Redeeming La Raza Gabriela González, 2018 The transborder modernization of Mexico and the American Southwest during the late nineteenth and early twentieth centuries transformed the lives of ethnic Mexicans across the political divide While industrialization urbanization technology privatization and wealth concentration benefitted some many more experienced dislocation exploitative work relations and discrimination based on race gender and class The Mexican Revolution brought these issues to the fore within Mexican society igniting a diaspora to el norte Within the United States similar economic and social power dynamics plagued Tejanos and awaited the war refugees Political activism spearheaded by individuals and organizations such as the Idars Leonor Villegas de Magn n s White Cross the Magonista movement the Munguias Emma Tenayuca and LULAC emerged in the borderlands to address the needs of ethnic Mexicans whose lives were shaped by racism patriarchy and poverty As Gabriela Gonzalez shows in this book economic modernization relied on social hierarchies that were used to justify economic inequities Redeeming la raza was about saving ethnic Mexicans in Texas from a social hierarchy premised on false notions of white supremacy and Mexican inferiority Activists used privileges of class education networks and organizational skills to confront the many injustices that racism bred but they used different strategies Thus the anarcho syndicalist approach of Mag nistas stands in contrast to the social and cultural redemption politics of the Idars who used the press to challenge a Jaime Crow world Also the family promoted the intellectual material and cultural uplift of la raza working to combat negative stereotypes of ethnic Mexicans Similar contrasts can be drawn between the labor activism of Emma Tenayuca and the Munguias whose struggle for rights employed a politics of respectability that encouraged ethnic pride and unity Finally maternal feminist approaches and the politics of citizenship serve as reminders that gendered and nationalist rhetoric and practices foment hierarchies within civil and human rights organizations Redeeming La Raza examines efforts of activists to create a dignified place for ethnic Mexicans in American society by challenging white supremacy and the segregated world it spawned

The Gendered West Gordon Morris Bakken, Brenda Farrington, 2013-09-13 First Published in 2001 This anthology of western history articles emphasizes the New Western History that emerged in the 1980s and adds to it a heavy dose of legal history a field frequently ignored or misunderstood by the New Western historians From first contact American Indians knew that Europeans did not understand

the gendered nature of America Confusion regarding the role of women within tribes and bands continued from first contact well into the late nineteenth century The journal articles that follow give readers a true sense of the gendered West Racial and ethnic heritage played a role in female experience whether Hispanic Japanese or Irish Women s work was part western history but women did not confine themselves to plow handles or brothels Women were very much a part of most occupations or in the process of breaking down barriers of access They worked in the fields for wages as well as for family welfare and prosperity Women demanded access to the professions whether teaching or law accounting or medicine The process of eliminating barriers varied in time and space but the struggle was constant Yet the story of women in polygamous Utah or Idaho was different and an integral part of the fabric of western history Because of their beliefs and practices these women suffered at the hands of the federal government and persevered *Chicana Feminist Thought* Alma M. Garcia, 2014-04-23 *Chicana Feminist Thought* brings together the voices of Chicana poets writers and activists who reflect upon the Chicana Feminist Movement that began in the late 1960s With energy and passion this anthology of writings documents the personal and collective political struggles of Chicana feminists **Women of Color and the Multicultural Curriculum** Liza Fiol-Matta, Mariam Chamberlain, 1994 A A A The product of 13 curriculum projects that involved several hundred educators nationwide this volume provides faculty and administrators with a guide to multicultural curricular change especially with respect to women While women represent over half of the college students on campus they are still represented only minimally in the allegedly mainstream curriculum Women of color are far less visible in the curriculum than white women A A A Both the process and the results of a Ford Foundation funded project are presented here in a format that allows browsing and promotes reading straight through The volume is divided into three major sections the first of which highlights the actual process of faculty transformation and administrative support essential to curricular changes as it occurred on two of the participating campuses U C L A and George Washington University Extensive multidisciplinary faculty development syllabi are provided A A A Section Two contains 37 transformed undergraduate course syllabi for courses in sociology American history and literature and more with brief essays describing professors encounters with teaching the new texts Section Three is an invaluable interdisciplinary guide to teaching about Puerto Rican women prepared by a team of scholars at SUNY Albany It provided information about Puerto Rican women inside and outside Puerto Rico as well as teaching strategies for integrating such information into the traditional curriculum A A A This volume shows that essential educational change to meet the diversity of U S students may be somewhat slower than one would wish and more difficult but it is complex challenging and intellectually exciting *Why History Matters* Gerda Lerner, 1998-02-26 All human beings are practicing historians writes Gerda Lerner We live our lives we tell our stories It is as natural as breathing It is as important as breathing too History shapes our self definition and our relationship to community it locates us in time and place and helps to give meaning to our lives History can be the vital thread that holds a nation together as demonstrated most strikingly in

the case of Jewish history Conversely for women who have lived in a world in which they apparently had no history its absence can be devastating In *Why History Matters* Lerner brings together her thinking and research of the last sixteen years combining personal reminiscences with innovative theory that illuminate the importance of history and the vital role women have played in it *Why History Matters* contains some of the most significant thinking and writing on history that Lerner has done in her entire career a summation of her life and work The chapters are divided into three sections each widely different from the others each revelatory of Lerner as a woman and a feminist We read first of Lerner's coming to consciousness as a Jewish woman There are moving accounts of her early life as a refugee in America her return to Austria fifty years after fleeing the Nazis to discover a nation remarkable both for the absence of Jews and for the anti-Semitism just below the surface her slow assimilation into American life and her decision to be a historian If the first section is personal the second focuses on more professional concerns Included here is a fascinating essay on nonviolent resistance tracing the idea from the Quakers such as Mary Dyer to abolitionists such as Theodore Dwight Weld the most mobbed man in America to Thoreau's essay *Civil Disobedience* then across the sea to Tolstoy and Gandhi before finally returning to America during the civil rights movement of the 1950s There are insightful essays on American Values and on the tremendous advances women have made in the twentieth century as well as Lerner's presidential address to the Organization of American Historians which outlines the contributions of women to the field of history and the growing importance of women as a subject of history The highlight of the final section of the book is Lerner's bold and innovative look at the issues of class and race as they relate to women an essay that distills her thinking on these difficult subjects and offers a coherent conceptual framework that will prove of lasting interest to historians and intellectuals A major figure in women's studies and long term activist for women's issues a founding member of NOW and a past president of the Organization of American Historians Gerda Lerner is a pioneer in the field of Women's History and one of its leading practitioners *Why History Matters* is the summation of the work and thinking of this distinguished historian
