Making India: Colonialism, National Culture, and the Afterlife of Indian English
Authority Makarand R. Paranjape,2012-09-03 Compared to how it looked 150 years ago at the eve of the colonial conquest today s India is almost completely unrecognizable A sovereign nation with a teeming industrious population it is an economic

powerhouse and the world's largest democracy. It can boast of robust legal institutions and a dizzying plurality of cultures in addition to a lively and unrestricted print and electronic media. The question is how did it get to where it is now. Covering the period from 1800 to 1950, this study of about a dozen makers of modern India is a valuable addition to India's cultural and intellectual history. More specifically, it shows how through the very act of writing often in English, these thought leaders reconfigured Indian society. The very act of writing itself became endowed with almost a charismatic authority which continued to influence generations that came after the exit of the authors from the national stage. By examining the lives and works of key players in the making of contemporary India, this study assesses their relationships with British colonialism and Indian traditions. Moreover, it analyzes how their use of the English language helped shape Indian modernity, thus giving rise to a uniquely Indian version of liberalism. The period was the fiery crucible from which an almost impossibly diverse and pluralistic new nation emerged through debate, dialogue, conflict, confrontation, and reconciliation. The author shows how the struggle for India was not only with British colonialism and imperialism but also with itself and its past. He traces the religious and social reforms that laid the groundwork for the modern subcontinental state proposed and advocated in English by the native voices that influenced the formation of India's society. Merging culture, politics, language, and literature, this is a path-breaking volume that adds much to our understanding of a nation that looks set to achieve much in the coming century.

Anglophone Indian Women Writers, 1870-1920 Ellen Brinks, 2016-04-15. The result of extensive archival recovery work, Ellen Brinks's study fills a significant gap in our understanding of women's literary history of the South Asian subcontinent under colonialism and of Indian women's contributions and responses to developing cultural and political nationalism. As Brinks shows, the invisibility of Anglophone Indian women writers cannot be explained simply as a matter of colonial marginalization or as a function of dominant theoretical approaches that reduce Indian women to the status of figures or tropes. The received narrative that British imperialism in India was perpetuated with little cultural contact between the colonizers and the colonized population is complicated by writers such as Toru Dutt, Krupabai Satthianadhan, Pandita Ramabai, Cornelia Sorabji, and Sarojini Naidu. All five women found large audiences for their literary works in India and in Great Britain, and all five were also deeply rooted in and connected to both South Asian and Western cultures. Their works created new zones of cultural contact and exchange that challenge postcolonial theory's tendencies towards abstract notions of the colonized woman as passive and of English as a de facto instrument of cultural domination. Brinks's close readings of these texts suggest new ways of reading a range of issues central to postcolonial studies: the relationship of colonized women to the metropolitan literary culture; Indian and English women's separate and joint engagements in reformist and nationalist struggles; the translatability of culture; the articulation strategies and complex negotiations of self-identification of Anglophone Indian women writers; and the significance and place of cultural difference.
