Schuldig Geboren Kinder Aus Nazifamilien:

Schuldig geboren Peter Sichrovsky, 1987 Erlebnisberichte von Kindern aus Familien deren Väter und Mütter während der Zeit des Nationalsozialismus entweder als Mitläufer oder als Prominente an Verbrechen beteiligt waren Peter Sichrovsky, Schuldig geboren, 1988 Children in the Holocaust and its Aftermath Sharon Kangisser Cohen, Eva Fogelman, Dalia Ofer, 2017-04-01 The testimonies of individuals who survived the Holocaust as children pose distinct emotional and intellectual challenges for researchers as now adult interviewees recall profound childhood experiences of suffering and persecution they also invoke their own historical awareness and memories of their postwar lives requiring readers to follow simultaneous disparate narratives This interdisciplinary volume brings together historians psychologists and other scholars to explore child survivors accounts With a central focus on the Kestenberg Holocaust Child Survivor Archives over 1 500 testimonies it not only enlarges our understanding of the Holocaust empirically but illuminates the methodological theoretical and institutional dimensions of this unique form of historical record **German Protestants Remember the Holocaust** K. Hannah Holtschneider, 2001 Focusing on the 1980s 90s examines how Protestants in Germany interpret their self understanding as part of the community which is defined by its connection to the Nazi past Analyzes representations of the Holocaust and of the Christian Jewish relationship in three German Protestant theological texts the 1980 statement of the Rhineland synod of the Evangelical Church Zur Erneuerung des Verhältnisses von Christen und Juden Marquardt's theological text Von Elend und Heimsuchung der Theologie Prolegomena zur Dogmatik 1992 and Britta Jungst's dissertation Auf der Seite des Todes das Leben 1996 The analysis of these texts is informed by the development of narratives of collective memory of the Holocaust in German society in the 1980s 90s from the miniseries Holocaust to the Goldhagen controversy All three texts admit the responsibility of Christianity and Christians for the Holocaust and build theologies that do not reject Jews Contends that contrary to their stated intentions most Holocaust theologians do not truly listen to the Jewish perspective Calls on practitioners of theology after Auschwitz to embrace Jews and Judaism in order to restore the credibility of Christian Churches which abandoned the Jews in Auschwitz **Echoes of Trauma and Shame in German Families** Lina Jakob, 2020-05-05 A study of the generation of Germans dealing with the psychological effects of the parents and grandparents experiences during and after World War II How is it possible for people who were born in a time of relative peace and prosperity to suddenly discover war as a determining influence on their lives For decades to speak openly of German suffering during World War II to claim victimhood in a country that had victimized millions was unthinkable But in the past few years growing numbers of Germans in their 40s and 50s calling themselves Kriegsenkel or Grandchildren of the War have begun to explore the fundamental impact of the war on their present lives and mental health Their parents and grandparents experienced bombardment death forced displacement and the shame of the Nazi war crimes The Kriegsenkel feel their own psychological struggles from depression anxiety disorders and burnout to broken marriages and career

problems are the direct consequences of unresolved war experiences passed down through their families Drawing on interviews participant observation and a broad range of scholarship Lina Jakob considers how the Kriegsenkel movement emerged at the nexus between public and familial silences about World War II and critically discusses how this new collective identity is constructed and addressed within the framework of psychology and Western therapeutic culture This complex story is engagingly told through highly readable life histories and analysis and provides much to think about concerning the aftermath of traumatic histories Francesca Merlan Jakob brilliantly traces the transgenerational impact of World War II and the trauma and shame of Germany's dark past that still haunts individuals and scars families A searing inquiry into the multilayered meanings of public rituals social memories and emotional suffering of a generation painfully struggling with the inheritance of war and loss An outstanding achievement Assa Doron

The Feldafing Boys: Uncovering My Father's Stolen Childhood at an Elite Nazi School Helene Munson, 2024-05-28 A shocking personal memoir and new perspective on World War II following Helene Munson's journey in her father's footsteps through the years when he was one of Hitler's child soldiers When Helene Munson finally reads her father Hans Dunker's wartime journal she discovers secrets he kept buried for seven decades This is no ordinary historical document but a personal account of devastating trauma During World War II the Nazis trained some three hundred thousand German children to fight for Hitler Hans was just one of those boy soldiers Sent to the elite Feldafing school at nine years old he found himself in the grip of a system that substituted dummy grenades for Frisbees By age seventeen Hans had shot down Allied pilots with anti-aircraft artillery In the desperate final stage of Hitler's war he was sent on a suicide mission to Zvada on the Sudetenland front where he witnessed the death of his schoolmates and where Helene begins to retrace her father's footsteps after his death As Helene translates Hans's journal and walks his path of suffering and redemption she uncovers the lost history of an entire generation brainwashed by the Third Reich's school system and funneled into the Hitler Youth A startling new account of this dark era The Feldafing Boys grapples with inherited trauma the burden of guilt and the blurred line between perpetrator and victim It is also a poignant tale of forgiveness as Helene comes to see her late father as not just a soldier but as one boy in a sea of three hundred thousand forced onto the wrong side of history and left to answer for it Previously published in hardcover as Hitler's Boy Soldiers

