Louis XIV Et Vingt Millions De Français:

Louis XIV et vingt millions de Français Pierre Goubert, 2014-04-01 Peu de livres en ce XXe siècle ont autant que celui-ci paru en 1966 marqué non seulement la corporation des historiens mais aussi le public. Éblouissant par la nouveauté du propos comme par le style, il fut en son temps salué ou dénoncé pour sa force de suggestion et son caractère corrosif voire iconoclaste. Pour la première fois ou presque, il ne s'agissait plus de statuer ou encore de dénigrer le Grand Roi mais de faire le portrait d'un homme dans sonpaisseur et sa complexité et de saisir les ressorts du dialogue souvent difficile qu'il entretenait avec son souverain. Ce livre a ouvert la recherche de multiples chantiers, souligné des lacunes, indiqué des pistes. Vingt-cinq ans après les travaux – souvent d'une exceptionnelle qualité – qu'il a suggérés, ont très largement confirmé et tabli ce qui avait pu apparaître aux censeurs de 1966 comme une série d'intuitions hardies et d'assertions arbitraires. En des pages nouvelles, Pierre Goubert en dresse ici un bilan qui précise complétement, enrichit ce grand classique qui est devenu et demeure Louis XIV et vingt millions de Français. Professeur maître à l'université de Paris I, Pierre Goubert est le meilleur spécialiste actuel de l'Ancien Régime. Il est l'auteur chez Fayard de très grands succès: Initiation à l'histoire de la France 1984 et Mazarin 1990.

Louis XIV et vingt millions de Français Pierre Marie Jean Goubert, 1998 Louis XIV et vingt millions de Français Pierre Goubert, 1967 **Louis XIV and Europe** Ragnhild Marie Hatton, 1976-07-01 **Lineages of the Absolutist State** Perry Anderson, 2013-03-12 Forty years after its original publication, *Lineages of the Absolutist State* remains an exemplary achievement in comparative history. Picking up from where its companion volume *Passages from Antiquity to Feudalism* left off, *Lineages* traces the development of Absolutist states in the early modern period from their roots in European feudalism and assesses their various trajectories. Why didn't Italy develop into an Absolutist state in the same indigenous way as the other dominant Western countries, namely Spain, France, and England? On the other hand, how did Eastern European countries develop into Absolutist states similar to those of the West when their social conditions diverged so drastically? Reflecting on examples in Islamic and East Asian history as well as the Ottoman Empire, Anderson concludes by elucidating the particular role of European development within universal history. Louis XIV's Assault on Privilege Gary B. McCollim, 2012 *Louis XIV's Assault on Privilege* examines Nicolas Desmaretz, one of the most important finance ministers of the Bourbon monarchy. McCollim brings to life the man who was arguably the central figure in the final transformative years of Louis XIV's reign. Controller General Desmaretz was the nephew of famed finance minister Jean-Baptiste Colbert and had extensive experience in the administration prior to 1683 when he suffered disgrace. His expertise was so renowned in his day that other chief financial officials sought his advice in secret. Desmaretz has been called the ablest man ever to head French finances and the war financing problems he faced from 1708–14 the greatest challenge faced by the Bourbon monarchy until the French Revolution. **Louis XIV and the Origins of the Dutch War** Paul Sonnino, 2003-02-13 This stylish and highly entertaining account of the origins of the Franco-Dutch War of 1672 is based on massive archival researches covering twelve countries.

Contrary to the accepted historical opinion that there was a meeting of minds within Louis XIV's conseil d'en haut over the desirability of the war Professor Sonnino chronicles a story of bitter division in the course of which the contrasting personalities of the king and of his most intimate advisors emerge in vivid detail Racine once eulogized the war as a brilliantly executed venture which put the insolent Dutch in their place Saint Simon on the other hand saw it as the disastrous result of endemic jealousies in which Le Tellier and Louvois sought to displace Colbert in Louis' affections From these early views the modern consensus in spite of occasional dissenters has gradually evolved Professor Sonnino however breaks through the maze of interpretations with decisive new evidence and in an unusually clear and lively evocation of the emotional element which pervaded high policy explains the many agonizing decisions that preceded one of the most dramatic conflicts of the seventeenth century

