Encyclopedia of American Poetry: The Twentieth Century Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States [Adriatic](#) Robert D. Kaplan, 2022-04-12 An elegantly layered exploration of Europe's past and future a multifaceted masterpiece The Wall Street Journal A lovely personal journey around the Adriatic in which Robert Kaplan revisits places and peoples he first encountered decades ago Peter Frankopan author of The Silk Roads ONE OF THE BEST BOOKS OF THE YEAR The New Yorker In this insightful travelogue Robert D Kaplan geopolitical expert and bestselling author of Balkan Ghosts and The Revenge of Geography turns his perceptive eye to a region that for centuries has been a meeting point of cultures trade and ideas He undertakes a journey around the Adriatic Sea through Italy Slovenia Croatia Montenegro Albania and Greece to reveal that far more is happening in the region than most news stories let on Often overlooked the Adriatic is in fact at the center of the most significant challenges of our time including the rise of populist politics the refugee crisis and battles over the control of energy resources And it is once again becoming a global trading hub that will determine Europe's relationship with the rest of the world as China and Russia compete for dominance in its ports Kaplan explores how the region has changed over his three decades of observing it as a journalist He finds that to understand both the historical and contemporary Adriatic is to gain a window on the future of Europe as a whole and he unearths a stark truth The era of populism is an epiphenomenon a symptom of the age of nationalism coming to an end Instead the continent is returning to alignments of the early modern era as distinctions between East and West meet and break down within the Adriatic countries and ultimately throughout Europe With a brilliant cross pollination of history literature art architecture and current events in Adriatic Kaplan demonstrates that this unique
