The Science of Medical Cannabis David S. Younger, 2018-11-14 The cultural scientific and legislative divide created by vigorous debates over the legalization of medical marijuana is giving way to a new synergy among community stakeholders across the United States The goal is to improve access to medical marijuana for patients with refractory debilitating neurological disorders cancer and chronic pain as an alternative to ineffective pharmacotherapy and potentially addictive pain medications The ultimate test of our nations resolve to ensure the welfare of our sickest patients is the enactment and implement of effective public health reform in the area of medical marijuana also known as medical cannabis This book evolved out of the present need for a definitive volume on the science and public health aspects of medical cannabis to fuel this national narrative The ethnographic research presented in the concluding chapter was inspired by Professor Miriam W Boeri and colleagues at Bentley University in Waltham MA They examined views of community stakeholders including medical marijuana dispensary entrepreneurs health care professionals and patients in a state that legalized medical marijuana in 2013 yet there continued to be confusion and misunderstandings in the interpretation and implementation of medical marijuana guidelines during the period of policy shifts Apparent gaps in policy development and implementation signaled the urgency for a comparison study addressing stakeholder views in New York State where its medical marijuana program has legally dispensed the drug since 2014 The resulting pilot study was carried out in the Division of Health Policy and Management of the City University of New York School of Public Health The research model incorporated ethnographic and grounded methodologies to detail the views of physicians pharmacists educators patients and entrepreneur stakeholders with triangulation of data and application of dominant themes into a socioecological framework model to identify areas of public health policy reform The findings of this study detail that New York like other states that recently legalized the dispensation of medical marijuana faces challenges beyond policy transparency communication and education explicitly to improve the implementation process for applying and registering medical cannabis dispensaries referring physicians and qualified patient recipients Ken Langone Chairman of the Board of New York University Langone Health and Steven Galetta Chair of Neurology in the School of Medicine where the authors is senior staff in neuroepidemiology motivated him to pursue doctoral training in Health Policy and Management The author has had the good fortune of interacting with thought provoking medical students neurology trainees public health doctoral students and professors who reinforce the high ethical standards in medical and public health practice and research

However his patients still educate him in empathy and humanity The author is grateful to his family including his spouse Holly and sons Adam and Seth who serve as his daily compass encouraging him to take on projects that promote core values of medicine and humanity

Cannabis (seeing through the smoke) Professor David Nutt, 2022-02-03 THE DEFINITIVE GUIDE TO CANNABIS AND YOUR HEALTH Underpinned by his two year research trial in partnership with the Royal College of Psychiatrists involving up to 20 000 patients which will create Europe s largest body of evidence on the plant s medicinal qualities Professor David Nutt and his team of scientists will break the mould on the way we use Cannabis for our health in the future In David s first ground breaking book on the subject he will cover its impact of all areas of the body and the brain and its effective use for treatment of illness from chronic pain epilepsy multiple sclerosis and PTSD to anxiety and depression This is the essential knowledge that cuts through the noise and give us evidence based information that will change people s lives

Cannabis Use and Dependence Wayne Hall, Rosalie Liccardo Pacula, 2003-11-28 The use of cannabis in the late twentieth and this century is an area of medical and moral controversy Despite its illegality cannabis is the most widely used drug after alcohol and tobacco among young adults in the USA Europe and Australia This book explores the relationship between health policy public health and the law regarding cannabis use It assesses the impact of illegality in drug use and relates this to policy analysis in Australia the UK the US and other developed societies It evaluates debates about safe use and harm minimisation approaches as well as examining the experiences of different prevention treatment and education policies Written by two leading drug advisors Cannabis Use and Dependence makes a valuable addition to this important field of research

The African Roots of Marijuana Chris S. Duvall, 2019-05-09 After arriving from South Asia approximately a thousand years ago cannabis quickly spread throughout the African continent European accounts of cannabis in Africa often fictionalized and reliant upon racial stereotypes shaped widespread myths about the plant and were used to depict the continent as a cultural backwater and Africans as predisposed to drug use These myths continue to influence contemporary thinking about cannabis In *The African Roots of Marijuana* Chris S Duvall corrects common misconceptions while providing an authoritative history of cannabis as it flowed into throughout and out of Africa Duvall shows how preexisting smoking cultures in Africa transformed the plant into a fast acting and easily dosed drug and how it later became linked with global capitalism and the slave trade People often used cannabis to cope with oppressive working conditions under colonialism as a recreational drug and in religious and political movements This expansive look at Africa s importance to the development of human knowledge about marijuana will challenge everything readers thought they knew about one of the world s most ubiquitous plants
