Retelling the Stories of Our Lives David Denborough, 2014-01-06 Powerful ideas from narrative therapy can teach us how to create new life stories and promote change Our lives and their pathways are not fixed in stone instead they are shaped by story The ways in which we understand and share the stories of our lives therefore make all the difference If we tell stories that emphasize only desolation then we become weaker If we tell our stories in ways that make us stronger we can soothe our losses and ease our sorrows Learning how to re envision the stories we tell about ourselves can make an enormous difference in the ways we live our lives Drawing on wisdoms from the field of narrative therapy this book is designed to help people rewrite and retell the stories of their lives The book invites readers to take a new look at their own stories and to find significance in events often neglected to find sparkling actions that are often discounted and to find solutions to problems and predicaments in unexpected places Readers are introduced to key ideas of narrative practice like the externalizing problems the person is not the problem the problem is the problem and the concept of re membering one's life Easy to understand examples and exercises demonstrate how these ideas have helped many people overcome intense hardship and will help readers make these techniques their own The book also outlines practical strategies for reclaiming and celebrating one's experience in the face of specific challenges such as trauma abuse personal failure grief and aging Filled with relatable examples useful exercises and informative illustrations Retelling the Stories of Our Lives leads readers on a path to reclaim their past and re envision their future

the journey of one highly curious and questing therapist from an instrumental causal approach to family therapy to a collaborative communal one Because Lynn Hoffman has been in the field for almost forty years and has worked with so many of its influential thinkers the book is also a history of family therapy s evolution Her knowledge of family therapy is intimate and deep her perspective is clear eyed and often wryly humorous Readers will be reminded that however big and impressive the theories family therapy is very much a human endeavor Hoffman revisits the experiences ideas and relationships that have informed her journey and presents them both as she perceived them at the time and as she perceives them now looking back Through this process of reflective conversation she creates not only a legacy out of the people and situations that acted on her most powerfully but also a countertradition to the strategic approach that influenced her so strongly early in her career But this is not just history Throughout her career Hoffman has been in the forefront of family therapy She has interacted with and sometimes worked closely with many of family therapy s influential thinkers and actors including Jay Haley Virginia Satir Dick Auerswald Harry Aponte Peggy Papp Olga Silverstein the Milan team Peggy Penn Harry Goolishian Harlene Anderson Tom Andersen and Michael White The evolution of her thinking has paralleled the major developments in the field As she braids together continuity and innovation she finds her own voice a different voice and her own style more open more inclusive and less controlling In the second half of the book Hoffman demonstrates the many possibilities inherent in not knowing in working with a reflecting team in looking for the presenting edge and in grabbing the emotional main chance

fifth generation great grandmother Baroness Mary Ann Wellington Armstrong In the scroll she sends to her the ancestor tells Arabella she is destined to go on four separate journeys goodwill missions that she also went to after turning eleven years old to help an oppressed people who are waiting for the stranger to arrive This has been foretold and she will rescue them from their dire situation But at the same time Arabella as her ancestors the baronesses before her will have the greatest adventures in her lifetime and will have lasting memories of people she will grow to love on each of her journeys and through the trials and perils she goes through in each journey she undertakes will make her strong in faith She will also gain values that will benefit her and others for the rest of her life Also according to Arabella s ancestor s handwritten scroll no one in the castle will know that she is gone because each journey will last a moment there at the Wellington Castle however each journey Arabella goes on while she is in the distant lands will last up to eleven months It was the same for the other Wellington girls the mysterious tree appeared to after they turned eleven years old the ones who lost their mothers the baronesses during childbirth When Arabella realizes she has the opportunity of a lifetime to see great fantastic adventures on her journeys and goodwill missions to help others in need she decides it beats sitting in the old castle waiting for her father to get over her mother s death and return to her at the Wellington Castle more permanently as she is growing up because she wants her father to be with her She is indeed looking forward to her four journeys and her first journey is about to begin
