and Decisions Cristina Motta,Macarena Saez,2013-05-23 Translated and updated from the seminal Spanish text on legal decisions affecting gender and sexuality in Latin America this English edition is the only law text to focus specifically on the rights of lesbians gays bisexuals and the transgender population in addition to women s rights more broadly The volume provides close analysis of some of the most important decisions made by Latin American national courts as well as those made by international legal bodies that affect the rights and interests of these groups Specially selected for their depth of argument and value as exemplars the studies of good legal practice chart the path of the region s normative values of justice

as they have evolved away from a partial and patriarchal exercise of the law They show how cases with vastly differing contexts such as property rights and domestic violence have resulted in a mixed body of Latin American law Some decisions are protective of women s and minority rights Some assess the wider social impacts of case law in which recognition of the discrete legal identities within households challenges established precepts including religious ones Other cases have been chosen as cautionary examples of bad decision making and for the poverty of their legal debate Updated to include the latest relevant jurisprudence from across the continent this book is an informed cohesive and comprehensive guide to understanding women s and gender based rights in Latin America *Perspectives on Legal Education* Chris Ashford,Nigel Duncan,Jessica Guth,2015-11-19 This edited collection offers a critical overview of the major debates in legal education set in the context of the Lord Upjohn Lectures the annual event that draws together legal educators and professionals in the United Kingdom to consider the major debates and changes in the field Presented in a unique format that reproduces classic lectures alongside contemporary responses from legal education experts this book offers both an historical overview of how these debates have developed and an up to date critical commentary on the state of legal education today As the full impact of the introduction of university fees the Legal Education and Training Review and the regulators responses are felt in law departments across England and Wales this collection offers a timely reflection on legal education s legacy as well as critical debate on how it will develop in the future **Core List of Books and Journals in Education** Nancy P. century private law perspectives discussed in this book Banu contends that private international law could take centre stage in efforts to increase social and economic equality by fostering individual agency and social responsibility in the transnational realm **Trager's The Law of Journalism and Mass Communication** Victoria Smith Ekstrand, Caitlin Ring Carlson, Erin Coyle, Susan Dente Ross, Amy Reynolds, 2023-06-26
