Psychological Healing: An Islamic Thought of Intellectual Fitness Qamrul Khanson,2012-01-11 This book Psychological Healing covers twenty five chapters filled with situations where humans succumb to challenging circumstances By following the advice the reader would fulfill its obligation of self counseling A self healing desired by your Lord a living admired by your fellow humans and satisfied by your own self of your fulfillment in life **Why Should I Be Muslim** Qamrul Khanson,2010-05-18 Every human born in this world inherits a right to choose his her destiny Not everyone makes a righteous choice but a right of choice is available to all In order to make a righteous choice one must consider life in this world and the life hereafter in to account The choice shall be to revere unto ONE who creates never dies and lives in eternity that is Almighty The God Goodness is the perception and dream of every human in this life That dream could only be achieved when human is not in conflict within self The self shall be maintained pure by abidance of life principles recommended by Almighty The God When human abides by such principles of life conscious becomes clear self confidence evolves futuristic events become understandable and human life is fully consoled *The Original Sin and Human Diseases* Hanna Rizk Wannas MD FRCS ED FICS,2014-01-30 This text is unique it is the first book of its kind that challenges the theory of evolution by the word of God In the text it will be proved beyond doubt that the word of God is powerful with a two edged sword It divides asunder and exposes the counterfeit and the false Not only that but it proves the validity of the arguments by using medical and surgical studies of the patients ailments The author is a scientist and a surgeon He studied anatomy and embryology in full details that makes him argue with confidence The doctrine of creation has a solid foundation which is the true word of God The author used the results of surgical procedures that are done by spiritual knowledge compared to others done by natural man whose knowledge is based on the theory of evolution These have changed the procedures from difficult and complicated to a single day procedure with financial gains to the patient and to the public The relation between sin diseases and death is studied and proved beyond doubt The salvation by justification sanctification and righteousness is explained and also proved beyond doubt Man is created and evolved to a higher degree of holiness by the working power of the Holy Spirit contrary to evolution by genetic mutation and natural selection that might promote the man to a high intellectual standard but this usually brings low moral value with it that at the end lead to death from moral decay alcoholism and drug addiction The evolution is produced by knowledge and experience and it carries with it away from God all the destructive elements to humans *Satan's Counterfeit Healing* Lawrence E. Burkholder,2019-09-30 The Christian church worldwide has been taken prisoner by Satan s counterfeit healing This statement is based on the author s personal experience modest exposure to the Toronto Blessing observation of parachurch healing ministries and extensive historical reconstructions Satan s Counterfeit Healing presents and evaluates Satan s supernatural healing from the Paleolithic period ca 45000 BCE to the contemporary church The guiding thesis is that Satan and his demonic surrogates perform miracles

which are evident as psi paranormal phenomena These manifestations include physical and exorcistic supernatural healings Paleolithic and Neolithic periods produced Great Mother goddess worship and healing which have persisted ever since These idolatries combined with OT nature gods were a backdrop to Jesus true miracles For two thousand years of church history there s been a tug of war between true and false healing Mother goddess as Mariological shrine healing joined with natural and demonic magic and esoteric energy psi Alongside these the Holy Spirit has raised up genuine healers and their ministries Modern healing is marked by energy counterfeits and faith healing the latter especially accompanied by trance false prophecy and psi transformations True divine healing can be recovered when Christians repudiate nature gods reject false prophecy and restore proper eschatology

Reassessing Order and Disorder in the Middle East Robert Mason, 2017-02-09 The Middle East is undergoing a period of profound change partly brought about by the United States interventions in Afghanistan and Iraq but also by the Arab Spring This is affecting regional relations between states and between the region and the US For example Qatar Saudi Arabia and the UAE have supported rebel groups in Syria against the government which was supported by Iran Political Islam is a threat to both monarchies in the Gulf and secular states Non state actors such as Islamic State IS and the Kurdish Regional Government KRG are assuming an increasingly important role in shaping the region Further states such as Qatar and Turkey have undertaken their own quests to shift the existing regional balance of power in their favor through soft power deployment or new or broader international alliances Lastly the close strategic US Saudi relationship primarily based on oil and arms is being eroded by a new economic reality and divergent foreign policy interests This shifting alliances and new regional order is the focus of the book which examines the factors that significantly impact the foreign relations between the countries of the Middle East Through multiple case studies the essays identify the emerging trends and influences that are now dominating the political decision making and policy behavior of many key states The contributors both scholars and practitioners investigate the main foreign policy challenges and debates in the various states the changing relations and balance of power between them and the continuing role of the United States in the Middle East Each chapter provides an overview of the last decade or so before delving into the current challenges and opportunities often in light of the US as a power with the ability to significantly impinge on state policies and what these issues mean for the regional order This primer on state politics and the transformative capacity of the Middle East will appeal to anyone studying the region Contributions by Gawdat Bahgat Martin Beck Kamran Bokhari Morgane Colleau Bryan Gibson Christian Henderson Ren Rieger Farid Senzai and Sebastian Sons
