Science In The Private Interest:

Science in the Private Interest Sheldon Krimsky, 2003 University science is now entangled with entrepreneurship and researchers with a commercial interest are caught in an ethical quandary Science in the Private Interest investigates the trends and effects of modern commercialized academic science Visit our website for sample chapters Science in the Private Interest Sheldon Krimsky, 2004 How can an academic scientist honour knowledge for its own sake while also using knowledge as a means to generate wealth This text investigates the trends effects of modern commercialised academic science Science in the Private Interest Sheldon Krimsky, 2004-08-31 How can an academic scientist honour knowledge for its own sake while also using knowledge as a means to generate wealth This text investigates the trends effects of modern commercialised academic science **Public Science, Private Interests** Janet Atkinson-Grosjean, 2006-01-01 Janet Atkinson Grosjean s Public Science Private Interests is the first book length study of NCEs and offers an assessment of the long term impact of the erasure between public institutions and private enterprise A People's History of Science Clifford D Conner, 2009-04-24 We all know the history of science that we learned from grade school textbooks How Galileo used his telescope to show that the earth was not the center of the universe how Newton divined gravity from the falling apple how Einstein unlocked the mysteries of time and space with a simple equation This history is made up of long periods of ignorance and confusion punctuated once an age by a brilliant thinker who puts it all together These few tower over the ordinary mass of people and in the traditional account it is to them that we owe science in its entirety This belief is wrong A People s History of Science shows how ordinary people participate in creating science and have done so throughout history It documents how the development of science has affected ordinary people and how ordinary people perceived that development It would be wrong to claim that the formulation of quantum theory or the structure of DNA can be credited directly to artisans or peasants but if modern science is likened to a skyscraper then those twentieth century triumphs are the sophisticated filigrees at its pinnacle that are supported by the massive foundation created by the rest of us Taking Action, Saving Lives Kristin Shrader-Frechette, 2007-10-19 In this book at once brilliant and accessible Shrader Frechette reveals how politicians campaign contributors and lobbyists and their power over media advertising and public relations have conspired to cover up environmental disease and death She also shows how science and regulators themselves are frequently captured by well funded polluters and special interests But most important the author puts both the blame and the solution on the shoulders of ordinary citizens She argues that everyone especially in a democracy has a duty to help prevent avoidable environmental deaths **Bookreview: Sheldon Krimsky, Science in the Private Interest: Has the Lure of Profits Corrupted Biomedical Research?
