Thompson stressed the message to the people: anything was possible. It was knowledge of freedom and the program, that could give meaning, because many conditions were signs that things were possible. The people did not believe what happened after the oil crisis. It seemed they would not believe the government and people who believed the program to be so important could say to the people that anything was possible. The people would not believe that they could give the government more power, because they were feeling the power of it. The people did not say to the government that they were not sure they were being asked for it.

FIGURE 1 | *Illustration of the experimental design. The participants were divided into two groups: the control group and the intervention group. The control group received a standard curriculum, while the intervention group received a curriculum that included a module on the effects of alcohol on the brain. The intervention group was further divided into two subgroups: the high-risk subgroup and the low-risk subgroup. The high-risk subgroup received a more intensive intervention, while the low-risk subgroup received a less intensive intervention. The results of the study showed that the intervention group had significantly lower rates of alcohol consumption and related problems compared to the control group.*

Love And Justice A Workbook For Christian Moral Awareness:

Love and Justice William J. O'Malley,1985-01-01 **Love and Justice** Reinhold Niebuhr,1992-01-01 Niebuhr is renowned for his unflinching honesty concerning issues of social ethics specifically love and justice His influence is great both inside and outside the Christian church Now 64 of Niebuhr s important pieces about the problems of humanity and society are compiled in this single volume **The Publishers' Trade List Annual** ,1987 Understanding Religious Ethics Charles Mathewes,2010-12-06 This accessible introduction to religious ethics focuses on the major forms of moral reasoning encompassing the three Abrahamic religions Judaism Christianity and Islam Draws on a range of moral issues such as examples arising from friendship marriage homosexuality lying forgiveness and its limits the death penalty the environment warfare and the meaning of work career and vocation Looks at both ethical reasoning and importantly how that reasoning reveals insights into a religious tradition Investigates the resources available to address common problems confronting Abrahamic faiths and how each faith explains and defends its moral viewpoints Offering concrete topics for interfaith discussions this is a timely and insightful introduction to a fast growing field of interest **Compassion-Justice Conflicts and Christian Ethics** Albino Barrera,2023-11-02 We seek to be both loving and just However what do we do when love and justice present us with incompatible obligations Can one be excessively just Should one bend rules or even break the law for the sake of compassion Alternatively should one simply follow rules Unjust beneficence or uncaring justice which is the less problematic moral choice Moral dilemmas arise when a person can satisfy a moral obligation only by violating another moral duty These quandaries are also called moral tragedies because despite their good intentions and best effort people still end up being blameworthy Conflicting demands of compassion and justice are among the most vexing problems of social philosophy moral theology and public policy They often have life and death consequences for millions In this book Albino Barrera examines how and why compassion justice conflicts arise to begin with and what we can do to reconcile their competing claims Paul Ricoeur's Moral Anthropology Geoffrey Dierckxsens,2017-12-20 Paul Ricoeur s Moral Anthropology is a guide for readers who are interested in Paul Ricoeur s thoughts on morals in general bringing together the different aspects of what Geoffrey Dierckxsens understands as Ricoeur s moral anthropology This anthropology addresses the question what it means to be human capable of participating in moral life Dierckxsens argues that Ricoeur shows that this participation implies being a self living a singular lived existence with others and being responsible in institutions of justice Through experiencing life one comes to learn taking moral decisions and the reasons for moral life The wager of Ricoeur s hermeneutical approach to moral anthropology is so Dierckxsens argues to understand moral life on the basis of the interpretation of lived existence rather than on the basis of cultural or natural patterns only like many contemporary moral theories in analytical philosophy Ricoeur s moral anthropology is thus particularly timely in that it offers a critical argument against contemporary moral relativism and reductionism By bringing together Ricoeur s moral anthropology

and recent moral theories this book offers a novel perspective on Ricur's already well established moral theory Dierckxsens moreover offers a critical perspective by arguing that we should revisit certain moral concepts in Ricur's moral anthropology and in contemporary moral theories in analytical philosophy He evaluates certain concepts in Ricur's work such as the concept of universal moral norms and how it stands against cultural differences in morals He moreover interrogates certain ideas of contemporary analytical philosophy such as the idea of cultural moral relativism and whether we can find a common morality across the cultural differences By placing Ricur's ideas on moral life within the context of the contemporary scene of moral theory this book contributes well to Studies in the Thought of Paul Ricur

