**For Love of Wisdom** Josef Pieper,2010-06-17 In these elegant and engaging essays the internationally acclaimed Thomist Josef Pieper defines and defends philosophy as the search for and love

of wisdom True philosophy is not the work of joyless academics pondering over esoteric writings that have no relation to real life Rather the philosophical act in which all reasonable men can participate begins in wonder at what is and gratitude for what is given and ends in love In his encyclical letter *Fides et Ratio* On the Relationship between Faith and Reason Pope John Paul II called for a revitalization of true philosophy for man can find fulfillment only in choosing to enter the truth to make a home under the shade of Wisdom and dwell there Pieper's essays make the same ardent and convincing plea Josef Pieper is renowned for having popularized the philosophy of St Thomas Aquinas a brilliant student of St Thomas who in his own voluminous works has made the deep thought of the Angelic Doctor more accessible and understandable to the modern reader

[The Fall of Love](#) John O'Loughlin, 2022-05-23 The six philosophical essays included here which vary in length and treatment of style were written in the late 1970s by John O Loughlin and reflect a non Marxist concern with the influence of environment upon culture not least in respect of literature music religion and knowledge generally Although the author is not anti urban per se he argues that certain types or degrees of urban civilization can be detrimental to spirituality including the life of the soul and THAT believe it or not was the basis of *The Fall of Love* which is closer in conception to Spengler than to Marx and goes some way towards explaining the underlying causes of contemporary materialism as an expression of secular values

**If Only Love** Jalene Haines, 2021-07-30 Child abuse was once a taboo subject which families neighbors schools church staff and membership worked diligently to maintain secrecy

Passage of the Child Abuse Prevention and Treatment Act CAPTA in 1974 marked the nation's first major step forward in addressing issues related to child abuse. Following this, states had mandatory reporting laws for persons aware of such abuse. This book covers the subject of child abuse prior to CAPTA. Even though members of a family and community may have been aware of such abuse, they chose not to be involved. Occasionally, someone might speak up about such abuse, but without agencies to intervene, the child's abuse routinely increased in severity. For individuals like Jalene, the victim of child abuse and domestic violence, there were no agencies to assist her pleas for help. In 1982, the Domestic Protection Act came into place when it came to protect individuals from domestic violence. However, domestic violence in the church remained strong and without resources. According to statistics in 2017, in the Christian community, one in every four women experiences family violence. As the awareness and incidence of domestic violence increases, many pastors still adhere to the philosophy that spouses are to remain married because they took a vow before God. Some pastors find themselves ill-equipped to deal with the crisis of domestic violence. There is very little, if any, training provided in the majority of seminaries on family violence. This book also discusses the topic of parental alienation syndrome (PAS), which added another layer of sorrow to the author of this book. PAS is a term to describe psychological manipulation or undue influence of a child by a parent against the other parent, preventing an ongoing relationship between the victimized parent and their child. Bi-sexual Love Wilhelm Stekel, 1922

Women in Love D. H. Lawrence, 1927-05-21 Seen by Lawrence as his most accomplished book but subject to the initial prudery and incomprehension that met most of his fiction. *Women in Love* examines the regenerative and destructive aspects of human passion as illustrated by its depiction of Ursula and Gudrun Brangwen, who first appeared in *The Rainbow*, and their relationships with Gerald Crich and Rupert Birkin. Set against the backdrop of a world consuming itself in war, the novel creates an instructive vision of humanity's dance with life and death. This text is the famous first *Women in Love*, the unexpurgated version preferred by Lawrence himself, which was rejected by every publisher because of the banning of *The Rainbow* in 1915. More positive in tone than the revised version published in his lifetime with different central relationships and a radically different ending, it is now viewed by many as Lawrence's masterpiece. **BOOK JACKET** Cancer: A Love Story Dave Faber, 2014-11-18 Dave Faber and Robert McGehee were meant to be together. Less than two years after their first date, they were married. They ate out together, went to movies, and did everything else a loving couple does. They even decided to train together for the Houston Marathon in 2006. Like every couple, they expected to face hard times, but neither was prepared for Robert's diagnosis of esophageal cancer. But just like everything else, this was a fight they would wage together. After learning what he was up against, Robert suggested to Dave that he keep friends and family informed about their battle against the disease. This account draws on that correspondence and includes intimate details of their battle that may have otherwise been lost. Dave stands by Robert's side through surgery, chemotherapy, radiation, and physical therapy. Throughout his illness, their intimacy and love for each other grows. Whether you're suffering from a serious disease or illness or caring

for someone who is Dave and Robert's love story and spiritual journey will inspire you to keep your faith in each other and in the world around you even through the most difficult times

#### Pathologies of Love in Classical Literature

Dimitrios Kanellakis, 2021-08-02 Do you believe in love at first sight? The Greeks and the Romans certainly did. But far from enjoying this romantic moment carefree, they saw it as a cruel experience and an infection. Then what are the symptoms of falling in love? Are there any remedies? Any form of immunity? This book explores the conception of love as a physical, emotional, and mental disease, a social/ethical disorder, and a literary unorthodoxy in Greek and Latin literature. Through illustrative case studies, the contributors to this volume examine two distinct yet historically and poetically interrelated traditions of pathological love: lovesickness as similar to disease and deviant sexuality described in nosologic terms. The chapters represent a wide range of genres: lyric poetry, philosophy, oratory, comedy, tragedy, elegy, satire, novel, and of course medical literature, and a fascinating synthesis of methodologies and approaches including textual criticism, comparative philology, narratology, performance theory, and social history. The book closes with an anthology of Greek and Latin passages on pathological love. While primarily aimed at an academic readership, the book is accessible to anyone interested in Classics and/or the theme of love.
