American Jewish Historical Society,1906 Outlines of French History ... Henry Ince,1856 *This is Not Just a Painting* Bernard Lahire,2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art *History*,1991 **The Rough Guide to France** David Abram,2003 From cosmopolitan Paris to the sunny Cote d Azur from historical Normandy to the rocky Pyrenes this new edition updates the best of towns attractions and landscapes of every region 100 maps of color photos **The Origins of French Absolutism, 1598-1661** Alan James,2014-01-14 This controversial study takes the provocative line that the French monarchy was a complete success James turns the idea of royal absolutism on its head by redefining the French monarchy s success from 1598 1661 The Origins of French Absolutism 1598 1661 maintains that building blocks were not being laid by the so called architects of absolutism but that by satisfying long established traditional ambitions cardinal ministers Richelieu and Mazarin undoubtedly made the confident ambitious reign of the late century possible *From Just War to Modern Peace Ethics* Heinz-Gerhard Justenhoven,William A. Barbieri, Jr.,2012-10-01 This book rewrites the history of Christian peace ethics Christian reflection on reducing violence or overcoming war has

roots in ancient Roman philosophy and eventually grew to influence modern international law This historical overview begins with Cicero the source of Christian authors like Augustine and Thomas Aquinas It is highly debatable whether Augustine had a systematic interest in just war or whether his writings were used to develop a systematic just war teaching only by the later tradition May Christians justifiably use force to overcome disorder and achieve peace The book traces the classical debate from Thomas Aquinas to early modern age thinkers like Vitoria Suarez Martin Luther Hugo Grotius and Immanuel Kant It highlights the diversity of the approaches of theologians philosophers and lawyers Modern cosmopolitanism and international law thinking it shows are rooted in the Spanish Scholastics where Grotius and Kant each found the inspiration to inaugurate a modern peace ethic In the 20th century the tradition has taken aim not only at reducing violence and overcoming war but at developing a constructive ethic of peace building as is reflected in Pope John Paul II s teaching

Just War Thinkers Daniel R. Brunstetter,Cian O'Driscoll,2017-08-09 This volume offers a set of concise and accessible introductions to the seminal figures in the historical development of the just war tradition In what if any circumstances are political communities justified in going to war And what limits should apply to the conduct of any such war The just war tradition is a body of thought that helps us think through these very questions Its core ideas have been subject to fierce debate for over 2 000 years Yet they continue to play a prominent role in how political and military leaders address the challenges posed by the use of force in international society Until now there has been no text that offers concise and accessible introductions to the key figures associated with the tradition Stepping into this breach Just War Thinkers provides a set of clear but detailed essays by leading experts on nineteen seminal thinkers from Cicero to Jeff McMahan This volume challenges the reader to think about how traditions are constituted who is included and excluded and how that is determined and how they serve to enable constrain and indeed channel subsequent thought debate and exchange This book will be of much interest to students of just war tradition and theory ethics and war philosophy security studies and IR