The Crisis of French Sea Power, 1688-1697 Geoffrey Symcox, 2012-12-06 The French navy that fought in the Nine Years War was essentially Colbert's creation Earlier in the century Richelieu had given France the beginnings of a navy ships ports a corps of officers and an administrative structure But most of his work was undone by neglect in the years after his death and the task of making France a maritime power had to begin again under Louis XIV Colbert's efforts to build a navy were distinguished by the same stubborn energy that he brought to all his other tasks Behind his desire for naval might lay his vision of France as the first commercial power in Europe for he saw clearly that mercantile preponderance could never be achieved without the backing of a strong fleet of warships Trade would follow the flag as he believed it had for his envied models and perpetual rivals the Dutch Soon after Louis XIV's assumption of power Colbert set about the enormous labour of resurrecting the navy founded by Richelieu he soon found that the task was really one of creation virtually ex nihilo Ships or built sailors recruited captains enticed home from where purchased service under foreign flags bases planned and constructed an administrative system established

The French Historical Revolution Peter Burke, 2015-01-20 This book provides a critical history of the movement associated with the journal *Annales* from its foundation in 1929 to the present This movement has been the single most important force in the development of what is sometimes called the new history Renowned cultural historian Peter Burke distinguishes between four main generations in the development of the *Annales* School The first generation included Lucien Febvre and Marc Bloch who fought against the old historical establishment and founded the journal *Annales* to encourage interdisciplinary collaboration The second generation was dominated by Fernand Braudel whose magnificent work on the Mediterranean has become a modern classic The third generation deeply associated with the cultural turn in historical scholarship includes recently well known historians such as Emmanuel Le Roy Ladurie Jacques Le Goff and Georges Duby This new edition brings us right up to the present and contemplates the work of a fourth generation including practitioners such as Roger Chartier Serge Gruzinski and Jacques Revel This new generation continued much of the cultural focus of the previous *Annales* historians while diversifying further and becoming increasingly reflexive a move that owes much to the sociocultural theories of Michel

Foucault Michel de Certeau and Pierre Bourdieu Wide ranging yet concise this new edition of a classic work of analysis of one of the most important historical movements of the twentieth century will be welcomed by students of history and other social sciences and by the interested general reader *Peacemaking and International Order after the First World War* Peter Jackson, William Mulligan, Glenda Sluga, 2023-06 This volume reinterprets the peace settlements after 1918 as a site of remarkable innovations in the making of international order Richelieu R J Knecht, 2014-01-09 This concise and up to date assessment of Richelieu s career provides an enthralling introduction to the character and exercise of his power Richelieu governed France for 18 years until his death and until the mid 20th century was viewed by Anglo Saxon historians as cold clever and ruthless Recent interpretations have been more favourable and in this incisive study R J Knecht uses recent research to reassess Richelieu s career and achievements Restructuring the French Economy William James Adams, 2010-12-01 At the end of World War II experts on both sides of the Atlantic believed that France was doomed to economic stagnation French culture and institutions they argued inhibited the changes in economic structure that sustained growth would require But in spite of these predictions and the occasional volatility of the world economy the French economy grew rapidly Only the Japanese of the major economies has grown faster and by 1975 the French standard of living matched that of West Germany Restructuring the French Economy looks at the four decades of the structural changes that fostered growth and explores explanations of why such changes occurred Drawing on many and diverse primary materials including government statistics judicial decisions and professional memoirs Adams examines three different explanations of France s postwar economic success The first downplays the extent of structural change during the surge of growth The second emphasizes the importance of government policies to compensate for inadequate private initiative The third suggests that European economic integration and French decolonization created enough market competition to push the private sector into its own restructuring Adams stresses that if government initiatives worked well they did so in an environment of strong market competition if competition seemed to work wonders it occurred only as a result of government actions He also devotes considerable attention to the implications of his findings for U S policy concerning European protectionism and the health and growth of American industries *The Anatomy of Revolution Revisited* Bailey Stone, 2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton s 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640 60 the French Revolution of 1789 99 and the Russian Revolution of 1917 29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human

