Schooling The Boys Masculinities And Primary Education:

Schooling the Boys Christine Skelton, 2001 This book explores where masculinity is in primary schools It has been argued by some commentators that a contributory factor to boys underachievement is the predominance of women teachers in primary schools which has led to classroom management and teaching styles which favour girls As this book shows primary schools produce a range of masculinities for pupils to draw on A number of questions are raised what are the tensions for boys between what the school expects from them as school pupils and how they are drawn to behave as a boy How does a primary school produce certain masculine styles in its day to day routines In what ways do girls respond to male practices and behaviours in the primary school classroom The book aims to provide readers with an understanding of the background literature on boys and schooling an insight into masculinity making in primary schools and to offer strategies for developing gender relevant programmes

The Man Question Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men s privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men s treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men s experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination *From Victims of Change to Agents of Change* Martin Johnson, Joe Hallgarten, 2002

Gender and Childhood Sexuality in Primary School Deevia Bhana,2016-10-12 This book is an ethnography of teachers and children in grades 1 and 2 and presents arguments about why we should take gender and childhood sexuality seriously in the early years of South African primary schooling Taking issue with dominant discourses which assumes children s lack of agency the book questions the epistemological foundations of childhood discourses that produce innocence It examines the paradox between teachers dominant narratives of childhood innocence and children s own conceptualisation of gender and sexuality inside the classroom with peers in heterosexual games in the playground and through boyfriend girlfriend relationships It examines the nuances and finely situated experiences which draw attention to hegemonic masculinity and femininity where boys and girls challenge and contest relations of power The book focuses on the early makings of gender and sexual harassment and shows how violent gender relations are manifest even amongst very young boys and girls Attention is given to the interconnections with race class structural inequalities as well as the actions of boys and girls as navigate gender and sexuality at school The book argues that the early years of primary schooling are a key site for the production and reproduction of gender and sexuality Gender reform strategies are vital in this sector of schooling Sex, Power and Consent Anastasia Powell,2010-07-29 Sex Power and Consent Youth Culture and the Unwritten Rules draws on the real world stories and experiences of young women and young men as told in their own words regarding love sex relationships and negotiating consent Judicious reference to feminist and sociological theory underpins explicit connections between young people s lived experience and current international debates Issues surrounding youth sex within popular culture sexuality education and sexual violence prevention are thoroughly explored In a clear incisive and eminently readable manner Anastasia Powell develops a compelling framework for understanding the unwritten rules and the gendered power relations in which sexual negotiations take place Ultimately Sex Power and Consent provides practical strategies for young people and those working with them toward the prevention of sexual violence **Analysing American Advice Books for Single Mothers Raising Sons** Berit Åström,2023-02-07 Although single fathers as primary careers are on the rise most single parent households in the US are headed by women These women are a lucrative market for parenting books and most of these books are aimed at single mothers raising sons This intersectional study analyses the way in which these advice books draw on mother blame language misconceptions of neuropsychological research and traditional conceptualisations of masculinity and femininity to convince the mother readers that they are unable to raise a son to be a man The study further connects the advice books to a cultural backlash against ideas of involved fatherhood and caring masculinity exploring how

the authors argue for a return to traditional family structures

Schooling and Travelling Communities Dave Cudworth, 2018-06-12 This book calls for a re thinking of educational provision for Gypsy Traveller communities Despite having been recognised by the government and educational providers for over fifty years underachievement of children from Gypsy Traveller communities persists Rather than focusing specifically on access attendance and attainment the author provides a structural analysis of the cultural tensions that often exist between Nomadic communities and current school provision based on the interests and values of Sedentarism The author uses spatial theory as a base upon which to build knowledge and understanding of the educational exclusion of children from Gypsy Traveller communities highlighting the social role that space plays within schools This innovative book will be of interest and value for students and scholars interested in not only education and Gypsy Traveller communities but education for minority communities more widely

Men After #MeToo Kenneth Reinicke, 2022-06-28 Grounded in an explicit focus on men s roles and responsibilities in the fight against sexual harassment this book creates a deeper understanding of why sexual harassment against women occurs and how we as a society can better respond to and prevent it Integrating theoretical analyses with empirical data from interviews with 25 Danish men the author argues that if we want to eradicate the social and cultural tolerance of sexual harassment and the victim blaming of women then we need a paradigm shifting perspective

This book investigates the framing of the debates on sexual harassment just as it looks deeper into the socialization processes of men and raises the question of why so many men feel entitled to sexually harass women This book also explores what part men can play in combating sexual harassment emphasizing that it is important not only to see men as perpetrators but also as empowered bystanders It argues that the MeToo movement constitutes a potential instructive moment presenting men with an opportunity for change

Metropedagogy ,2006-01-01 What might it mean to develop a rigorous just and practical urban education Such a question takes on new importance in the middle of the first decade of the twenty first century as urban educators find themselves besieged with test driven standardized curricula promoted in the name of fairness educational excellence and egalitarianism Those who promote these standardized curricula fail to account for the unique situations and needs of particular urban students When an urban curriculum is standardized the students suffering from the effects of poverty racial discrimination and other problems are less likely to receive the specific pedagogical help they need to overcome the effects of such impediments Such students have special needs Teachers need the curricular freedom the professional respect to address these special requirements Metropedagogy constructed as a critical pedagogy for urban education addresses these concerns This book will be very useful as a text in urban education at the graduate and the undergraduate level
