School Age Pregnancy And Parenthood:

School-age Pregnancy and Parenthood Jane Beckman Lancaster, Beatrix A. Hamburg, This important work examines in detail and depth how as a consequence of changing technologies diet patterns of reproduction and work relations between children and parents have altered The editors and contributors hold that biosocial science is particularly relevant to research on human family systems and parenting behavior The family is the universal social institution in which the care of children is based and the turf where cultural tradition beliefs and values are transmitted to the young as they fulfill their biological potential for growth development and reproduction The biosocial perspective takes into account the biological substratum and the social environment as critical co determinants of behavior and pinpoints areas in which contemporary human parental behavior exhibits continuities with and departures from patterns evident throughout history This work crosses disciplinary lines without ignoring their relevance to the broader themes of the book School age pregnancy and parenthood is a powerful anchor for the dissection of large scale issues The contributors deal in turn with ethnic and historical experience examine normative and ethical issues and cast new light on methodological concerns What the editors call culturally defined responses to basic needs helps explain both dramatic improvements in this area and how they expand the challenge of teen reproduction Contributors emphasize new demands for training and education to research this growing phenomenon The book contributes to humane concerns as well as the scientific imagination Jane B Lancaster is professor of anthropology at the University of New Mexico She serves as editor of a major journal in the field Human Nature An Interdisciplinary Biosocial Perspective She also edited two related volumes Child Abuse and Neglect 1987 Parenting across Life Span 1987 Beatrix A Hamburg is at the Mount Sinai School of Medicine in New York in the field of Child and Adolescent Psychiatry She is recipient of the Gallagher Award for Outstanding Achievement in Adolescent Medicine and the Distinguished Service Award from the Alcohol Drug Abuse and Mental Health Administration and edits Behavioral and Psychosocial Issues in Diabetes

Studies in the Assessment of Parenting Peter Reder, Sylvia Duncan, Claire Lucey, 2004-06-02 Offers a review of the latest literature but moreover a practical guide essential to professionals who give their expert opinions to courts in child care cases

School-age Mother and Child Health Act, 1975 United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Health, 1976

School-age Pregnancy and Parenthood Beatrix A. Hamburg, 2017-07-28 This important work examines in detail and depth how as a consequence of changing technologies diet patterns of reproduction and work relations between children and parents have altered The editors and contributors hold that biosocial science is particularly relevant to research on human family systems and parenting behavior The family is the universal social institution in which the care of children is based and the turf where cultural tradition beliefs and values are transmitted to the young as they fulfill their biological potential for growth development and reproduction The biosocial perspective takes into account the biological substratum and the social environment as critical co determinants of behavior

and pinpoints areas in which contemporary human parental behavior exhibits continuities with and departures from patterns evident throughout history This work crosses disciplinary lines without ignoring their relevance to the broader themes of the book School age pregnancy and parenthood is a powerful anchor for the dissection of large scale issues The contributors deal in turn with ethnic and historical experience examine normative and ethical issues and cast new light on methodological concerns What the editors call culturally defined responses to basic needs helps explain both dramatic improvements in this area and how they expand the challenge of teen reproduction Contributors emphasize new demands for training and education to research this growing phenomenon The book contributes to humane concerns as well as the scientific imagination

Adolescent Health: Background and the effectiveness of selected prevention and treatment services, 1991 This three volume work presents the Office of Technology's assessment of the physical emotional and behavioral health status of contemporary American adolescents including those living in poverty racial and ethnic minority groups Native Americans and rural adolescents Specific topics covered are identifying risk and protective factors for adolescent health problems evaluating options in the organization of health services and technologies available to adolescents assessing options in the conduct of national health surveys to improve collection of adolescent health statistics and identifying gaps in research on the health and behavior of adolescents

School-age Pregnancy and Parenthood in the United States Lucy Eddinger, Janet B. Forbush, National Alliance Concerned with School-Age Parents, Ford Foundation, 1977

Handbook of Parenting: Being and becoming a parent Marc H. Bornstein, 2002 Despite the fact that most people become parents and everyone who has ever lived has had parents parenting remains a mystifying subject about which almost everyone has opinions but about which few people agree Striking permutations on the theme of parenting are emerging single parenthood blended families lesbian and gay parents and teen versus fifties first time moms and dads Divided into four volumes the Handbook of Parenting is concerned with different types of parents basic characteristics of parenting forces that shape parenting problems faced by parents and the practical sides of parenting Contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about Because development is too subtle dynamic and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny

Fundamentals of Perinatal Social Work Regina F Lind, Debra H Bachman, 2012-11-12 Fundamentals of Perinatal Social Work A Guide for Clinical Practice provides perinatal social work students and beginning practitioners with an overview of the basics of perinatal social work theory and practice allowing you to identify and promote a healthy social and emotional environment for pregnant women and or infants This book covers the knowledge bases of obstetric and neonatal medicine and other specialized topics as applied to social work practice that you ll need to be familiar with in order to provide effective care for mother and child As a guide for new workers students and experienced social workers in perinatal settings

