Education Policy and the Political Right Grant Rodwell, 2021-12-28 This work attempts a comparative description and analysis focusing on the US the UK and Australia on the topic of the Right educational policy and schooling It adopts as its underlying

theme the burning fuse in tracing the topic back to Joseph de Maistre a Rightist who fled revolutionary France to seek safety in the company of Tsar Alexander I's Russian Empire Here he had much to say about school education not for all but rather the deserving social elite During the past three or four decades in the US the UK and Australia the Right has been remarkably successful in amassing political power And in doing so the right of politics in these countries has reshaped school educational policy and practice a necessary step in securing the future of the Right as a political force Moreover even during the years the Right has been on the opposition benches in these countries such has been the strength of their political force that governments of the Left have acquiesced to much of their school educational policy A pioneering effort this book asserts that to understand school educational policy in the third decade of the 21st century we need to comprehend the politics of the Right This book will be of interest to researchers and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education ERS Bulletin Educational Research Service (Arlington, Va.),1993

Cockeyed Education Gerard Giordano,2010-01-16 Should educators pay students Should they make them wear sunglasses regulate their clothing allow them to bring animals into classrooms discourage them from playing videogames or transform their schools into gymnasiums These are some of the suggestions that Cockeyed Education examines This book enables readers to differentiate substantive from cockeyed suggestions for improving schools It directs them to the suggestions that scholastic experts politicians and members of the public have made Additionally it introduces them to the case method It helps them apply this analytical technique to events that range from early Chicago schooling to the 2009 economic stimulus package **Faith Schools** Jo Cairns,Roy Gardner,Denis Lawton,2004-08-02 Until fairly recently the separation of pupils according to religion was felt to be compatible with a comprehensive education That consensus no longer holds and there is a strong positive lobby either to absorb faith schools altogether within the state system or at least to dilute their membership ensuring they include children from other faiths or no faith at all This book addresses the current concerns questions and interest surrounding the legitimacy support and intended expansion of faith schools Divided into five sections it includes chapters on the legal frameworks for faith schools and the rights of the child faith based schools in the UK Northern Ireland France and the USA the impact of faith schools on pupil performance faith schools religious education and citizenship political and research issues Faith Schools Consensus or Conflict is of interest to educators policymakers researchers and students of education religion and sociology *School Board Battles* Melissa M. Deckman,2004-02-27 If there is a culture war taking place in the United States one of the most interesting if under the radar battlegrounds is in local school board elections Rarely does the pitch of this battle reach national attention as it did in Kansas when the state school board led by several outspoken conservative Christians voted to delete evolution from the state's science curriculum and its standardized tests in August 1999 That action rattled not only the educational and scientific communities but concerned citizens around the nation as well While the movement of the Christian Right into national and state politics has been well

documented this is the first book to examine their impact on local school board politics While the Kansas decision was short lived during the past decade in school districts around the country conservative Christian majorities have voted to place limits on sex education to restrict library books to remove references to gays and lesbians in the classroom and to promote American culture as superior to other cultures School Board Battles studies the motivation strategies and electoral success of Christian Right school board candidates Based on interviews and using an extensive national survey of candidates as well as case studies of two school districts in which conservative Christians ran and served on local boards Melissa M Deckman gives us a surprisingly complex picture of these candidates She reveals weaker ties to national Christian Right organizations and more similarities between these conservative candidates and their more secular counterparts than might be expected Deckman examines important questions Why do conservative Christians run for school boards How much influence has the Christian Right actually had on school boards How do conservative Christians govern School Board Battles is an in depth and in the trenches look at an important encounter in the culture war one that may well determine the future of our nation s youth
