Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

remake his public image to reflect their own Through writings both well known and generally unknown James Soderholm examines the poet's relationship with five women Elizabeth Pigot Caroline Lamb Annabella Milbanke Teresa Guiccioli and Marguerite Blessington These women participated in Byron's life and literary career and the manipulation of images that is the Byron legend Soderholm argues against the sentimental depictions of biographers who would preserve Byron's romantic aura by diminishing the contributions of these women to his social sexual and literary identity By restoring the contexts in which literary works charm or bedevil particular readers the author shows the consequences of Byron's poetic seductions during and after his life