Fundamentals of Perinatal Social Work is the only book to approach the topic with the necessary overview of medical information. Beyond the history and basics of perinatal and medical social work you will also learn about such related topics as adoption, postpartum depression, mental illness, diabetes. Often students and new workers find themselves overwhelmed with the medical information and technology they must understand in order to function in perinatal social work. The literature that guides the social work practice is shared with medicine, nursing, public health and others, and the busy student and new worker do not have the time to gather a body of literature to use as a reference. Fundamentals of Perinatal Social Work provides such a reference and illustrates the depth and breadth the field of perinatal social work has come to encompass today. Perinatal social workers are no longer employed only in hospital settings but work in AIDS clinics, public health settings, ethics centers and private practice. Whatever the setting the goal of perinatal social work is still the same: to maximize the potential of every infant and every family. This book helps you achieve that goal. *Handbook of Parenting* Marc H. Bornstein, 2005-02-16 Please see Volume I for a full description and table of contents for all four volumes. *Handbook of Child Abuse Research and Treatment* John R. Lutzker, 1998 The causes of child abuse and neglect have been major topics of study since the 1960s but treatment strategies, research and legal issues have only received concentrated attention since the 80s. The leading figures in these efforts have contributed to this handbook a state of the art compilation of their findings that also includes writings on associated cultural issues, youth violence, sexual abuse and child development. Both a text and a reference, the volume is uniquely founded on empirical research. **Books, Babies, and School-age Parents** Jeanne Warren Lindsay, Sharon Enright, 1997 A guide for teachers and administrators that provides information on how to develop, coordinate and teach in an effective program for pregnant and parenting teenagers. Includes a listing of resources for teen parents and professionals. *Children, Families, and Government* Edward F. Zigler, Sharon Lynn Kagan, Nancy W. Hall, 1996-09-13 *Children, Families, and Government: Preparing for the Twenty-first Century* analyses the relationship between child development research and the design and implementation of social policy concerning children and families. This book is both timely and enduring; perennially important issues like health care, welfare reform and drug abuse are addressed in a context that enables the reader to relate current events to the theories and foundations on which policies are based. It highlights state of the art research and reforms to specify policy areas affecting children and families. *American Education*, 1981. *The Second Handbook on Parent Education* Marvin J. Fine, 2014-06-28 This book should enhance the reader's understanding of the contemporary scene in parenting education, including effective programming, important issues and future trends. *Single Parent Families* Marvin B. Sussman, Shirley Hanson, 2014-05-12 Here is a comprehensive source of vital information on single parent families in contemporary society. This book analyzes literature and empirical research concerning single parent families and explores issues and challenges they face. Contributing authors from many fields and perspectives examine a broad range of subjects relating to families in which one person is primarily responsible for parenting.

The only state of the art compendium on the topic of single parent families available today the book synthesizes empirical theoretical and contemporary literature about the diversity myths and realities of single parent families in western countries Each chapter contains a demographic overview definitions a literature review and implications for practice research education and social policy Theoretical and conceptual perspectives related to parenting and wider families are included An analysis synthesis and commentary on single parent families concludes the volume Themes highlighted throughout the book include socioeconomic and demographic characteristics of single parent families cultural and ethnic features and legal and ethical components Some chapter topics include single parenthood following divorce single parenthood following death of a spouse never married teen mothers and fathers female headed homeless families adoptions by single parents noncustodial mothers and fathers grandparents as primary parents single parents of children with disabilities Single Parent Families contains additional resources useful for family professionals an annotated bibliography a video filmography and a national community resource list The book is intended for a multidisciplinary audience including sociologists psychologists health care professionals social workers therapists and other researchers clinicians policymakers and educators An ideal primary or reference text for undergraduate and graduate level programs the book can also serve as a tool for staff development and continuing education in service agencies

Adolescent Health, 1991 **The Transition to Parenthood** Gerald Y. Michaels, Wendy A. Goldberg, 1988-10-13 This 1988 book brings together leading scholars from a range of disciplines concerned with the study of the transition to parenthood The text discusses the reasons why some new parents experience an enhanced sense of self and a deepening of important relationships whereas others experience crisis and conflict **Latina**

Adolescent Childbearing in East Los Angeles Pamela I. Erickson, 2010-05-28 Preventing teen pregnancy has become a national goal but a one size fits all strategy for achieving it may never be found Because varying social and cultural factors lead to pregnancy among different ethnic class groups understanding these factors is essential in designing pregnancy prevention programs that work This book explores the factors that lead to childbearing among Latina adolescents Pamela Erickson draws on both quantitative data and case histories to trace the pathways to motherhood for Latina teens After situating her study within current research on teen pregnancy she looks specifically at teen mothers enrolled in programs at Women s Hospital in East L A She describes the teens relationships to their babies fathers and their own families and discusses how these relationships affect whether teen mothers want to become pregnant their use of prenatal postpartum and family planning services and their ability to prevent a repeat pregnancy Erickson describes culturally appropriate intervention efforts and assesses the limitations of prevention programs in institutional settings such as schools and clinics

Transitions Through Adolescence Julia A. Graber, Jeanne Brooks-Gunn, Anne C. Petersen, 2018-10-24 The adolescent period has attracted much attention as an ideal period for investigating interactive models incorporating biological maturation with intra and interpersonal development The focus of this volume is on adolescent transitions in three domains

the peer system the family system and school and work contexts Its goal is to highlight specific aspects of innovative research programs and initiatives and look forward to future directions in the field Because interest in adolescence has spanned the disciplines this volume reflects a multidisciplinary perspective presenting research and methods from life span development sociology anthropology and education to provide exemplars of the range of approaches used in understanding the processes and transitions of adolescent development These exemplars encompass the breadth not only of the investigation of adolescence from survey research on drug use to ethnographic studies of involvement in criminal activities but also of individual differences in the experience of adolescent transitions from the transition to college and work in White middle class youth to the work experiences of urban African American high school students The chapters collected here offer a rich sample of the diversity of research experience with an emphasis on in depth investigation of adolescent transitions The volume will serve as a resource to investigators across several disciplines as it identifies approaches and recent findings from alternate fields *Children Today* ,1987
