Salvador was typified by a longstanding tradition of authoritarianism dating back to the early to mid nineteenth century The basic structures of that system were based on patron client relationships that wove local regional and national political actors into complex webs of rival patronage networks Decidedly nondemocratic in practice the system nevertheless exhibited highly paradoxical traits it remained steadfastly loyal to elections as the mechanism by which political aspirants acquired office and it employed a political discourse laden with appeals to liberty and free suffrage That blending of nondemocratic authoritarianism with populist reformism and rhetoric set the precedent for military rule for the next fifty years **Rick**