agency revolutionary discourse mentalities ideology and political culture **Impersonal Power** Heide Gerstenberger,2007 In this volume Heide Gerstenberger investigates the development of bourgeois state power by on the one hand proposing a critique of different variants of the structural functionalist theory of the state and on the other hand analysing the examples of England and France The central thesis of the work is that the bourgeois form of capitalist state power arose only where capitalist societies developed out of state structures that were already rationalised **Vauban and the French Military Under Louis XIV** Jean-Denis G.G. Lepage,2009-12-21 A man of inventiveness versatility and reformist ideas Marshal Sebastien Le Prestre de Vauban built a formidable ring of fortresses to protect France's national frontiers More than just a fortification designer Vauban was also a gifted economist author and political strategist This book tells the complete story of Vauban's exceptional career placing him within the framework of Louis XIV's reign and revealing his lasting influences in France and other nations With the aid of numerous detailed drawings 17th century bastioned fortification artillery and siege warfare are described in detail Vauban's fortifications that are still standing today are particularly highlighted **Napoleon and de Gaulle** Patrice Gueniffey,2020-05-12 An Australian Book Review Best Book of the Year One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals for better and worse matter in history Historians have taught us that the past is not just a tale of heroes and wars The anonymous millions matter and are active agents of change But in democratizing history we have lost track of the outsized role that individual will and charisma can play in shaping the world especially in moments of extreme tumult Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders Napoleon Bonaparte and Charles de Gaulle Both became national figures at times of crisis and war They were hailed as saviors and were eager to embrace the label They were also animated by quests for personal and national greatness by the desire to raise France above itself and lead it on a mission to enlighten the world Both united an embattled nation returned it to dignity and left a permanent political legacy in Napoleon's case a form of administration and a body of civil law in de Gaulle's case new political institutions Gueniffey compares Napoleon's and de Gaulle's journeys to power their methods their ideas and writings notably about war and their postmortem reputations He also contrasts their weaknesses Napoleon's limitless ambitions and appetite for war and de Gaulle's capacity for cruelty manifested most clearly in Algeria They were men of genuine talent and achievement with flaws almost as pronounced as their strengths As many nations not least France struggle to find their soul in a rapidly changing world Gueniffey shows us what a difference an extraordinary leader can make **Britain Ascendant** Francois Crouzet,1990 Francois Crouzet devoted much of his life to the study of European industrialisation and Britain ascendant draws together a series of essays written in the course of his career and thoroughly revised examining the rise of Britain to the position of dominance in the world economy of the nineteenth century and the concomitant decline of France **The Industrial Revolutions in Europe II, Volume 5** Patrick O'Brien,1994-04-06 Modern European economic history is

marked by an endeavor to transcend the traditional national case study approach to use comparisons and to deploy economic theory in order to draw the manifold and diverse experiences of the regions countries and multicultural empires of Europe onto a unified frame of reference These two volumes exemplify this modern approach This Volume 5 of the eleven part set entitled Industrial Revolutions contains thirteen papers with an introduction which adopt and apply a conceptual and explicitly comparative approach to European economic history as a whole Volume 5 includes sixteen national case studies again organized around or set within the context of theoretical principles and ideas derived largely from macroeconomic theory social accounting productivity measurement and regional analysis **Fabricating Women** Clare Haru

Crowston,2001-12-07 A study of the seamstresses of late 17th and 18th century France who developed a quintessentially feminine occupation that became a major factor in the urban economy *Assimilation and Empire* Saliha

Belmessous,2013-03-21 Assimilation was an ideology central to European expansion and colonisation an ideology which legitimised colonisation for centuries Assimilation and Empire shows that the aspiration for assimilation was not only driven by materialistic reasons but was also motivated by ideas The engine of assimilation was found in the combination of two powerful ideas the European philosophical conception of human perfectibility and the idea of the modern state Europeans wanted to create in their empires political and cultural forms they valued and wanted to realise in their own societies but which did not yet exist Saliha Belmessous examines three imperial experiments seventeenth and eighteenth century New France nineteenth century British Australia and nineteenth and twentieth century French Algeria and reveals the complex inter relationship between policies of assimilation which were driven by a desire for perfection and universality and the greatest challenge to those policies discourses of race which were based upon perceptions of difference Neither colonised nor European peoples themselves were able to conform to the ideals given as the object of assimilation Yet the deep links between assimilation and empire remained because at no point since the sixteenth century has the utopian project of perfection articulated through the progressive theory of history been placed seriously in question The failure of assimilation pursued through empire for both colonised and coloniser reveals the futility of the historical pursuit of perfection
