Nutrition and Sensation Alan R. Hirsch, 2022-08-25. Nutrition and Sensation Second Edition continues to explore how sensations unravel the hidden sensory universe which acts to control our appetite and nutritional desires. The sensory influence on food is found everywhere, whether it is the color of soda, the viscosity of maple syrup, or the aroma of chocolate; the sensory experience fuels consumption. This book continues to discuss the impact of olfaction, gustation, retronasal olfaction, vision, vestibular function, hearing, and somatosensory and tactile nature on nutrition. It also focuses on the use of the sensory system to treat nutritional disorders, including obesity, with attention to the mechanisms encompassing smell and taste and how this can influence satiety and weight. Nutrition and Sensation Second Edition provides a deeper understanding of the fascinating link between the sensory system and nutrition. [Hardware Age](#), 1929.

WineSpeak Bernard Klem, 2009-07-01. If you read wine reviews, you're already either amused or confused by the soaring language wine writers often use to describe what they're smelling and tasting. But do you always know what they mean? Have you ever sipped a complex white and sensed what's so colorfully described as a peacock's tail? Have you ever savored a full-bodied red only to detect the ripe, acrid smell of a horse stall? If not, you're in for a treat because these terms and thousands more are all here to amuse, dismay, enlighten, inspire, puzzle, and utterly shock you. Welcome to the rich linguistic universe of wine speak, a world where words and wine intersect in an uncontrolled riot of language guaranteed to keep you entertained for hours. The author, a lifelong lover of both wine and words, has compiled and organized this unique thesaurus of 36,975 wine tasting descriptors into 20 special collections extracted from 27 categories so you can locate exactly the right term or phrase to express yourself clearly or to understand others. May your path across the galaxy of wine be paved only with labels from the very best bottles on earth. Or, much more cautiously, with wines that could introduce you to angel pee, citronella, eastern European fruit soup, Godzilla, iodine, ladies' underwear, mustard gas, old running shoes, rawhide, hot tar roads, bubblegum, sweaty saddles, crushed ants, kitchen drains, or even turpentine. [Surreal Gourmet Bites](#) Bob Blumer, 2004-09-09. The Food Network's Bob Blumer is called the Surreal Gourmet for good reason. He's an artist when it comes to creating dishes as fun and delicious to look at as they are to eat. This book includes recipes for 50 little masterpieces as well as tips for whimsical presentation, shortcuts, techniques, and more.
