Love For Sale The Words And Pictures Of Barbara Kruger:

LOVE FOR SALE., 1990 **A to Z of American Women in the Visual Arts** Carol Kort, Liz Sonneborn, 2014-05-14
Presents biographical profiles of American women of achievement in the field of visual arts including birth and death dates major accomplishments and historical influence **From Text to Hypertext** Silvio Gaggi, 2015-07-27 It is a tenet of postmodern writing that the subject the self is unstable fragmented and decentered One useful way to examine this principle is to look at how the subject has been treated in various media in the premodern modern and postmodern eras Silvio Gaggi pursues this strategy in *From Text to Hypertext* analyzing the issue of subject construction and deconstruction in selected examples of visual art literature film and electronic media Gaggi concentrates on a few paradigmatic works in each chapter he contrasts van Eyck's *Wedding of Arnolfini* with the photography of Cindy Sherman and Barbara Kruger examines fiction that centers on an elusive subject in works by Conrad Faulkner and Calvino and explores the ability of such films as Coppola's *One from the Heart* and Altman's *The Player* to emancipate the subject through cinematography and editing In considering electronic media Gaggi takes his argument to an entirely new level He focuses on computer controlled media specifically examples of hypertextual fiction by Michael Joyce and Stuart Moulthrop Besides recognizing how the computer has enabled artists to create works of fiction in which readers themselves become decentered Gaggi also observes the impact of literature created on computer networks where even the limitations of CD ROM are lifted and the notion of individual authorship may for all practical purposes be lost **Unpackaging Art of the 1980s** Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious Critics of the time feared that market hype and self promotion threatened the integrity of art They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps While controversies have since subsided critics still view art of the 1980s as a stylistic battlefield Alison Pearlman rejects this picture which is truer of the period's criticism than of its art Pearlman reassesses the works and careers of six artists who became critics' biggest targets In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media Through in depth discussions of works from Haring's body paintings of Grace Jones to Schnabel's movie Basquiat Pearlman demonstrates how these artists' interests exemplified a broader generational shift unrecognized by critics She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style art world structures and consumer culture converged to radically alter the course of American art *Unpackaging Art of the 1980s* offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art *After Modern Art 1945-2000* David

Hopkins,2000-09-14 Following a clear timeline the author highlights key movements of modern art giving careful attention to the artists political and cultural worlds Styles include Abstract Expressionism Pop Art Minimalism Conceptualism Postmodernism and performance art 65 color illustrations 65 halftones *Sublime Economy* Jack Amariglio,Joseph W. Childers,Stephen E. Cullenberg,2008-11-25 Over the last two centuries artists critics philosophers and theorists have contributed significantly to such representations of the economy as sublime It might even be said that much of the emergence of a distinctly modern art in the West is inextricably linked to the perception of art s own autonomy and therefore its privileged mostly critical gaze at the terrible mixture of wonder and horror of capitalist economic practices and institutions The premise of this collection is that despite this perceptual sharing sublime economy has yet to be investigated in a purely cross disciplinary way *Sublime Economy* seeks to map this critical territory by exploring the ways diverse concepts of economy and economic value have been culturally constituted and disseminated through modern art and cultural practice Comprising of 14 individual essays along with an editors introduction *Sublime Economy* draws together work from some of the leading scholars in the several fields currently exploring the intersection of economic and aesthetic practices and discourses A pressing issue of this cross disciplinary conversation is to discern how artists writers and cultural scholars constructions of distinct conceptions of economic value as pertains to aesthetic objects as well as to more everyday objects and relations of mass consumption have contributed to the ways value functions in and across disparate discourses Thus this book looks at how cultural critics and theorists have put forward working notions of economic value that have regularities and effects similar to those of the expert conceptions and discourses about value that have been the preserve of professional economists Pin-Up Grrrls Maria Elena Buszek,2006-05-31 A visual history about how feminist artists have appropriated and incorporated the signification of the pin up genre within their own work *S, M, L, XL* Rem Koolhaas,Bruce Mau,1997-10-01 *S M L XL* presents a selection of the remarkable visionary design work produced by the Dutch firm Office for Metropolitan Architecture O M A and its acclaimed founder Rem Koolhaas in its first twenty years along with a variety of insightful often poetic writings The inventive collaboration between Koolhaas and designer Bruce Mau is a graphic overture that weaves together architectural projects photos and sketches diary excerpts personal travelogues fairy tales and fables as well as critical essays on contemporary architecture and society The book s title is also its framework projects and essays are arranged according to scale While Small and Medium address issues ranging from the domestic to the public Large focuses on what Koolhaas calls the architecture of Bigness Extra Large features projects at the urban scale along with the important essay What Ever Happened to Urbanism and other studies of the contemporary city Running throughout the book is a dictionary of an adventurous new Koolhaasian language definitions commentaries and quotes from hundreds of literary cultural artistic and architectural sources *The Psychology and Sociology of Literature* Dick H.
