Love Hate In China:

Love and Hate in China Hans Koningsberger, 1966 The World in Guangzhou Gordon Mathews,, Linessa Dan Lin, Yang Yang, 2017-11-16 Only decades ago the population of Guangzhou was almost wholly Chinese Today it is a truly global city a place where people from around the world go to make new lives find themselves or further their careers A large number of these migrants are small scale traders from Africa who deal in Chinese goods often knockoffs or copies of high end branded items to send back to their home countries In The World in Guangzhou Gordon Mathews explores the question of how the city became a center of low end globalization and shows what we can learn from that experience about similar transformations elsewhere in the world Through detailed ethnographic portraits Mathews reveals a world of globalization based on informality reputation and trust rather than on formal contracts How he asks can such informal relationships emerge between two groups Chinese and sub Saharan Africans that don't share a common language culture or religion And what happens when Africans move beyond their status as temporary residents and begin to put down roots and establish families Full of unforgettable characters The World in Guangzhou presents a compelling account of globalization at ground level and offers a look into the future of urban life as transnational connections continue to remake cities around the world

American States of China James Hendershot,2015-01-05 The failing United States falls into financial ruin as inflation and unemployment rip at her very fibers Politicians profited from huge bribes as they sold America to the world China s Yuan replaces the dollar as the world currency Nations refuse to trade with the weak United States China who holds so much American debt faces the terror the United States may default When Washington closes shop they leave the States open to world plunder China who already has in place seven million of its citizens working in hidden under the radar factories mobilizes a little Army of two million soldiers to replace the decaying American Military who had fallen into destruction over massive budget cuts to stabilize a continent that was on the verge of mass looting and riots This story follows an Arkansas family from a small town An unstable high school boy falls insanely infatuated with his beautiful neighbor who is in love with another of her classmates They end up in trouble with the authorities and through intensive court battles the violent Mitch is sent to a mental institution Fearing his revenge upon his release in a few years Cindy runs away with George and his older sisters These hillbilly kids stumble on a bus packed with Chinese servants being sent to their work They discover a scared Chinese servant girl who agrees to join them in their escape This activates not only the corrupt American legal authorities but also the Chinese mafia as the nation seeks to execute them They find sanctuary in the freezing mountains until being called back to society and an opportunity to meet their new nation which evolved during their absence and now considered them heroes Meanwhile Mitch unleashes the three bloodiest terrorist attacks on Saint Louis and Memphis putting the stability of the modern union in jeopardy The Chinese finally catch and execute him leaving Cindy and her family to rebuilt security in this new world Torn Between America and China Daniel Novotny,2010 How can a developing democratic and predominantly Muslim country like Indonesia manage its foreign relations while facing a myriad of security concerns and dilemmas in the increasingly complex post Cold War international politics without compromising its national interests and sacrificing its independence Approaching this problem from the vantage point of the Indonesian foreign policy elite this book explores the elite s perceptions about other states and the manner in which these shape the decision making process and determine policy outcomes The combined qualitative and quantitative research strategy draws on a unique series of in depth interviews with 45 members of the Indonesian foreign policy elite that included the country s present and or former presidents cabinet ministers high ranking military officers and senior diplomats Among all state actors Indonesian relations

