Love İlham Dilman,1998 Love I. Dilman,2014-01-14 The book is concerned with questions about love questions about its many forms strands and aspects and the relation in which they stand to each other It is concerned with the way different aspects of sexual love conflict with each other with the way self regard and self interest can corrupt love and with spiritual love and its difficulties It seeks the views of some writers who have suggested some distinctive solutions to the existential problems that love poses in the face of its obstacles Plato Proust Sartre Freud D H Lawrence Erich Fromm C S Lewis Kierkegaard Simone Weil and Kahlil Gibran **Love** I. Dilman,2016-01-13 The book is concerned with questions about love questions about its many forms strands and aspects and the relation in which they stand to each other It is concerned with the way different aspects of sexual love conflict with each other with the way self regard and self interest can corrupt love and with spiritual love and its difficulties It seeks the views of some writers who have suggested some distinctive solutions to the existential problems that love poses in the face of its obstacles Plato Proust Sartre Freud D H Lawrence Erich Fromm C S Lewis Kierkegaard Simone Weil and Kahlil Gibran **Love's Grateful Striving** M. Jamie Ferreira,2001-06-07 Soren Kierkegaard s Works of Love 1847 a series of deliberations on the commandment to love one s neighbor has often been condemned by critics Here Ferreira seeks to rehabilitate Works of Love as one of Kierkegaard s most important works He shows that Kierkegaard s deliberations on love are highly relevant to some important themes in contemporary ethics including impartiality duty equality mutuality reciprocity self love sympathy and sacrifice Ferreira also argues that Works of Love bears on issues peculiar to a religious ethic such as the role of God as middle term and the possibility of preserving the aesthetic dimensions of love in a religious ethic of relation The Possibility of Love Kathleen O'Dwyer,2009 The Possibility of Love is an exploration of a concept close to the human heart Grounded in the ordinary everyday experiences of human living the book provides an exploration of the diverse obstacles to the experience of love the consequences of love TM s absence and the unquenchable desire for love which propels influences and ultimately motivates much of human behaviour The Possibility of Love poses the question is love actually possible between human beings or is it an ideal a fantasy an illusion or a comforting aspiration which enables a palliative denial and distortion of the reality of human being This expansive question is approached through an interdisciplinary analysis The author addresses the question of love TM s possibility as it is explored in a selection of literature from the disciplines of philosophy psychoanalysis and poetry The interdisciplinary nature of the study is based on the assertion of an interconnection between the three disciplines and that this interconnection enables a unique and insightful exploration of the question of love TM s possibility Thus the question is explored from diverse view points and also from different time frames convergences and divergences are noted and discussed and conclusions are drawn from the ensuing findings The book is essentially a philosophical analysis of an emotion that significantly impacts on human experience It attests to the gradually increasing acknowledgement of the power of

emotional experience in the search for knowledge wisdom and truth Thus it is a uniquely honest exploration of human nature in contemporary times **Volume 13: Kierkegaard's Influence on the Social Sciences** Jon Stewart,2016-12-05

Kierkegaard has long been known as a philosopher and theologian but his contributions to psychology anthropology and sociology have also made an important impact on these fields In many of the works of his complex authorship Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively The articles featured in the present volume explore the reception of Kierkegaard s thought in the social sciences Of these fields Kierkegaard is perhaps best known in psychology where The Concept of Anxiety and The Sickness unto Death have been the two most influential texts With regard to the field of sociology social criticism or social theory Kierkegaard s Literary Review of Two Ages has also been regarded as offering valuable insights about some important dynamics of modern society

Dilman,2007-04-11 The way an individual s psychology is intertwined with their morality is the subject of this fascinating