Family Secrets and the Contemporary German Novel Elizabeth Snyder Hook, 2001 Central to the discussions of each novel are questions of guilt cultural identity and atonement and of the relocation of these ultimately unresolvable issues from the larger national and political arena to the realm of intimate relationships between parents and children **BOOK JACKET** **Jews in Germany After the Holocaust** Lynn Rapoport, 1997-07-17 What is it like to be Jewish and to be born and raised in Germany after the Holocaust Based on remarkably candid interviews with nearly one hundred German Jews Lynn Rapoport's book reveals a rare understanding of how the memory of the Holocaust shapes Jews' everyday lives As their views of non-Jewish Germans and of themselves their political integration into German society and their

friendships and relationships with Germans are subtly uncovered the obstacles to readjustment when sociocultural memory is still present are better understood This is also a book about Jewish identity in the midst of modernity It shows how the boundaries of ethnicity are not marked by how religious Jews are or their absorption of traditional culture but by the moral distinctions rooted in Holocaust memory that Jews draw between themselves and other Germans Jews in Germany after the Holocaust has won an award for being the best book in the sociology of religion from the American Sociological Association

Second-generation Holocaust Literature Erin Heather McGlothlin, 2006 This volume aims to expand the commonly used definition of second generation literature which refers to texts written from the perspective of the children of survivors to include texts written from the point of view of the children of Nazi perpetrators **Dark Traces of the Past** Jürgen

Straub, Jörn Rüsen, 2011-12-01 The relationship between historical studies and psychoanalysis remains an open debate that is full of tension in both a positive and a negative sense In particular the following question has not been answered

satisfactorily what distinguishes a psychoanalytically oriented study of historical realities from a historical psychoanalysis Skepticism and fear of collaboration dominate on both sides Initiating a productive dialogue between historical studies and psychoanalysis seems to be plagued by ignorance and at times a sense of helplessness Interdisciplinary collaborations are rare Empirical research formulation of theory and the development of methods are essentially carried out within the conventional disciplinary boundaries This volume undertakes to overcome these limitations by combining psychoanalytical and historical perspectives and thus exploring the underlying unconscious dimensions and by informing academic and nonacademic forms of historical memory Moreover it puts special emphasis on transgenerational forms of remembrance on the notion of trauma as a key concept in this field and on case studies that point the way to further research *The*

Holocaust in Three Generations Gabriele Rosenthal, 1998-08-13 Through lengthy interviews and observation of family relationships this book investigates how the histories of those involved in the Holocaust as both victims and perpetrators impact socially and psychologically on the lives of the second and third generation Five case studies of survivors families from Germany and Israel present different experiences of persecution and demonstrate to what extent the past defines post War family dynamics Two case studies of non Jewish German families where the grandparents generation are suspected of having perpetrated Nazi crimes show how guilt and the myth of themselves being victims are pressed on to the succeeding generations Repentance for the Holocaust C. K. Martin Chung, 2017-07-15 In Repentance for the Holocaust C K Martin

Chung develops the biblical idea of turning tshuvah into a conceptual framework to analyze a particular area of contemporary German history commonly referred to as Vergangenheitsbewältigung or coming to terms with the past Chung examines a selection of German responses to the Nazi past their interaction with the victims responses such as those from Jewish individuals and their correspondence with biblical repentance In demonstrating the victims influence on German responses Chung asserts that the phenomenon of Vergangenheitsbewältigung can best be understood in a relational rather

than a national paradigm By establishing the conformity between those responses to past atrocities and the idea of turning Chung argues that the religious texts from the Old Testament encapsulating this idea especially the Psalms of Repentance are viable intellectual resources for dialogues among victims perpetrators bystanders and their descendants in the discussion of guilt and responsibility justice and reparation remembrance and reconciliation It is a great irony that after Nazi Germany sought to eliminate each and every single Jew within its reach postwar Germans have depended on the Jewish device of repentance as a feasible way out of their unparalleled national catastrophe and unprecedented spiritual ruin Hitler's Boy Soldiers Helene Munson, 2022-05-24 The true untold story of how Germany's children fought in WWII through the lens of the author's father and his rediscovered journal

