countries such as Germany the Netherlands and the United Kingdom have witnessed a significant increase in Muslim immigrants which has given rise to nativist groups that question their belonging Contributors Thomas Faist and Christian Ulbricht discuss how German politicians have implicitly compared the purported backward values of Muslim immigrants with the German idea of *Leitkultur* or a society that values civil liberties and human rights reinforcing the symbolic exclusion of Muslim immigrants Similarly Marieke Slootman and Jan Willem Duyvendak find that in the Netherlands the conception of citizenship has shifted to focus less on political rights and duties and more on cultural norms and values In this context Turkish and Moroccan Muslim immigrants face increasing pressure to adopt Dutch culture yet are simultaneously portrayed as having regressive views on gender and sexuality that make them unable to assimilate Religion is less of a barrier to immigrants inclusion in the United States where instead undocumented status drives much of the political and social marginalization of immigrants As Mary C Waters and Philip Kasinitz note undocumented immigrants in the United States are ineligible for the services and freedoms that citizens take for granted and often live in fear of detention and deportation Yet as Irene Bloemraad points out Americans conception of national identity expanded to be more inclusive of immigrants and their children with political mobilization and changes in law institutions and culture in the wake of the Civil Rights Movement Canadians views also dramatically expanded in recent decades with multiculturalism now an important part of their national identity in contrast to Europeans fear that diversity undermines national solidarity With immigration to North America and Western Europe a continuing reality each region will have to confront anti immigrant sentiments that create barriers for and threaten the inclusion of newcomers Fear Anxiety and National Identity investigates the multifaceted connections among immigration belonging and citizenship and provides new ways of thinking about national identity

aspecten die in de meeste cursussen Nederlands als tweede taal onvoldoende uitgelegd of zelfs helemaal genegeerd worden Veelgebruikte woorden uit het dagelijkse leven worden op een vaak humoristische wijze verklaard De handleiding is in de eerste plaats vanuit het standpunt van Engelstaligen geschreven maar is ook bruikbaar voor anderstaligen met een goede kennis van het Engels en een vergevorderde kennis van het Nederlands Monolingual Policies in Multilingual Schools

Jürgen Jaspers, 2024 This book shows that teachers at monolingual schools in Brussels approach their multilingual pupils in quite ambivalent ways severely imposing the school language but also recognizing pupils multilingualism Underlining this ambivalence is important because the scientific literature typically prefers a focus on teachers who either support or suppress their pupils multilingualism Much ordinary inconsistent teacher behavior thus falls off the radar while those teachers who appear in the literature are either praised as critical or blamed as ideologically deceived This book thus explores uncharted territory it explains teachers inconsistency as a type of thinking and it suggests that we can evaluate their behavior in more complex terms than simply good or bad Defoe and the Dutch Margaret J-M Sönmez, 2015-10-28

The novels of Daniel Defoe are set in years during which two Anglo Dutch wars were fought a Dutch king took over the English throne and the primacy of the Dutch in Northern European commerce was in the process of being overtaken by the English At the time of these novels publication the geo physical political and cultural achievements of the United Provinces were still remarked upon as extraordinary while so many people had travelled between the two countries that Dutch communities in England and English communities in the United Provinces were unremarkable Defoe s personal professional and political interests lay parallel and very close to stereotypically Dutch affairs such as tolerance of dissenting Christianity

the promotion of trade as the source of a country's wealth and Court Whig specifically Williamite interests. In spite of this the many Dutch elements in his novels are not always evident and the body of his fiction has not previously been examined from this perspective. Defoe and the Dutch Places Things People explores what English readers of seventeenth and early eighteenth century English fiction and non-fiction knew about the Dutch, what images of the Dutch they were exposed to and what significance these images may have had. Against that background it investigates how Dutch elements are used or referred to in nine novels attributed to Daniel Defoe. From the ubiquity of Dutch ships and the Dutch bill of exchange to the disallowing of Dutch martial heroism and the exchange of gifts in Dutch weddings, images and associations of Dutch places, things and people in Defoe's novels are woven into the fabric of the narratives. The novels' uses of these and many other Dutch motifs or images are shown to avoid crude or negative stereotypes and to be complex, subtle and sensitive to the real life events and contexts of the fictions while also participating in a mode of representation that is overwhelmingly emblematic.

A First Dutch Reader and Writer J. Endendijk, 1919 *Naval warfare* Philip Howard Colomb, 1895 **The Smart Set**, 1903 **Dutch Heart of Man** Robert Glaudini, 2007. Dutch is a kind-hearted construction worker, a gentle giant perplexed and bewildered by New York's hurried pace and uncaring attitudes. While setting tile one Sunday with a womanizing co-worker Marty, we grow to share his confusion as he ruminates about his life and bumps into ever-bustling strangers. The drama escalates to a violent climax as the sweetly simple and immensely muscular Dutch finds himself unable to cope with the inhuman pace around him, all told by Glaudini's gritty realism.
