AP promotes awareness of how we regulate our arousal states and encourages the use of sensorimotor strategies to manage our levels of alertness. Knowledge of self-regulation and a repertoire of strategies enhance our abilities to learn, interact with others, and work or play within our environment, in addition to building self-esteem, self-confidence, and self-monitoring skills. It presents a strong awareness of sensory integration.

**Outsmarting Autism, Updated and Expanded** Patricia S. Lemer, 2019-03-19 Nautilus Award Winner 2019 Silver in Parenting/Family. A comprehensive resource for parents, therapists, caregivers, and educators packed with lifelong strategies for Autism Spectrum Disorder (ASD) management and support. Newly revised and updated, this user-friendly guide addresses autism identification, treatment, and prevention from pre-conception through adulthood. *Outsmarting Autism* describes more than 50 practical approaches with proven efficacy, including lifestyle modification, dietary considerations, and boosting the immune system. After health improves, focus turns to developing the sensory foundations for communication, social skills, and learning. Patricia Lemer's approach is grounded in research on multifactorial causes or Total Load Theory, which explains that developmental delays are caused not by one single factor but by an overload of environmental stressors on genetically vulnerable individuals. Because every person with autism is unique, this book guides readers to the therapies that may be right for each individual, helping to make the difference between management and healing. New research on topics like stem cells, cannabis, and dentistry is now included.

**Multidisciplinary Interventions for People with Diverse Needs - A Training Guide for Teachers, Students, and Professionals** Samuel Honório, Marco Batista, Helena Mesquita, Jaime Ribeiro, 2020-06-02 *Multidisciplinary Interventions for People with Diverse Needs* is a book written from an interdisciplinary perspective with the objective of helping readers to understand the problems faced by people with special needs. Key Features: provides an updated theoretical and contextual foundation of medical issues; provides information about the meaning, evaluation, and intervention of the problems related to a variety of debilitating diseases and disability conditions: dementia, language disorders, diabetes, alterations of consciousness, celiac disease, and disability in general. Contains an accessible, well-written didactic text which is useful to both students and working professionals. The book equips the reader with information about different approaches to medical and social issues that arise when dealing with persons who are experiencing some degree of disability. For teachers and working professionals, the handbook serves as a guide for teaching for the development of the structure of training courses for the design of evaluation models and intervention of the topics addressed in the book. The combination of information about the professional and human aspects of special needs education makes this book a useful reference for pedagogues, psychologists, students, teachers, and professionals involved in social science, healthcare, and sports medicine among other fields.
