Island of Fear

As humans, we all fear something, and we deal with those fears in ways that match our personalities. In *Lord of the Flies*, William Golding shows the fears of Jack, Ralph, and Piggy and chooses specific ways for each to deal with his fears. Therefore, each of the three boys reacts to fear in his own unique way.

The first boy, Jack, believes that a beast truly does exist. He is afraid and admits it; however, he deals with his fear with aggressive violence. He chooses to hunt for the beast, arm himself with a spear, and practice killing it: "We're strong—we hunt! If there's a beast, we'll hunt it down! We'll close in and beat and beat and beat—!"(91). He also uses the fear of the beast to control and manipulate the other children. Because they fear the beast, they are more likely to listen to Jack and follow his orders. Furthermore, Jack fears Ralph's power over the group and Piggy's rational thought. This is because he knows that both directly conflict with his thirst for absolute power. He responds to these fears in his familiar, violent way. He physically and verbally abuses Piggy, and he argues with Ralph and questions his authority to such an extent that he ends up leaving the group. Jack eventually consolidates his power by forcing the last members of Ralph's group into his tribe and ordering a hunt for Ralph.

In films or film series that are described as sequels, establishing a visual integrity relationship between films comes to the fore. The concept of the sequel appears in two ways. Sometimes while the ideas are scripted, the story is divided into more than one part. Sometimes the story is planned as a single movie and after a certain time it can be realized as a follow-up movie film for different reasons. In both systems of expression, it is necessary to seek harmony between all elements of visual design. Examinations and Analysis of Sequels and Serials in the Film Industry examines certain contents through the concepts of cinematography and narrative, focusing more on the practical side of cinema and partially on the theoretical side. It examines samples of sequels, serials, and trilogy universes on the axis of cinematography and narration.