book from the pen of the late Ilham Dilman Dilman convincingly argues that evil though it cannot be reduced to psychological terms it is a moral concept is explicable in terms of an individual person's psychology Goodness by contrast comes from the person and not their psychology Philosophers the world over will want to read this book and see how Dilman skilfully defends his arguments Philosophy of Love, Sex, and Marriage Raja Halwani, 2010-05-26 How is love different from lust or infatuation Do love and marriage really go together like a horse and carriage Does sex have any necessary connection to either And how important are love sex and marriage to a well lived life In this lively lucid and comprehensive textbook Raja Halwani pursues the philosophical questions inherent in these three important aspects of human relationships exploring the nature uses and ethics of romantic love sexuality and marriage The book is structured in three parts Love begins by examining how romantic love differs from other types of love such as friendship and parental love It asks which properties of love are essential whether people have a choice in whom they love and whether lovers have moral obligations to one another that differ from those they owe to others Sex demonstrates the difficulty in defining sex and the sexual and examines what constitutes good and bad sex in terms of pleasure naturalness and moral permissibility It offers theoretical and applied ethical approaches to a wide range of sexual phenomena Marriage traces the history of the institution and describes the various forms in which marriage exists and the reasons why people marry It also surveys accounts of why people should or should not marry and introduces the main arguments for and against gay marriage Features include suggestions for further reading online eResource site with downloadable discussion questions a clear jargon free writing style Psychoanalytic Knowledge M. essays that explore in a new way how unacknowledged moral concerns are integral to debates in the philosophy of mind The radical suggestion of the book is that we can make sense of the internal dynamics and cultural significance of these debates only when we understand the moral forces that shape them Drawing inspiration from a variety of traditions including Wittgenstein Lacan phenomenology and analytic philosophy the authors address a wide range of topics including the mind body problem the problem of other minds subjectivity and objectivity the debates on mindreading naturalism reductive physicalism representationalism and the E turn Dennett s heterophenomenology McDowell s neo Kantianism Wittgenstein s private language considerations and his notion of an attitude towards a soul repression love conscience the difficulties of self understanding and the methods and aims of philosophy Through a combination of detailed immanent criticism and bold constructive work the authors move the discussion to a new level beyond humanistic or conservative critiques of naturalism and scientism

Shakespeare and the Nature of Love Marcus Nordlund, 2007 The best conception of love Marcus Nordlund contends and hence the best framework for its literary analysis must be a fusion of evolutionary cultural and historical explanation It is within just such a bio cultural nexus that Nordlund explores Shakespeare s treatment of different forms of love His approach leads to a valuable new perspective on Shakespearean love and more broadly on the interaction between our common humanity and our historical contingency as they are reflected recast transformed or even suppressed in literary works After addressing critical issues about love biology and culture raised by his method Nordlund considers four specific forms of love in seven of Shakespeare s plays Examining the vicissitudes of parental love in Titus Andronicus and Coriolanus he argues that Shakespeare makes a sustained inquiry into the impact of culture and society upon the natural human affections King Lear offers insight into the conflicted relationship between love and duty In two problem plays about romantic love Troilus and Cressida and All s Well that Ends Well the tension between individual idiosyncrasies and social consensus becomes especially salient And finally in Othello and The Winter s Tale Nordlund asks what Shakespeare can tell us about the dark avatar of jealousy

Sense and Reality John Edelman, 2013-05-02 This book is a collection of essays each of which discusses the work of one of eight individuals Rush Rhees Peter Winch R F Holland J R Jones H O Mounce D Z Phillips Ilham Dilman and R W Beardsmore who taught philosophy at the University of Wales Swansea for some time from the 1950s through to the 1990s and so contributed to what in some circles came to be known as the Swansea School These eight essays are in turn followed by a ninth that drawing on the previous eight offers something of a critical overview of philosophy at Swansea during that same period The essays are not primarily historical in character Instead they aim at both the critical assessment and the continuation of the sort of philosophical work that during those years came to be especially associated with philosophy at Swansea work that is deeply indebted to the philosophy of Ludwig Wittgenstein but also distinctively sensitive to the relevance of literary works to philosophical reflection

A Church of the Poor Sedmak, Clemens, 2016-12-15 Using resources ranging from scripture to Catholic social teaching to the early Church Fathers the

author examines how Pope Francis's emphasis on the Church of the Poor is calling us to a new epistemic practice involving an understanding of orthodoxy as discipleship and discipleship as a new way of getting to know and understand the world

Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after. The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date. Typically the individuals included have been born by 1935 and by now have made their main contributions. Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included. The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy. There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term. The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin. In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad. In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture.

When Texas Prison Scams Religion Michael G. Maness, 2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion. In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners. The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor, TDCJ Director and wardens throughout the prison. Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself. The underbelly TDCJ's executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years. Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would