Generational Shifts in Contemporary German Culture Laurel Cohen-Pfister, Susanne Vees-Gulani, 2010 The concept of the generation in today's German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and unexpected continuities Moreover as younger artists reframe recent history older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period Contributors Svea Brünert Laurel Cohen Pfister Friederike Eigler Thomas C Fox Katharina Gerstenberger Erin McGlothlin Brad Prager Ilka Rasch Susanne Rinner Caroline Schaumann Maria Stehle Reinhild Steingruber Susanne Vees Gulani Laurel Cohen Pfister is Associate Professor of German at Gettysburg College and Susanne Vees Gulani is Assistant Professor of German and Comparative Literature at Case Western Reserve University

Women and National Socialism in Postwar German Literature Katherine Stone, 2017 In recent years historians have revealed the many ways in which German women supported National Socialism as teachers frontline auxiliaries and nurses as well as in political organizations In mainstream culture however the women of the period are still predominantly depicted as the victims of a violent twentieth century whose atrocities were committed by men They are frequently imagined as post hoc redeemers of the nation as the rubble women who spiritually and literally rebuilt Germany This book investigates why the question of women's complicity in the Third Reich has struggled to capture the historical imagination in the same way It explores how female authors from across the political and generational spectrum Ingeborg Bachmann Christa Wolf Elisabeth Plessen Gisela Elsner Tanja Dückers Jenny

Erpenbeck conceptualize the role of women in the Third Reich As well as offering innovative re readings of celebrated works this book provides instructive interpretations of lesser known texts that nonetheless enrich our understanding of German memory culture Katherine Stone is Assistant Professor in German Studies at the University of Warwick

Second Generation Voices Alan L. Berger, Naomi Berger, 2001-06-01 Heirs to the legacy of Auschwitz the children and grandchildren of Holocaust survivors and perpetrators have always been thought of as separated by fear and anger mistrust and shame This groundbreaking study provides a forum for expression in which each group reflects candidly upon the consuming burdens and challenges it has inherited In these intensely personal and frequently dramatic pieces understandable differences surface The Jewish second generation is unified by a search for memory and family Their German counterparts experience the opposite Yet surprising common ground is revealed Each group emerges out of households where for vastly different reasons the Holocaust was not mentioned Each struggles to break this barrier of silence Each has witnessed the continued survival of parents and must grapple with living in households haunted by denial And each knows it is his or her charge to shape the Holocaust for future generations To be sure there is disagreement among the groups about the need for or wisdom of dialogue Yet Second Generation Voices boldly engenders authentic grounds for discussion Issues such as guilt anger religious faith and accountability are explored in deeply felt poems essays and narratives Jew and German alike speak openly of forming and affirming their own identities reconnecting with roots and working through their own psychological Holocaust

The Collective Silence Barbara Heimannsberg, Christoph J Schmidt, 2013-05-13 The silence surrounding the Holocaust continues to prevent healing whether of the victims Nazis or the generations that followed them The telling of the stories surrounding the Holocaust all the stories is essential if we are to understand what happened recognize the part of human nature that allows such atrocities to occur and realize the hope that we can prevent it from happening again Seeking to shed light on the collective silence surrounding the Holocaust in Germany the contributors offer compelling accounts histories and experiences that illuminate the ways in which contemporary Germans continue to grapple with the consequences of the Holocaust Denial in the older generations as well as anger and confusion in the younger ones comes vividly to the surface in these evocative stories of coping and healing Told from the vantage points both of therapists and of patients these stories encompass the psychological plight of all those facing the legacy of genocide from the daughter of a high ranking Nazi official to the children of Jewish immigrants from those raised in the Hitler Youth Movement to those born well after the war

International Handbook of Multigenerational Legacies of Trauma Yael Danieli, 2013-03-09 In this extraordinary new text an international array of scholars explore the enduring legacy of such social shocks as war genocide slavery tyranny crime and disease Among the cases addressed are instances of genocide in Turkey Cambodia and Russia the plight of the families of Holocaust survivors atomic bomb survivors in Japan and even the children of Nazis the long term effects associated with the Vietnam War and the war in Yugoslavia and the psychology arising from the legacy of slavery in