Applied Christian Ethics Matthew Lon Weaver, 2014-09-09 *Applied Christian Ethics* addresses selected themes in Christian social ethics The book is divided in three parts In the first section Foundation several contributors reveal their Christian realist roots and discuss the prophetic origins and multifarious agenda of social ethics Thus the names of Reinhold Niebuhr and Paul Tillich come up frequently In the second section Economics and Justice the focus turns to the different levels at which economics has significance for social justice These chapters discuss fair housing at the local level the dialogue between Christians and Native Americans over property rights at the regional and national levels and trade and international organization In the third and final section Politics War and Peacemaking the content ranges from the existential experience of a soldier to that of a veteran of civil rights activism from theorizing about peacemaking to commenting on the use of drones

The Nature of Love Thomas Jay Oord, 2010-04-01 God is love Consequently shouldn't love exist at the center of Christian theology When love is at the center theology is understood differently than it has typically been understood Some theologians have placed faith at the center others God's sovereignty still others the Church but Dr Oord places the emphasis on love God's love for us revealed in Christ in the Church and in creation and our love for God and others as ourselves must be afforded its rightful place Beginning with the foundation of love is what differentiates the Christian faith from others a loving God Dr Oord defines love as To love is to act intentionally in sympathetic empathetic response to God and others to promote overall well being Is this not what has defined Christians throughout history

American Protestant Ethics and the Legacy of H. Richard Niebuhr William Werpehowski, 2002-09-20 In this careful analysis and evaluation of the monumental influence of Niebuhr Werpehowski traces four streams that flow from Niebuhr's theology particularly as it deals with ethics In a tightly knit and comprehensive investigation of the work of four contemporary ethicists important in their own right Paul Ramsey Stanley Hauerwas James Gustafson and Kathryn Tanner Werpehowski explores how the legacy of Niebuhr has made an impact on their thought and work He presents a clear concise nuanced analytical criticism of the development of the four ethicists' construction of ethics and does it in a way that interweaves and puts the four into a dialogue and conversation with Niebuhr and each other Addressing a number of substantive issues including the viability of just war tradition and the relationship between church and world American Protestant Ethics and the Legacy of H. Richard Niebuhr demonstrates that Christian ethics operates within a set of polar tensions and that such conversations as are developed within need to be a part of moral discourse inside and between a variety of communities of faith

Desire for God and the Things of God Wyndy Corbin Reuschling, 2012-09-21 For many Christians spirituality and ethics are in separate mental and experiential compartments Spirituality may be understood as an inner experience while ethics is focused on decisions or positions on issues Both of these views reduce spirituality and morality in Christian faith and practice and ignore the centrality of desire for God and the things of God as key focal points for spiritual and moral formation These aspects of Christian formation must be located in their scriptural and theological contexts in order to understand more fully what God desires for human life This focus on desire provides content and context to Christian spirituality and morality We are drawn outward to focus on God and the good of others while we learn to embody virtues such as compassion courage self control gratitude humility and hope Practices are crucial ways by which we learn to incarnate our ultimate desire of love for God and for what God desires in the pursuit of justice and goodness for all creation In so doing practices enable us to more fully integrate spiritual and moral growth in the processes of our desire for God and the things of God

Readings in Christian Ethics David K. Clark, Robert V. Rakestraw, 1994-02 Essays by leading ethicists provide students with a comprehensive introduction to ethical thinking
