Saving Christianity New Thinking For Old Beliefs:

Saving Christianity Hilary Wakeman, 2012-10-04 I believe because it is impossible Tertullian 2nd century Some of the statements of belief that Christians are required to assent to such as the Virgin Birth and the bodily Resurrection of Jesus are driving many of them out of the Catholic and Protestant churches and preventing new people from coming in Yet those statements were formulated nearly two thousand years ago in a time when people understood the world very differently For over 150 years theologians of all denominations have been warning the Church that if it is not to become extinct it needs to look for the truths that lie behind those ancient formulations and find new ways of presenting them But their words have been ignored by the church authorities and by priests and ministers preferring not to disturb the present faith of their congregations And so the gap between the theologians and the people in the pews continues to widen Now many Christians are taking their beliefs into their own hands Increasingly they are meeting in small groups and communities without formal leadership and without formal doctrine ignoring denominational differences yet bringing the best of their various traditions with them Is this the Christianity of the future In this book Hilary Wakeman a recently retired priest in the Church of Ireland talks about the difference between right brain and left brain approaches to faith and religion and considers some of the ways that the core doctrines of Christianity can be re stated so that they can be expressed with honesty and integrity

Empirical Theology in Texts and Tables Leslie J. Francis, Mandy Robbins, Jeff Astley, 2009 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate In this pioneering collection of focused essays leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns Saving Christianity? Michael Youssef, 2020-03-03 A clear and frank exploration of the future of Christianity and whether it needs to be saved We live in confusing times Our society has shifted on its moral axis and many are asking whether Christianity needs to be reinvented or even reimagined in order to save it With Newsweek declaring The Decline and Fall of Christian America on its cover and The Daily Beast questioning Does Christianity Have a Future bloggers and Christian commentators are discussing whether we need a new of kind of Christianity In Saving Christianity Dr Michael Youssef explores this train of thought and its pitfalls He describes how similar discussions in Christianity s recent past explored the very same question Saving Christianity will help you discern what is going on within the church while it reviews the essentials of the Christian faith as described in the Bible We dare not abandon this mere faith as Dr Youssef describes it because it is the light for all humanity and especially for those of us living in today s chaotic times

After reading Saving Christianity you ll have a renewed confidence in the future of the church and the central place it will occupy for generations to come **Reclaiming Jesus** Ian Breckenridge-Jackson, 2011-03-16 The figure of Jesus many people have today is perfectly unreal half man half god unsmiling apparently in love with death Can we do better than this sad caricature Reclaiming Jesus digs through the evidence and comes up with a few surprises and reveals a Jesus most of us haven t met before We notice his mischievous style with people and his love of the comic and the contradictory We see him as a youth in the desert struggling to contain his tumult of ideas We wonder about an unspoken grief in early years Later in the book discover how he turns traditional ideas inside out seeing human nature within a wholly new reality We examine what others made of him and trace the story forward to where we are today Finally we wonder what this extraordinary teaching about a source of strength within us can tell us as our species faces up to the daunting challenges of our own time

