steers a well reasoned course for the future of America's forests. He points out that wood is one of our most critical resources one that must be wisely used and conscientiously renewed. Leavell's message is frank but encouraging. Thanks to pressure applied by environmental and conservation groups to responsible government policy and to an ever rising social consciousness concerning all our natural resources we are making progress in forest management. And with the leadership of Leavell and others like him the American forest does have hope.
