In the Shadow of Race Victoria Hattam, 2007-09-15 Race in the United States has long been associated with heredity and inequality while ethnicity has been linked to language and culture In *the Shadow of Race* recovers the history of this entrenched distinction and the divisive politics it engenders Victoria Hattam locates the origins of ethnicity in the New York Zionist movement of the early 1900s In a major revision of widely held assumptions she argues that Jewish activists identified as ethnics not as a means of assimilating and becoming white but rather as a way of defending immigrant difference as distinct from race rooted in culture rather than body and blood Eventually Hattam shows the Immigration and Naturalization Service and the Census Bureau institutionalized this distinction by classifying Latinos as an ethnic group and not a race But immigration and the resulting population shifts of the last half century have created a political opening for reimagining the relationship between immigration and race How to do so is the question at hand In *the Shadow of Race* concludes by

examining the recent New York and Los Angeles elections and the 2006 immigrant rallies across the country to assess the possibilities of forging a more robust alliance between immigrants and African Americans Such an alliance is needed Hattam argues to more effectively redress the persistent inequalities in American life

Gender and Assimilation in Modern Jewish History Paula E. Hyman, 2016-06-01 Paula Hyman broadens and revises earlier analyses of Jewish assimilation which depicted the Jews as though they were all men by focusing on women and the domestic as well as the public realms Surveying Jewish accommodations to new conditions in Europe and the United States in the years between 1850 and 1950 she retrieves the experience of women as reflected in their writings memoirs newspaper and journal articles and texts of speeches and finds that Jewish women's patterns of assimilation differed from men's and that an examination of those differences exposes the tensions inherent in the project of Jewish assimilation Patterns of assimilation varied not only between men and women but also according to geographical locale and social class Germany France England and the United States offered some degree of civic equality to their Jewish populations and by the last third of the nineteenth century their relatively small Jewish communities were generally defined by their middle class characteristics In contrast the eastern European nations contained relatively large and overwhelmingly non middle class Jewish population Hyman considers how these differences between East and West influenced gender norms which in turn shaped Jewish women's responses to the changing conditions of the modern world and how they merged in the large communities of eastern European Jewish immigrants in the United States The book concludes with an exploration of the sexual politics of Jewish identity Hyman argues that the frustration of Jewish men at their feminization in societies in which they had achieved political equality and economic success was manifested in their criticism of and distancing from Jewish women The book integrates a wide range of primary and secondary sources to incorporate Jewish women's history into one of the salient themes in modern Jewish history that of assimilation The book is addressed to a wide audience those with an interest in modern Jewish history in women's history and in ethnic studies and all who are concerned with the experience and identity of Jews in the modern world

European versus German Jewish identities In pursuing the central thesis of the problematic search for Jewish identity which runs throughout the book and ties the work together the author has also explored the multifaceted nature of the Jewish population of Detroit its landsmanshaften German Jews establishment organizations and their antagonists cultural forces and numerous Yiddish groups This focus on identity is sharpened as the author perceives two events increasingly directing Jewish life and thought the Holocaust and its aftermath and the founding of the state of Israel How those events influenced the attitudes and behavior of Detroit s Jews contributes to what one Detroit patriarch called the Detroit difference *The Tenement Saga* Sanford Sternlicht, 2004-12-16 Nearly two million Jewish men women and children emigrated from Eastern Europe between 1882 and 1924 and settled in or passed through the Lower East Side of New York City Sanford Sternlicht tells the story of his own childhood in this vibrant neighborhood and puts it within the context of fourteen early twentieth century East Side writers Anzia Yezierska Abraham Cahan Michael Gold and Henry Roth and others defined this new Jewish homeland and paved the way for the later great Jewish American novelists Sternlicht discusses the role of women the Yiddish Theater secular values the struggle between generations street crime politics labor unions and the importance of newspapers and periodicals He documents the decline of Yiddish culture as these immigrants blended into what they called The Golden Land
