Savage Dream:

Dreams, Dreamers, and Visions Ann Marie Plane, Leslie Tuttle, 2013-04-26 In this volume scholars from three continents trace the role of dreams in the cultural transitions of the early modern Atlantic world illustrating how both indigenous and European methods of understanding dream phenomena became central to contests over religious and political power

Dream Work Jeremy Taylor, 1983 All people dream regularly regardless of their circumstances whether they remember their dreams upon awakening or not From the beginning of human history dreams have been a source of creative inspiration and spiritual renewal emotional and psychological insight and scientific and cultural innovation **Dreams and Primitive Culture** William Halse Rivers Rivers, 1918 **Camera Works** Michael North, 2005 Camera Works is about the impact of photography and film on modern art and literature For many artists and writers these new media offered hope of new means of representation neither linguistic nor pictorial but hovering in a kind of utopian space between At the same time the new media introduced a dramatic element of novelty into the age old evidence of the senses For the avant garde the challenges of the new media were the modern in its most concentrated form but even for aesthetically unadventurous writers they constituted an element of modern experience that could hardly be ignored Camera Works thus traces some of the more utopian projects of the transatlantic avant garde including the Readie machine of Bob Brown which was to turn stories and poems into strips of linguistic film The influence of photography and film on the avant garde is traced from the early days of Camera Work through the enthusiasm of Eugene Jolas and the contributors to his magazine transition to the crisis created by the introduction of sound in the late 1920s Subsequent chapters describe the entirely new kind of sensory enjoyment brought into modern American fiction by the new media What Fitzgerald calls spectroscopic gayety the enjoyable disorientation of the senses by machine perception turns out to be a powerful force in much American fiction The revolutionary possibilities of this new spectatorship and its limitations are pursued through a number of examples including Dos Passos James Weldon Johnson and Hemingway Together these chapters offer a new and substantially different account of the relationship between modern American literature and the mediatized society of the early twentieth century With a comprehensive introduction and detailed particular readings Camera Works substantiates a new understanding of the formal and historical bases of modernism It argues that when modern literature and art respond to modernity on a formal level they are responding to the intervention of technology in the transmission of meaning an intervention that unsettles all the terms in the essential relationship of human consciousness to the world of phenomena Aesthetics, Dreams and Association of Ideas James Sully, George Croom Robertson, 1888 **The Statuette and the Background** Henry B. Brewster, 1896 Empire of Religion David Chidester, 2014-03-19 How is knowledge about religion and religions produced and how is that knowledge authenticated and circulated David Chidester seeks to answer these questions in Empire of Religion documenting and analyzing the emergence of a science of comparative religion in Great Britain during the second half of the nineteenth

century and its complex relations to the colonial situation in southern Africa In the process Chidester provides a counterhistory of the academic study of religion an alternative to standard accounts that have failed to link the field of comparative religion with either the power relations or the historical contingencies of the imperial project In developing a material history of the study of religion Chidester documents the importance of African religion the persistence of the divide between savagery and civilization and the salience of mediations imperial colonial and indigenous in which knowledge about religions was produced He then identifies the recurrence of these mediations in a number of case studies including Friedrich Max Müller s dependence on colonial experts H Rider Haggard and John Buchan s fictional accounts of African religion and W E B Du Bois s studies of African religion By reclaiming these theorists for this history Chidester shows that race rather than theology was formative in the emerging study of religion in Europe and North America Sure to be controversial *Empire of Religion* is a major contribution to the field of comparative religious studies

Harlem Renaissance Lives from the African American National Biography Henry Louis Gates (Jr.), Evelyn Brooks Higginbotham, 2009 The Harlem Renaissance is the best known and most widely studied cultural movement in African American history Now in *Harlem Renaissance Lives* esteemed scholars Henry Louis Gates Jr and Evelyn Brooks Higginbotham have selected 300 key biographical entries culled from the eight volume *African American National Biography* providing an authoritative who s who of this seminal period Here readers will find engagingly written and authoritative articles on notable African Americans who made significant contributions to literature drama music visual art or dance including such central figures as poet Langston Hughes novelist Zora Neale Hurston aviator Bessie Coleman blues singer Ma Rainey artist Romare Bearden dancer Josephine Baker jazzman Louis Armstrong and the intellectual giant W E B Du Bois Also included are biographies of people like the Scottsboro Boys who were not active within the movement but who nonetheless profoundly affected the artistic and political statements that came from Harlem Renaissance figures The volume will also feature a preface by the editors an introductory essay by historian Cary D Wintz and 75 illustrations

Kingsley's passion for both literature and inquiry informs his essays capturing the zeitgeist of a generation grappling with rapid change and technological progress. This collection is highly recommended for readers interested in the historical interplay between science and society. Whether you are a student of science literature or the social history of the 19th century, Kingsley's essays provide not only intellectual engagement but also provoke important considerations about the role of science in contemporary life. A valuable read for both scholars and the general public, this book encourages reflection on how far we have come and the responsibilities that lie ahead. The Encyclopaedia Britannica Thomas Spencer Baynes, 1878

The Encyclopædia Britannica, 1893 Revenge of the Nerd Curtis Armstrong, 2017-07-11 Risky Business Revenge of the Nerds Better Off Dead Moonlighting Supernatural American Dad New Girl What do all of these movies and television shows have in common? Curtis Armstrong. A legendary comedic second banana to a litany of major stars, Curtis is forever cemented in the public imagination as Booger from Revenge of the Nerds. A classically trained actor, Curtis began his incredible 40-year career on stage but progressed rapidly to film and television. He was typecast early, and it proved to be the best thing that could have happened. But there's more to Curtis' story than that. Born and bred a nerd, he spent his early years between Detroit, a city so nerdy that the word was coined there in 1951, and improbably Geneva, Switzerland. His adolescence and early adulthood was spent primarily between the covers of a book and indulging his nerdy obsessions. It was only when he found his true calling as an actor and unintentional nerd icon that he found true happiness. With whip-smart self-effacing humor, Armstrong takes us on a most unlikely journey: one nerd's hilarious, often touching rise to the middle. He started his life as an outcast and matured into well, an older, slightly paunchier, hopefully wiser outcast. In Hollywood, as in life, that counts as winning the game. *Cecil B. DeMille* Simon Louvish, 2008-03-04 Examines the life and work of the motion picture director best known for his biblical sagas including *Samson and Delilah* and *The Ten Commandments*, discussing his complex personal life and the paradoxes existing within his films. , **The Folk-lore of Plants** T. F. Thiselton-Dyer, 2025-08-31