with the United States and China are the highest concern of the elite The leaders believe that in the future Indonesia will increasingly have to manoeuvre between the two rival powers While the United States during George W Bush s presidency was seen as the main security threat to Indonesia China is considered the main malign factor in the long run with power capabilities that need to be constrained and counter balanced *Chinese Theology* Chloë Starr,2016-11-22 This major new study examines the history of Chinese theologies as they have navigated dynastic change anti imperialism and the heights of Maoist propaganda In this groundbreaking and authoritative study Chlo Starr explores key writings of Chinese Christian intellectuals from philosophical dialogues of the late imperial era to sermons and micro blogs of theological educators and pastors in the twenty first century Through a series of close textual readings she sheds new light on the fraught issues of Chinese Christian identity and the evolving question of how Christianity should relate to Chinese society Superpower? Raghav Bahl,2010-10-28 Is India ready for superpower status or too far behind China to ever catch up In his career as one of India s leading journalists and entrepreneurs Raghav Bahl has often faced this question and many others from bewildered visitors Why are Indian regulations so weak and confusing Why is your foreign investment policy so restrictive How come your hotels are world class but the roads leading to them are so potholed Why don t you lower your voice when you make fun of your politicians Why do you control the price of oil and cable TV Clearly there s a huge difference in how India and its arch rival China work on the ground China is spectacularly effective in building infrastructure and is now reinvesting almost half its GDP Meanwhile India is still a promising economy more than half its GDP is consumed by its billion plus people yet India has some unique advantages Half its population is under twenty five giving it a strong demographic edge 350 million Indians understand English making it the largest English speaking country in the world and it s the world s largest democracy In the race to superpower status who is more likely to win China s hare or India s tortoise Bahl argues that the winner might not be determined by who is investing more and growing faster today but by something more intangible who has superior innovative skills and more entrepreneurial savvy He notes that China and India were both quick to recover from the financial crisis but China s rebound was accompanied by huge debt and deflation with weak demand India s turnaround was sturdier with lower debt and modest inflation So India s GDP grew twice as fast as China s for a few quarters the first time that had happened in nearly three decades And in contrast to China s Yuan which is pummeled for being artificially undervalued India s rupee largely floats against world currencies In the end it might come down to one deciding factor can India fix its governance before China repairs its politics With insights into the two countries histories politics economies and cultures this is a well written fully documented comprehensive account of the race to become the next global superpower For anyone looking to understand China India and the future of the world economy this is the book to read **Cambodia's China Strategy** Chanborey Cheunboran,2021-06-21 This book explores the tensions within Cambodia s foreign policy between a tight alignment with China on the one hand and Cambodia s commitment to the Association of the Southeast Asian Nations ASEAN

as well as its delicate foreign policy diversification towards other major powers on the other hand It traces the long history of Cambodia's quest for survival from its bigger and historically antagonistic neighbours the Thai and the Vietnamese and its struggle for security and independence from the two neighbours and external major powers particularly the United States and China It discusses Cambodia's geopolitical predicaments deriving from its location of being sandwiched between powerful neighbours and limited strategic options available for the Kingdom The book also assesses recent developments in Cambodia's relations with its neighbours and their implications for Cambodia's increasingly tight alignment with China in recent years It considers the extent to which the ruling regime in Cambodia depends on strong relations with China for its legitimacy and survival and argues that there are risks and danger for Cambodia in moving towards an increasingly tight alignment with China

The China-India Rivalry in the Globalization Era T.V. Paul, 2018-09-03 As the aspirations of the two rising Asian powers collide the China India rivalry is likely to shape twenty first century international politics in the region and far beyond This volume by T V Paul and an international group of leading scholars examines whether the rivalry between the two countries

that began in the 1950s will intensify or dissipate in the twenty first century The China India relationship is important to analyze because past experience has shown that when two rising great powers share a border the relationship is volatile and potentially dangerous India and China s relationship faces a number of challenges including multiple border disputes that periodically flare up division over the status of Tibet and the Dalai Lama the strategic challenge to India posed by China s close relationship with Pakistan the Chinese navy s greater presence in the Indian Ocean and the two states competition for natural resources Despite these irritants however both countries agree on issues such as global financial reforms and climate change and have much to gain from increasing trade and investment so there are reasons for optimism as well as pessimism The contributors to this volume answer the following questions What explains the peculiar contours of this rivalry What influence does accelerated globalization especially increased trade and investment have on this rivalry What impact do US China competition and China s expanding navy have on this rivalry Under what conditions will it escalate or end The China India Rivalry in the Globalization Era will be of great interest to students scholars and policymakers concerned with Indian and Chinese foreign policy and Asian security

[Desire and Fictional Narrative in Late Imperial China](#) Martin W. Huang, 2020-03-23 In this new study of desire in Late Imperial China Martin Huang argues that the development of traditional Chinese fiction as a narrative genre was closely related to changes in conceptions of the fundamental nature of desire He further suggests that the rise of vernacular fiction during the late Ming dynasty should be studied in the context of contemporary debates on desire along with the new and complex views that emerged from those debates *Desire and Fictional Narrative in Late Imperial China* shows that the obsession of authors with individual desire is an essential quality that defines traditional Chinese fiction as a narrative genre Thus the maturation of the genre can best be appreciated in terms of its increasingly sophisticated exploration of the phenomenon of desire
