

Robert N. Ross

the Love Knot

ties that
bind cancer
partners

We are beset by the sharp pangs
of anguish, but if we didn't also
feel love, we wouldn't feel that
anguish. That powerful interweaving of many
contradictory strands—love,
fear, hope, anguish, expectation,
grief, shared history, and lost future—is the
love knot.

Love Knot Ties That Bind Cancer Partners

S Baum

Love Knot Ties That Bind Cancer Partners:

The Love Knot Robert N. Ross, 2001 The Love Knot is devoted primarily to the partner's side of the cancer story. It is Robert Ross's gift to those who live with the fear, the pain, the uncertainty and possible loss of the person they love most in the world. Many books have been written on how to be a cancer survivor, on how to make the necessary accommodations to cancer without being defeated by it, on how not to act the victim. Not surprisingly, these books have been written primarily for the person who actually has cancer, but the intrusion of a life-threatening illness like cancer touches a circle of people far beyond the person who has cancer.

Contemporary Issues in Colorectal Cancer Deborah T. Berg, 2001 Providing up-to-date management information for nurses educating the public on and caring for patients with colorectal cancer, these 15 contributions by US nursing specialists cover epidemiology and risk prevention and detection, including controversies over screening and the role of diet.

Pocket Guide to Prostate Cancer Jeanne Held-Warmkessel, 2001 This easy-to-use reference provides nurses with practical material that is useful in the day-to-day care of men with prostate cancer. This pocket guide is divided into four sections and covers epidemiology and risk prevention and detection, including controversies over screening and the role of diet.

Pocket Guide to Breast Cancer Karen Hassey Dow, 2002 Pocket Guide to Breast Cancer is an easy-to-use day-to-day reference for nurses caring for patients with breast cancer and their families. The Pocket Guide is divided into four parts: Epidemiology of Breast Cancer, Treatment of Primary Breast Cancer, Management of Recurrent Breast Cancer, and Quality of Life Issues. Each chapter has been expanded and updated to provide the reader with current information, and the Third Edition features two new chapters on Endocrine Therapy and End of Life Issues. As in the previous editions, this handy pocket guide includes information on screening and early detection, assessment, treatment, surgical techniques, and cancer-related fatigue and sleep disturbance.

BOOK JACKET

Clinical Guide to Cancer Nursing Connie Henke Yarbro, Margaret Hansen Frogge, Michelle Goodman, 2002 This clinical manual is a quick yet thorough reference for any nurse caring for patients with cancer. Derived from *Cancer Nursing Principles and Practice*, Fifth Edition, the content has been thoroughly updated to reflect current practice and is presented in an abbreviated outline format for clinical utility. It can be used as an independent handbook or as a clinical companion to the main text.

Oncology Nursing Review Connie Henke Yarbro, Margaret Hansen Frogge, Michelle Goodman, 2001

Outcomes in Radiation Therapy Deborah Watkins Bruner, Giselle J. Moore-Higgs, Marilyn Haas, 2001 The only comprehensive reference book on bone marrow and cell transplantation in children, *Pediatric Stem Cell Transplantation* addresses all the major dimensions, both scientific and clinical, of these life-saving procedures. In 24 concise chapters written by world experts in pediatric hematology, oncology, immunology, pathology, and pediatrics, this book provides authoritative, timely, evidence-based information across the spectrum of related childhood illnesses.

Biotherapy Paula Trahan Rieger, 2001 Rieger, U of Texas M D Anderson Cancer Center synthesizes knowledge about this rapidly expanding field to help other nurses understand its biological basis and clinical indications. Targeted at oncology nurses, the text will also be of interest in other specialties using biological agents to treat

Cancer Chemotherapy Margaret Barton-Burke, Gail M. Wilkes, Karen Ingwersen, 2001 This text for beginning and advanced oncology nurses integrates the nursing process including nursing diagnosis with the administration of cancer chemotherapeutic agents Chapters in the first section review the history of chemotherapy and the role of the oncology nurse in chemotherapy research T
