female sphere and its relation to the official male dominated ideology Within these festivals are encountered supplementary complementary or competing ideologies connected with men and women and it is shown that there is not a one way power structure or male dominance within Greek culture but rather competing powers linked to the two sexes and their respective spheres In addition to gender the book also explores the relationship between the great and little societies in the form of official and popular religion As such it will serve to broaden the reader s knowledge of ancient but also modern society because it concerns the relationship between various spheres of life which each possess their own competing and overlapping but also co existing value systems

**French Primitivism and the Ends of Empire, 1945-1975** Daniel J. Sherman, 2011-11-15 For over a century the idea of primitivism has motivated artistic modernism Focusing on the three decades after World War II known in France as les trentes glorieuses despite the loss of most of the country's colonial empire this probing and expansive book argues that primitivism played a key role in a French society marked by both economic growth and political turmoil In a series of chapters that consider significant aspects of French culture including the creation of new museums of French folklore and of African and Oceanic arts and the development of tourism against the backdrop of nuclear testing in French Polynesia Daniel J Sherman shows how primitivism a collective fantasy born of the colonial encounter proved adaptable to a postcolonial inward looking age of mass consumption Following the likes of Claude Lévi-Strauss André Putnam and Jean Dubuffet through decorating magazines museum galleries and Tahiti's pristine lagoons this interdisciplinary study provides a new perspective on primitivism as a cultural phenomenon and offers fresh insights into the eccentric edges of contemporary French history

Early nineteenth century British literature is overpopulated with images of dead and deadly animals as Chase Pielak observes in his study of animal encounters in the works of Charles and Mary Lamb John Clare Samuel Taylor Coleridge Lord Byron and William Wordsworth These encounters Pielak suggests coincide with anxieties over living alongside both animals and cemeteries in the late eighteenth and early nineteenth centuries Pielak traces the linguistic physical and psychological interruptions occasioned by animal encounters from the heart of communal life the table to the countryside and finally into and beyond the wild cemetery He argues that Romantic period writers use language that ultimately betrays itself in beastly disruptions exposing anxiety over what it means to be human what happens at death the consequences of living together and the significance of being remembered Extending his discussion past an emphasis on animal rights to an examination of animals in their social context Pielak shows that these animal representations are both inherently important and a foreshadowing of the ways we continue to need images of dead and deadly Romantic beasts     **Public Library Catalog** ,1989     **Dictionary Catalog of the Schomburg Collection of Negro Literature and History** Schomburg Center for Research in Black Culture,Schomburg Collection of Negro Literature and History,1962     Catalog of the Communications Library, University of Illinois University of Illinois at Urbana-Champaign.
