**Strays** Virginia Castleman, 2014-02-14 Sara and Anna Olson awaken each morning without the comfort of their parents love Orphaned at a young age theyve tried their best to find a sense of safety and security within the foster system At nine and eleven they know more about the world than children twice their age and its a knowledge they have paid dearly to earn Inspired by true events their story is one of survival but its also one of friendship sisterhood and hope They must find the strength to face the world with courage and faith Amid the tattered remains of their innocence the sisters know that no matter what else life delivers they can always count on each other When their ever shifting world is rocked by three wood splintering knocks on the door one cold autumn night the sisters flee into the darkness alone and terrified What could drive them into the frigid night air On that night Sara makes a promise to her sister one she spends her whole life trying to keep But it may be a promise that is destined to be broken *The Art of Time* Nina L Molinaro, 2019-07-12 Ethics or the systematized set of inquiries and responses to the question what should I do has infused the history of human narrative for more than two centuries One of the foremost theorists of ethics during the twentieth century Emmanuel Levinas 1906 1995 radicalized the discipline of philosophy by arguing that the ethical is the foundational moment for human subjectivity and that human subjectivity underlies all of Western philosophy Levinas s voice is crucial to the resurging global attention to ethics because he grapples with the quintessential problem of alterity or otherness which he conceptualizes as the articulation of and prior responsibility to difference in relation to the competing movement toward sameness Academicians and journalists in Spain and abroad have recently fastened on an emerging cluster of peninsular writers who they argue pertain to a discernible literary generation provisionally referred to as Generaci n X These writers are distinct from their predecessors they and their literary texts are closely related to the specific socio political and historical circumstances in Spain and their novels relate stories of more and less proximity more and less responsibility and more and less temporality In short they trace the temporal movement of alterity through narrative Published by Bucknell University Press Distributed worldwide by Rutgers University Press *The Last of the Mortimers* Margaret Oliphant, 1862 **Counseling Anarchists** Anne Hart, 2002-03-06 The men who came to strangle me were shrinking my world like the most delicately tinted of bubbles shrinking in ever narrowing circles from the upward gush of my own infancy You ve got to be crazy to see a psychiatrist Don t call me if you re gnawing on a bad day and all you want to do is have a discussion We all marry our mirrors someone who reflects how we feel about ourselves at the moment Every wife is a mirror of her own husband s failures and every husband a reflection of his wife s successes If you want to make money you find a void in society and fill it With more than 60 percent of women being snuffed its no wonder a sharp promoter saturated the market with anarchists feeling their inadequacies Their words fall like an embroidered saddle on a jackass Remember when only female failures married when career success eluded

them Anarchists dolls don't expand into motherhood They're squeezed into silver plated girdles where the only private space is a purse