Challenge to the Church Marvin E. Bryce, 2005-06-21 The Christian Church has taken Jesus and converted him from a man to a mythical Christ The result has been ignorance and intolerance The real message of Jesus was human centered one of compassion love humility and tolerance Incredibly anyone who supports these ideals today remains on the fringe of the Christian faith We can choose to follow the advice of Jesus and his early followers to find fulfillment by striving to make this world our lives and the lives of others what we want them to be We need to liberate Jesus and therefore ourselves so that we can assume more responsibility for each other No matter how we eventually choose to frame it it all begins with a human Ordinary Christology Ann Christie, 2016-05-13 Ordinary Christology is defined as the account of who Jesus connection was is and what he did does that is given by Christian believers who have received no formal theological education In this fascinating study Ann Christie analyses and offers a theological appraisal of the main christologies and soteriologies operating in a sample of ordinary churchgoers Christie highlights the formal characteristics of ordinary Christology and raises questions about how we should respond to the beliefs about Jesus held by ordinary churchgoers Empirical findings have important pastoral theological and missiological implications and raise important questions about the importance or otherwise of right belief for being Christian This book presents a model for how the study of ordinary theology can be conducted with the in depth theological analysis and critique which it both requires and deserves The Superior American Religions Hugo Hume, 1928 Christian Thought, 1916 **Worldview for Christian Witness** Charles H. Kraft, 2008-06-01 In Worldview for Christian Witness Charles Kraft invites readers to understand REALITY as God sees it by learning to take seriously the insights of other societies The diversity of cultures can seem obvious but to really understand the significance of those surface level differences one needs to understand the deep level assumptions on which they are **Expository Thoughts on the Gospel of Mark: A Commentary** J. C. Ryle, 2020-03-02 Who then is this that even based the wind and the sea obey Him Mark 4 41 Wisdom encouragement and exhortation is contained in these pages Not because of the author's brilliance but because of the words of truth contained in the gospel of Mark And just as the apostle Mark didn t draw any attention to himself so also J C Ryle clearly and wonderfully directs his words and our thoughts towards the inspired words of scripture If we truly love God we will love His word and the more study His word the more we will love God

Living in God's Two Kingdoms David VanDrunen, 2010-10-06 Modern movements such as neo Calvinism the New Perspective on Paul and the emerging church have popularized a view of Christianity and culture that calls for the redemption of earthly society and institutions Many Christians have reflexively embraced this view enticed by the socially active and engaged faith it produces Living in God's Two Kingdoms illustrates how a two kingdoms model of Christianity and culture affirms much of what is compelling in these transformationist movements while remaining faithful to the whole counsel of Scripture By focusing on God's response to each kingdom his preservation of the civil society and his redemption of the spiritual kingdom VanDrunen teaches readers how to live faithfully in each sphere Highlighting vital biblical distinctions between honorable and holy tasks VanDrunen's analysis will challenge Christians to be actively and critically engaged in the culture around them while retaining their identities as sojourners and exiles in this world The Bible and Christianity in the Scientific Perspective Byung Kook Hwang, 2025-07-31 Korean the Facts .1927 Christianity must now be reborn as a biblical agape religion of love and life away from the religion of salvation and self love that seeks personal blessing God is love 1 John 4 8 Jesus is the source of life There is life in Jesus Christ John 1 4 and Jesus is the Word of life 1 John 1 1 The core of the Christian faith is faith alone in God and Jesus Christ True Christians must understand the Bible correctly obey and believe in God and live righteously and good according to the Bible and God s will The life of Jesus Christ is the highest standard of life for people to imitate Christians in Korea should live a life of action in practice according to God's word in the Bible at home and in society They should love one another in deed and truth not just in word or in tongue 1 John 3 18 Only when this agape style life of God's love takes root in Korean society a truly biblical Christian culture will be established in Korea True Christians have freedom in the Lord Jesus Christ and live a life of faith in obedience to God and Jesus Christ refusing to be servants of the world Wonderpowers: the Power of Truth Will Save the World Maggie Moline, 2010-09-14 What we are thinking is what we attract and create so this book looks at our collective consciousness to see what we have collectively been thinking and doing wrong since the beginning of time to create all of the problems in the world Then as we awaken we can begin to rebuild our consciousness and world from the ground up to create a new foundation with new programs and thinking that do serve us As we look at the role that religion and government has played we can also arrive with a new understanding and direction of where to go from here starting with learning to think globally and become World Citizens We must unite with our new collective consciousness of World Peace and act accordingly as The Power of Truth will save the World The New Perspective on Paul James D.G. Dunn, 2008 The New Perspective on Paul By author James D G Dunn published on January 2008 by James D G Dunn 2008 Paul N. T. Wright, 2008-10-28 Ranks the Apostle Paul as one of the most powerful and seminal minds of the first or any century and argues that we can now

sketch with confidence a new and more nuanced picture of Paul and the radical way in which his encounter with Jesus redefined his life his mission and his expectations for a world made new in Christ Reprint
