Seminars Of Jacques Lacan Bk 1 Freud's Writings On Technique 1953 1954:

The Seminar of Jacques Lacan: Freud's papers on technique, 1953-1954 Jacques Lacan, 1988 *Reading Architecture with Freud and Lacan* Lorens Holm, 2022-09-30

Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects. It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space. Each subsequent chapter begins with a detail in architectural discourse, a kind of provocation that anchors each excursion into the thought of Freud and Lacan. The text is cyclical, episodic and cloudlike rather than expository; the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text. The book offers powerful critiques of current planning practice which has no tools to address our attachment to places. It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives, which is an effect of our incapacity to recognise the presence of the death drive in our nature. The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture, politics and the city. The field of the Other is a slightly different slice through the urban social world. It shadows but does not correspond exactly to more familiar categories like private/public, inside/outside, figure ground or piazza/boulevard. Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire. Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects, planners and social scientists, whether they are students, professionals or amateurs. It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses.

Beckett, Lacan and the Mathematical Writing of the Real Arka Chattopadhyay, 2019-01-01

Beckett Lacan and the Mathematical Writing of the Real proposes writing as a mathematical and logical operation to build a bridge between Lacanian psychoanalysis and Samuel Beckett's prose works. Arka Chattopadhyay studies aspects such as the fundamental operational logic of a text, use of mathematical forms like geometry and arithmetic, the human obsession with counting, the moving body as an act of writing, and love and sexuality as a challenge to the limits of what can be written through logic and mathematics. Chattopadhyay reads Beckett's prose works including *How It Is*, *Company*, *Worstward Ho*, *Malone Dies*, and *Enough* to highlight this terminal writing which halts endless meanings with the material body of the word and gives Beckett a medium to inscribe what cannot be written otherwise.

Jacques Lacan's Return to Freud Philippe Julien, 1995-07

From 1953 to 1980 Jacques Lacan sought to accomplish a return to Freud beyond post-Freudianism. He defined this return as a new covenant with the meaning of the Freudian discovery. Each year through his teaching he brought about this return. What was at stake in this renewal?

Psychoanalysis Under Nazi Occupation Laura Sokolowsky, 2021-09-30

Laura Sokolowsky's survey of psychoanalysis under Weimar and Nazism explores how the paradigm of a psychoanalysis for all became untenable as the Nazis rose to power. Mainly discussing the evolution of the Berlin Institute during the period between Freud's creation of free psychoanalytic centres after the founding of the Weimar Republic and the Nazi seizure of power in 1933, the book explores the ideal of making psychoanalysis available to the population of a shattered country after World War I and charts how the Institute later came under Nazi control following the segregation and dismissal of Jewish colleagues in the late 1930s. The book shows how Freudian standards resisted the medicalisation of psychoanalysis for purposes of adaptation and normalisation but also follows Freud's distinction between sacrifice where you know what you have given up and concession an abandonment of position through compromise to demonstrate how German psychoanalysts put themselves at the service of the fascist master in the hope of obtaining official recognition and material rewards. Discussing the relations of psychoanalysis with politics and ethics as well as the origin of the Lacanian movement as a response to the institutionalisation of psychoanalysis during the Nazi occupation, this book is fascinating reading for scholars and practitioners of psychoanalysis working today.

Periodizing Jameson Phillip E. Wegner, 2014-06-30 For a half century the American intellectual Fredric Jameson has been a driving force in literary and cultural theory. In *Periodizing Jameson* Phillip E. Wegner builds upon Jameson's unique dialectical method to demonstrate the value of Jameson's tools: periodization, the fourfold hermeneutic, and the Greimasian semiotic square, among others, and to develop virtuoso readings of Jameson's own work and the history of the contemporary American university in which it unfolds. Wegner shows how Jameson's work intervenes in particular social, cultural, and political situations using his scholarship both to develop original explorations of nineteenth-century fiction, popular films, and other prominent theorists and to examine the changing fortunes of theory itself. In this way, *Periodizing Jameson* casts new light on the potential of and challenges to humanist intellectual work in the present.

Sensible Life Emanuele Coccia, 2016-02-29 We like to imagine ourselves as rational beings who think and speak; yet to live means first and foremost to look, taste, feel, or smell the world around us. But sensibility is not just a faculty. We are sensible objects both to ourselves and to others, and our life is through and through a sensible life. This book, now translated into five languages, rehabilitates sensible existence from its marginalization at the hands of modern philosophy, theology, and politics. Coccia begins by defining the ontological status of images. Not just an internal modification of our consciousness, an image has an intermediate ontological status that differs from that of objects or subjects. The book's second part explores our interactions with images in dream fashion and biological facts like growth and generation. Our life, Coccia argues, is the life of images.

Biopolitics and Structure in Legal Education Luca Siliquini-Cinelli, Thomas Giddens, 2023-06-30 Taking up the study of legal education in distinctly biopolitical terms, this book provides a critical and political analysis of structure in the law school. Legal education concerns the complex pathways by which an individual becomes a lawyer, making the journey from lay person to expert, from student to practitioner. To pose the idea of a biopolitics of legal education is not only to

recognise the tensions surrounding this journey but also to recognise that legal education is a key site in which the subject engages and is engaged by a particular structure and here the particular structure of the law school This book explores that structure by addressing the characteristics of the biopolitical orders engaged in legal education including understanding the lawyer as a commodity unpicking the force relations in legal education examining the ways codes of conduct in higher education impact academic freedom as well as putting the distinctly Western structures of legal learning within a wider context Assembling original field defining essays by both leading international scholars and emerging researchers it constitutes an indispensable resource in legal education research and scholarship that will appeal to legal academics everywhere

The Pale Criminal Stephen J. Costello, 2018-05-08 It was Freud borrowing Nietzsche's phrase from Thus Spake Zarathustra who described as pale criminals those who committed criminal acts out of deep lying unconscious guilt The focus of this challenging and penetrating study is on this type of criminality The book brings a unifying vision and theoretical integration to the array of perspectives and theories in this field He draws together for the first time the thoughts on the subject of Sigmund Freud Carl Jung Melanie Klein Donald Winnicott and Jacques Lacan examines the contributions of both orthodox and evolutionary psychiatry and explores the role of family experience in shaping the pale criminal The result is an ambitious theory of criminality a depth psychological psychoanalytic model of the human being In the early chapters the author provides a judicious and even handed exposition of his chosen thinkers views before proceeding to an impressive and well argued dialectical synthesis in which each theoretical perspective is used to correct qualify or supplement the others In a diffuse and divided field this volume should provide an indispensable source of clarification and a stimulus to open creative debate

The Deconstructive Owl of Minerva Lillian Francis Burke, 2013-10-03 The Deconstructive Owl of Minerva An Examination of Schizophrenia through Philosophy Psychoanalysis and Postmodernism takes as its project the articulation of the language of schizophrenia as it inscribes itself between the self and other It takes into account Georg W F Hegel's account of self consciousness as a master slave relation A reading of Jacques Lacan provides access to the narrative self in terms of the mirror stage as the recognition of the self as other By a further reading of postmodern theorists this book shows that what has been named schizophrenia calls for a deconstructive strategy that operates with the divergence between pharmacological treatment and the understanding of the language of the schizophrenic condition This difference will emphasize language as plural plurivalent polyphonic and polylogical This book essentially seeks to circumvent the label of schizophrenia and to provide alternative ways to understand schizophrenic language in order to culturally rearticulate its effects in society Postmodern and deconstructive modes of access to the languages of desire dispersal and plurivalence that are associated with schizophrenic conditions can help to open up spaces of understanding that are rendered impossible through symptomatic treatment models
