been significant immigration of former subjects from her erstwhile overseas empire The third edition of Historical Dictionary of Portugal greatly expands on the second edition through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions as well as on significant political economic social and cultural aspects

Inshore Fisheries Management David Symes, Jeremy Phillipson, 2001-12-31 Despite their importance in terms of employment and income generation inshore fisheries have been a neglected area of study The review of the common fisheries policy especially in the light of the need to re-examine the derogation which reserves access to the inshore zone to coastal state vessels provides an opportunity to redress the balance With contributions from leading authorities on fisheries management the book takes an in depth look at seven European countries examining the basis for the definition of inshore fisheries evaluating their status and describing the salient characteristics of their management The national studies form the basis for cross cultural analyses of the social organisation cultural norms economic objectives and institutional structures of inshore fisheries in Europe Finally a number of key issues relating to the future of inshore fisheries management in a more integrated approach are examined Overall the volume reaffirms the invaluable role played by inshore fisheries in the local and regional economies of Europe's complex coastline

Portuguese Studies Review, 1993

The Social Production of Indifference Michael Herzfeld, 1993-10 In this fascinating book Michael Herzfeld argues that modern bureaucratically regulated societies are no more rational or less symbolic than the societies traditionally studied by

anthropologists Drawing primarily on the example of modern Greece and utilizing other European materials he suggests that we cannot understand national bureaucracies divorced from local level ideas about chance personal character social relationships and responsibility He points out that both formal regulations and day to day bureaucratic practices rely heavily on the symbols and language of the moral boundaries between insiders and outsiders a ready means of expressing prejudice and of justifying neglect It therefore happens that societies with proud traditions of generous hospitality may paradoxically produce at the official level some of the most calculated indifference one can find anywhere **Anthropologica** ,1999

Encyclopedia of Religion and Nature Bron Taylor,Jeffrey Kaplan,2005-01-01 No Marketing Blurb The Sea Commands Paulo Mendes,2020-12-09 Azenha do Mar is a fishing community on the southwest coast of Portugal It came into existence around forty years ago as an outcome of the abandonment of work in the fields and of propitious ecological conditions This book looks at the migration processes since the founding of the community and how they relate to the social inequalities for property and labour which prevail today The book also reflects upon the personal experience of the ethnographer in the field balancing the importance of methodology on the one hand and fieldwork as a research process on the other Politics and Bureaucracy in the Norwegian Welfare State Halvard Vike,2017-10-20 The book aims to explain the emergence of the Norwegian and to some extent the Scandinavian welfare state in historical and anthropological terms Halvard Vike argues that particular forms of political grassroots mobilization contributed heavily to what he calls a low level of gravity state a political order in which decentralized institutions make it possible to curtail centralizing forces While there is a large international literature on the Nordic welfare states there is limited knowledge about how these states are embedded in local contexts Vike s approach is based on an ethnographic practice which may be labeled in and out of institutions It is based on ethnographic work in municipal assemblies local bureaucracies political parties voluntary organizations and various informal contexts **Amhara Traditions of Knowledge** Harald Aspen,2001 Originally presented as the author s thesis doctoral Universitetet i Trondheim 1994 under the title Spirits mediums and human worlds the Amahara peasants of the north Ethiopian highlands and their traditions **The Cinematic Tourist** Rodanthi Tzanelli,2007-06-11 This book takes a closer look at the phenomenon of cinematic tourism exploring audiences perceptions of film and their covert relationship with tourist advertizing campaigns alongside the nature of and resistance to newly born tourist industries **Anthropologica** ,1999 **Overlooking Nazareth** Dan Rabinowitz,1997-01-16 A sophisticated and engaging ethnographic account of the Palestinian citizens of Israel and the first since the 1970s Overlooking Nazareth examines specific situations of friction conflict and co operation in Natzerat Illit This Israeli new town is built on formerly Palestinian land just outside the biblical town of Nazareth and has a population of 25 000 Jewish Israelis and 3 500 Palestinians Dr Rabinowitz has written widely on the current political situation in Israel and has conducted extensive fieldwork in Galilee and he describes his study as a guided walk along a border a sketch of interfaces where the complex

often paradoxical aspects of the border situation are negotiated and acted out most vividly He highlights the extent to which anti Palestinian sentiments for which the town is known actually reflect widespread views of most Israelis This is a major contribution to our understanding of the confrontation between Israelis and Palestinians It offers powerful critique of reflexive anthropology and offers fresh insights into notions of ethnicity and identity nationalism and liberalism *Tourism, Globalisation, and Cultural Change* Donald V. L. Macleod, 2004-01-01 In what ways does tourism change the host community This book offers original insights into the broad and deep influences of tourism and places them within the historical context of globalisation Intensive fieldwork spanning many years on a Canary Island has produced a rich portrayal of the community examining the changes experienced in areas including their working lives families identities local culture values attitudes political structure and economic base The tourists predominantly independent are also examined and their unique impact analysed The research emphasises the indigenous experience and makes cross cultural comparisons especially with island communities It employs the methods of sociocultural anthropology and includes the multidisciplinary findings of tourism studies in doing so it is innovative and challenges standard understandings of the influence of specific types of tourism on small communities *Anthropologica*, 1999 *Journal of the Anthropological Society of Oxford* Anthropological Society of Oxford, 1994 *Europe in the Anthropological Imagination* Susan Parman, 1998 *Europe in the Anthropological Imagination* is a provocative reflective book about how American anthropologists study Europe The book is composed of fourteen essays by twelve anthropologists who have worked in Europe for at least twenty years These anthropologists were asked to address how when where and why they began to study Europe and to consider what this implied for the development of anthropology in general since anthropology is traditionally identified as a field that studies the non western exotic Other Back cover

British Bulletin of Publications on Latin America, the Caribbean, Portugal, and Spain, 1990 **Women of the Praia** Sally Cooper Cole, 1991-10-27 In this richly detailed sensitive ethnographic work Sally Cole takes as her starting point the firsthand accounts of five differently situated Portuguese women who describe their lives in a rural fishing community on the north coast of Portugal Skillfully combining these life stories with cultural and economic analysis Cole radically departs from the picture of women as sexual beings that prevails in the anthropological literature on Europe and the Mediterranean Her very different strategy a focus on women as workers reflects the Portuguese women's own definition of themselves and allows them the strong resonant voice that is the goal of both the new ethnography and feminist scholarship From this new perspective Cole proposes an important critique of the dominant paradigm of southern European gender relations as being embedded in the code of honor and shame Covering the Salazar years as well as the period since the 1974 Revolution Cole shows that fisherwomen of the past enjoyed greater autonomy in work and social relations than do their daughters and granddaughters who live in a context of increasing commoditization and industrialization Central to this account is an examination of the changing structure and role of the household as economic production moved to the factory
