the iPhone's minimal screen real estate. Their stories illustrate precisely why, with more apps and more experienced creative developers, no iPhone app can succeed without a great user interface. Whatever type of iPhone project you have in mind—social networking app, game, or reference tool—you'll benefit from the information presented in this book. More than just tips and pointers, you'll learn from the authors' hands-on experiences, including Dave Barnard of AppCubby on how to use Apple's user interface conventions and test for usability to assure better results. Joachim Bondo, creator of Deep Green Chess, beats a classic design problem of navigating large dataset results in the realm of the iPhone. Former Apple employee Dan Burcaw tailors user interfaces and adds the power of CoreLocation, Address Book, and Camera to the social networking app Brightkite. David Kaneda takes his Basecamp project management client Outpost from a blank page, literally, to a model of dashboard clarity. Craig Kemper focuses on the smallest details to create his award-winning puzzle games TanZen and Zentomino. Tim Novikoff, a graduate student in applied math with no programming experience, reduces a complex problem to simplicity in Flash of Genius SAT Vocab. Long-time Mac developer Chris Parrish goes into detail on the creation of the digital postcard app Postage, which won the 2009 Apple Design Award. Flash developer Keith Peters provides solutions for bringing games that were designed for a desktop screen to the small, touch-sensitive world of the iPhone. Jürgen Siebert, creator of FontShuffle, outlines the anatomy of letters and how to select the right fonts for maximum readability on the iPhone screen. Eddie Wilson, an interactive designer, reveals the fine balance of excellent design and trial-by-fire programming used to create his successful app Snow Report. Combined with Apress's best-selling *Beginning iPhone 3 Development: Exploring the iPhone SDK*, you'll be prepared to match great code with striking design and create the app that everyone is talking about.
