Social Citizenship in the Shadow of Competition Bronwen Morgan, 2017-11-30 Social Citizenship in the Shadow of Competition explores how economic concepts and tools are reshaping regulatory law Building on studies that link law both institutionally and discursively to the legitimization of economic neo liberalism the book charts lawmakers attempts to justify social welfare regulation in the language imposed by economic theory It presents new qualitative findings from an ambitious regulatory reform programme targeting over 1 700 pieces of legislation Bronwen Morgan argues that the interplay between economic discourse and lawmaking does not destroy the possibility of social citizenship however the subsequent regulatory conversations frequently silence or weaken the claims of vulnerable groups Thus even when vulnerable groups secure instrumental success economic conceptions of bureaucratic rationality impoverish their capacity to express certain kinds of intangible values and aspirations To expand or retain social citizenship requires that we learn to conceive of what matters in political economy without relying on the logic of utility or other instrumental rationalities *The Serious Business of Governing* Peter J. Governance Reform Under Real-World Conditions Sina Odugbemi,Thomas Jacobson,2008-06-13 Although necessary and often first rate technocratic solutions alone have been ineffective in delivering real change or lasting results in governance reforms This is primarily because reform programs are delivered no in controlled environments but under complex diverse sociopolitical and economic conditions Real world conditions In political societies ownership of reform programs by the entire country cannot be assumed public opinion will not necessarily be benign and coalitions of support may be scare or nonexistent even when intended reforms really will benefit those who need them most While the development community has the technical tools to address governance challenges experience shows that technical solutions are often insufficient Difficulties arise when attempts are made to apply what are often excellent technical solutions Human beings either acting alone or in groups small and large are not as amenable as are pure numbers and they cannot be ignored

In the real world reforms will not succeed and they will certainly not be sustained without the correct alignment of citizens stakeholders and voice Governance Reform under Real World Conditions Citizens Stakeholders and Voice is a contribution to efforts to improve governance systems around the world particularly in developing countries The contributors who are academics and development practitioners provide a range of theoretical frameworks and innovative approaches and techniques for dealing with the most important nontechnical or adaptive challenges that impede the success and sustainability of reform efforts The editors and contributors hope that this book will be a useful guider for governments think tanks civil society organizations and development agencies working to improve the ways in which governance reforms are implemented around the world

Governance Reforms Karunakar Patnaik,2017-01-01 The book on Governance Reforms tries to analyse the important issues and challenges that Indian governance system is often confronted with This book is not deliberately text book centric nor purely academic literature based but based on important events that have traversed though the working of our democratic institutions over the years With six chapters covering administrative civil service electoral judicial police and corruption the book deals with rudimentary and basis issues that affect the normal functioning of our governance structure Because of multiple governance issues several commissions and committees have gone through the problems of public administration but the executive has fallen short of accountability responsiveness and transparency The electoral process has witnessed far reaching changes but lacks a vibrant democratic electoral process The judiciary as an institution for safeguarding democratic rights is not fully ripe The police has not maintained a clear and undisputable image Corruption is all pervasive These issues are reflected in this edition of the book
