September 11, 2001 William Heyen, 2002 Over 125 American writers reflect on September 11 in its immediate aftermath *Be Very Afraid* Robert Wuthnow, 2010-04-07 Robert Wuthnow has been praised as one of the country's best social scientists by columnist David Brooks who hails his writing as tremendously valuable The New York Times calls him temperate balanced compassionate adding one can't but admire Mr Wuthnow's views A leading authority on religion he now addresses one of the most profound subjects the end of the world In *Be Very Afraid* Wuthnow examines the human response to existential threats once a matter for theology but now looming before us in multiple forms Nuclear weapons pandemics global warming each threatens to destroy the planet or at least to annihilate our species Freud he notes famously taught that the standard psychological response to an overwhelming danger is denial In fact Wuthnow writes the opposite is true we seek ways of positively meeting the threat of doing something anything even if it's wasteful and time consuming The atomic era that began with the bombing of Hiroshima sparked a flurry of activity ranging from duck and cover drills basement bomb shelters and marches for a nuclear freeze All were arguably ineffectual yet each sprang from an innate desire to take action It would be one thing if our responses were merely pointless Wuthnow observes but they can actually be harmful Both the public and policymakers tend to model reactions to grave threats on how we met previous ones The response to the terrorist attacks of 9/11 for example echoed the Cold War citizens went out to buy duct tape mimicking 1950s era civil defense measures and the administration launched two costly conflicts overseas Offering insight into our responses to everything from *An Inconvenient Truth* to the bird and swine flu epidemics Robert Wuthnow provides a profound new understanding of the human reaction to existential vulnerability **Literature after 9/11** Ann Keniston, Jeanne Follansbee Quinn, 2013-04-15 Drawing on trauma theory genre theory political theory and theories of postmodernity space and temporality *Literature After 9/11* suggests ways that these often distinct discourses can be recombined and set into dialogue with one another as it explores 9/11's effects on literature and literature's attempts to convey 9/11 *Towering Figures* Sven Cvek, 2011-01-01 This volume offers a critical analysis of a segment of American literary production surrounding the September 11 2001 attacks on the United States While focusing on the writing of Jonathan Safran Foer Art Spiegelman Don DeLillo and Thomas Pynchon the author locates this work within a larger 9/11 cultural archive The book proceeds by way of a series of thematic leaps in order to unearth the active entanglement of the event with systems of meaning and power that create the conditions for its emergence and understanding The main problem of such an approach consists in articulating the three fold relation at the heart of the archive in which issues of traumatic loss affect and politics appear as central between the historical event its cultural imprint and the wider social system In order to grasp these fundamental relations the author resorts to a layered interpretive framework and engages a number of theoretical protocols from psychoanalysis and nationalism studies to philosophy of history world system theory and the heterogeneous critical practices of American Studies Coming from a non

US Americanist perspective this contribution to the scholarly production about 9 11 concentrates on trauma as a problem in the conceptualization the event insists on globalization as its crucial context and argues for a historical materialist approach to the 9 11 archive

Balanced informative and always highly readable there is much here for general readers students and specialists alike Christopher MacGowan the College of William and Mary **9/11: Culture, Catastrophe and the Critique of Singularity** Diana Gonçalves,2016-10-24 Even though much has been said and written about 9 11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9 11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9 11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo s *Falling Man* and Jonathan Safran Foer s *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9 11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9 11 imaginary **Behind the Lines** Philip Metres,2007-05 Whether Thersites in Homer s *Iliad* Wilfred Owen in *Dulce et Decorum Est* or Allen Ginsberg in *Wichita Vortex Sutra* poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium *Poetry and the American Voice* in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful *Behind the Lines* investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet s relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements *After the Fall* Richard Gray,2011-05-03 *After the Fall* A common refrain heard since the collapse of the World Trade Center towers on September 11 2001 is that everything has changed *After the Fall* presents a timely and provocative examination of the impact and implications of 9 11 and the war on terror on American culture and literature Author Richard Gray widely regarded as the leading European scholar in American literature reveals the widespread belief among novelists dramatists and poets as well as the American public at large that in the post 9 11 world they are all somehow living after the fall He carefully considers how many writers faced with what they see as the end of their world have retreated into the seductive pieties of home hearth and family and how their works are

informed by the equally seductive myth of American exceptionalism As a counterbalance Gray also discusses in depth the many writings that get it right transnational and genuinely crossbred works that resist the oppositional and simplistic us and them Christian and Muslim language that has dominated mainstream commentary These imaginative works Gray believes choose instead to respond to the heterogeneous character of the United States as well as its necessary positioning in a transnational context After the Fall offers illuminating insights into the relationships of such issues as nationalism trauma culture and literature during a time of profound crisis American Multiculturalism After 9/11 Derek Rubin,J. Verheul,2009 This provocative and rich volume charts the post 9 11 debates and practice of multiculturalism pinpointing their political and cultural implications in the United States and Europe **Representing 9/11** Paul Petrovic,2015-06-17 As the horrific events of September 11 2001 slip deeper into the past the significance of 9 11 remains a global cultural touchstone Initially filmmakers writers and other artists wrangled with its meaning often relying on fantastical ethnic or exceptionalist themes to address the psychic dread of the terrorist attacks Over time however more nuanced and socio historical perspectives about 9 11 and its impact on America and the world have emerged In Representing 9 11 Trauma Ideology and Nationalism in Literature Film and Television prominent authors from a variety of disciplines demonstrate how emergent American and international texts expand upon and complicate the initial post 9 11 canon Editor Paul Petrovic has assembled a collection of essays that broadens our understanding of how popular culture has addressed 9 11 particularly as it has evolved over time Contributors bring fresh readings to popular novels such as Jonathan Lethem s Chronic City and Jonathan Franzen s Freedom films like Zero Dark Thirty and This Is the End and television shows such as 24 and Homeland Showcasing a diverse range of viewpoints essays in this collection assess among other topics how African American identity is challenged by post 9 11 allegories how superhero films foretell the inevitability of city wide destruction by terrorists and how shows like Breaking Bad problematize ideas of liberalism and masculinity Though primarily aimed at scholars Representing 9 11 seeks to engage readers interested in how various forms of media have interpreted the events and aftermath of the terrorist attacks in 2001
