## **Sanuma Memories:**

**Sanumá Memories** Alcida Rita Ramos, 1995 The Yanomami people of Brazil first attracted anthropological and popular attention in the 1960s when they were portrayed as essentially primitive and violent in the widely read book *Yanomamo The Fierce People*. To this image of the Yanomami another has recently been added that of victims of the economic rapacity devouring the Amazon. *Sanum Memories* moves beyond these images to provide the first anthropologically sophisticated account of the Yanomami and their social organization, kinship and marriage, capturing both individual experiences and the broader sociological trends that engulf them. A poignant personal story as well, it draws on Alcida Ramos's extensive fieldwork among the Sanum, the northernmost Yanomami subgroup, from 1968 to 1992, as she reports on the brutal impact of many invasions, from road construction to the gold rush that brought the Yanomami social chaos, thousands of deaths, devastation of gardens and forest, and a disquietingly uncertain future. At the cutting edge of anthropological description and analysis, *Sanum Memories* ponders the importance of otherness to the Sanum, describes Sanum spaces from the grandiosity of the rain forest to cozy family compartments, analyzes their notions of time from the minute reckoning of routine village life to historical and metaphysical macro time, shows how power and authority are generated and allocated in space and time, and examines the secrecy of personal names and the all-pervading consequences of disclosing them. Ramos's study is anthropologically sophisticated and ethnographically fascinating. She has been able to construct a particularly refined and compelling account of important problems presented by one of the most interesting indigenous groups in South America, an account that reflects her years of careful and insightful thinking about Sanum. **Cultures of Secrecy** Andrew Lattas, 1998 After driving the Japanese out of Papua New Guinea during World War II the U S military forces left their gear and the makings of a cargo cult to the native Kaliai CULTURES OF SECRECY offers a close look at how for fifty years the bush Kaliai in Melanesia have worked these tailings of the western world into their indigenous culture Lattas shows how cargo cults in general bring together past present and future in their curious blending of traditional myths imported folklore borrowed state practices and ideologies and reworked Christian stories The result is a richly interdisciplinary work that uses ethnography to explore questions of racial experience gender relations space time death and the politics of human relations Never passive imitators the Kaliai as Andrew Lattas portrays them actively incorporate and transform western beliefs and practices into their own narratives of life sexuality and death The consequences are new myths and histories new relationships with the ancestral dead an alternative world of power and knowledge through which the Kaliai accommodate the dominant white culture and its institutions Lattas examines the racial conflict that has riddled the recent history of the cargo cults He also describes the cults demonization by the New Tribes missionaries from the United States who disapprove of the villagers unorthodox miming of European symbols and practices His book allows us to see behind the villagers ambivalence toward waitskin white skins as they continue to reinvent their social world

**From Primitive to Postcolonial in Melanesia and Anthropology** Bruce Knaft, 2025-10-01 What have anthropologists taught us about Melanesia one of anthropology s most important and intensively studied world regions In this book Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history warfare and politics gender bodily practices and spirituality as discerned from more than a century of academic study From Primitive to Postcolonial in Melanesia and Anthropology is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades Written for students as well as professional scholars this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study Bruce M Knaft is Professor of Anthropology Emory University and the author of three previous books as well as some thirty journal articles and chapters Knaft s interests span a wide range of issues in the anthropology of Melanesia and he is articulate with general issues of cultural theory and anthropological history

The Living Ancestors Zeljko Jokic, 2015-09-01 This phenomenologically oriented ethnography focuses on experiential aspects of Yanomami shamanism including shamanistic activities in the context of cultural change The author interweaves ethnographic material with theoretical components of a holographic principle or the idea that the part is equal to the whole which is embedded in the nature of the Yanomami macrocosm human dwelling multiple soul components and shamans relationships with embodied spirit helpers This book fills an important gap in the regional study of Yanomami people and on a

broader scale enriches understanding of this ancient phenomenon by focusing on the consciousness involved in shamanism through firsthand experiential involvement      Scoping the Amazon Stephen Nugent, 2016-07-01 The Amazon Indian is an icon that straddles the world between the professional anthropologist and the popular media Presented alternately as the noble primitive the savior of the environment and as a savage dissolute cannibalistic half human it is an image well worth examining Stephen Nugent does just that critiquing the claims of authoritativeness inherent in visual images presented by anthropologists of Amazon life in the early 20th century and comparing them with the images found in popular books movies and posters The book depicts the field of anthropology as its own form of culture industry and contrasts it to other similar industries past and present For visual anthropologists ethnographers Amazon specialists and popular culture researchers Nugent's book will be enlightening entertaining reading      *Predatory Economies* Amy Penfield, 2023-04-18 2024 Honorable Mention Fernando Coronil Prize Latin American Studies Association Section on Venezuelan Studies A study of the modes of predation used by and against the Sanema people of Venezuela Predation is central to the cosmology and lifeways of the Sanema speaking Indigenous people of Venezuelan Amazonia but it also marks their experience of modernity under the socialist Bolivarian regime and its immense oil wealth Yet predation is not simply violence and plunder For Sanema people it means a great deal more enticement seduction persuasion It suggests an imminent threat but also opportunity and even sanctuary Amy Penfield spent two and a half years in the field living with and learning from Sanema communities She discovered that while predation is what we think it is invading enemies incursions by gold miners and unscrupulous state interventions Sanema are not merely prey Predation or appropriation without reciprocity is essential to their own activities They use predatory techniques of trickery in hunting and shamanism activities while at the same time they employ tactics of manipulation to obtain resources from neighbors and from the state A richly detailed ethnography *Predatory Economies* looks beyond well worn tropes of activism and resistance to tell a new story of agency from an Indigenous perspective

*Toward a Nonkilling Paradigm* Joám Evans Pim, 2009 The present volume brings together 24 authors and 14 disciplines including anthropology arts biology economics engineering geography health sciences history linguistics mathematics philosophy physics psychology and sociology to seriously consider the prospects for the realization of nonkilling societies and to challenge each discipline's role in the necessary social and scientific transformation toward a killing free world Pub
