Tantra Vision : An Invitation to Silence Osho, **Humankind and Humanity in the Philosophy of the Enlightenment** Stefanie Buchenau,Ansgar Lyssy,2023-08-24 What makes us human beings Is it merely some corporeal aspect or rather some specific mental capacity language or some form of moral agency or social life Is there a gendered bias within the concept of humanity How do human beings become more human and can we somehow cease to be human This volume provides some answers to these fundamental questions and more by charting the increased preoccupation of the European Enlightenment with the concepts of humankind and humanity Chapters investigate the philosophical concerns of major figures across Western Europe including Montesquieu Diderot Rousseau Locke Hume Ferguson Kant Herder Johann Friedrich Blumenbach and the Comte de Buffon As these philosophers develop important descriptive and comparative approaches to the human species and moral and social ideals of humanity they present a view of the Enlightenment project as a particular kind of humanism that is different from its Ancient and Renaissance predecessors With contributions from a team of internationally recognized scholars including Stephen Gaukroger Michael Forster C line Spector Jacqueline Taylor and G nter Z ller this book offers a novel interpretation of the Enlightenment that is both clear in focus and impressive in scope *Else Voigtländer: Self, Emotion, and Sociality* Íngrid Vendrell Ferran,2023-01-01 This book is the first to offer a full account of the philosophical work of Else Voigtl nder Locating the sources of her thought in the philosophy and psychology of the nineteenth and twentieth19th and 20th centuries in figures such as Nietzsche and Lipps the volume book uncovers and examines Voigtl nder s intellectual exchanges with both phenomenology and psychoanalysis The major themes within her work are considered in 12 expertly written chapters that also cover more recent developments in the philosophy of self emotion and sociality The book appeals to scholars who are interested in the history of philosophy and in particular of phenomenology as well as those working on the philosophical roots of psychology and in women s studies **Mind** ,1887 A quarterly review of philosophy *The Concept of Vakrokti in Sanskrit Poetics* Suryanarayana Hegde, In the whole range of Sanskrit poetics the term vakrokti took altogether a new significance and the highest position as the all pervading poetic

concept in Kuntaka's Vakroktijivita. He revived the concept from more verbal poetic figure to the lessons of poetry. He not only explains but also explores the multi-dimensional aspects of Vakrokti. But unfortunately no comprehensive study of Vakrokti has been done in a systematic way. This book is an effort in this direction. Presenting the major schools of Sanskrit poetics, the book gives general definition of vakrokti and its multi-dimensional implications. Further, taking a close look at the views of different theorists on vakrokti, it exposes in detail Kuntaka's theory of vakrokti and makes its critical analysis in relation to various literary concepts: alankara, svabhavokti, rasavalankara, marga, and rasa. Finally, it deals with the striking similarities between dhvani and vakrokti and brings out the fundamental aspects of practical criticism as shown by Kuntaka.

The Religious Sentiment, Its Source and Aim: A Contribution to the Science and Philosophy of Religion Daniel Garrison Brinton, 2009-01-01.

Wittgenstein's Secret Diaries Dinda L. Gorlée, 2020-02-06. Ludwig Wittgenstein's works encompass a huge number of published philosophical manuscripts, notebooks, lectures, remarks, and responses, as well as his unpublished private diaries. The diaries were written mainly in coded script to interpolate his writings on the philosophy of language with autobiographic passages but were previously unknown to the public and impossible to decode without learning the coding system. This book deciphers the cryptography of the diary entries to examine what Wittgenstein's personal idiom reveals about his public and private identities. Employing the semiotic doctrine of Charles S. Peirce, Dinda L. Gorlée argues that the style of writing reflects the variety of Wittgenstein's emotional moods, which were profoundly affected by his medical symptoms. Bringing Peirce's reasoning of abduction together with induction and deduction, the book investigates how the semiosis of the emotional, energetic, and logical interpretations of signs and objects reveal Wittgenstein's psychological states in the coded diaries.
