Black Cultural Life in South Africa Lily Saint, 2018-09-20 Under apartheid black South Africans experienced severe material and social disadvantages occasioned by the government's policies and they had limited time for entertainment. Still they closely engaged with an array of textual and visual cultures in ways that shaped their responses to this period of ethical crisis. Marshaling forms of historical evidence that include passbooks, memoirs, American B movies, literary and genre fiction, magazines, and photocomics, *Black Cultural Life in South Africa* considers the importance of popular genres and audiences in the relationship between ethical consciousness and aesthetic engagement. This study provocatively posits that states of oppression including colonial and postcolonial rule can elicit ethical responses to imaginative identification through encounters with popular culture and it asks whether and how they carry over into ethical action. Its consideration of how globalized popular culture travels not just in material form but also through the circuits of the imaginary opens a new window for exploring the ethical and liberatory stakes of popular culture. Each chapter focuses on a separate genre yet the overall interdisciplinary approach to the study of genre and argument for an expansion of ethical theory that draws on texts beyond the Western canon speak to growing concerns about studying genres and disciplines in isolation. Freed from oversimplified treatments of popular forms common to cultural studies and ethical theory alike, this book demonstrates that people can do things with mass culture that reinvigorate ethical life. Lily Saint's new volume will interest Africanists across the humanities and the social sciences and scholars of Anglophone literary globalization and cultural studies, race, ethical theories, and philosophies, film studies, book history, and material cultures, and the burgeoning field of comics and graphic novels.

Women, Activism and Apartheid South Africa Bev Orton, 2018-10-05 This book investigates women's political activism and conflict in the struggle against apartheid in South Africa using play texts alongside interviews with female playwrights and women who worked within the theatre to examine issues around domestic violence, racial abuse, and women in detention without trial.

Genetic Afterlives Noah Tamarkin, 2020-09-11 In 1997 M E R Mathivha, an elder of the black Jewish Lemba people of South Africa, announced to the Lemba Cultural Association that a recent DNA study substantiated their ancestral connections to Jews. Lemba people subsequently leveraged their genetic test results to seek recognition from the post-apartheid government as indigenous Africans with rights to traditional leadership and land, retheorizing genetic ancestry in the process. In *Genetic Afterlives*, Noah Tamarkin illustrates how Lemba people give their own meanings to the results of DNA tests and employ them to manage competing claims of Jewish ethnic and religious identity, African indigeneity, and South African citizenship. Tamarkin turns away from genetics researchers' results that defined a single story of Lemba people's true origins and toward Lemba understandings of their own genealogy as multivalent. Guided by Lemba people's negotiations of their belonging as diasporic Jews, South African citizens, and indigenous Africans, Tamarkin considers new

ways to think about belonging that can acknowledge the importance of historical and sacred ties to land without valorizing autochthony borders or other technologies of exclusion

Racism and Human Ecology Katharina Loeber, 2019-01-21 The apartheid era in South Africa lasted more than 40 years. It was marked by political repression and the attempt to create a homogeneous white South Africa which meant excluding the non-white majority population. The establishment and maintenance of white supremacy in South Africa by colonialism and since 1948 grand apartheid was not only the result of racist regulations and laws but also followed a scientific logic to justify the resettlement and expulsion of South African blacks. The history of South Africa from 1948 to 1994 can also be seen as the history of a major society spanning project: an attempt to build a modern state on the basis of racial segregation. This work investigates the factors that make it possible to stabilize a policy based on virtually impossible prerequisites over four decades: Ethnic categorization, territorial planning and environmental protection measures.

Transforming Violent Political Movements Kevin E. Grisham, 2014-03-21 This book explores the factors that influence violent rebellious political organisations to transform into other entities such as political parties, criminal organisations and terrorist organisations. From the end of the Second World War until 1990 many events in the world centred on the bipolar struggle between the United States and the USSR. Although there were numerous civil wars occurring during the Cold War era, many of these conflicts went virtually unnoticed unless they were linked to the Cold War struggle for ideological dominance. In the aftermath of the fall of the Soviet Union, the number of intra-state conflicts was prevalent around the globe. Along with the occurrence of civil wars, a variety of violent political movements also developed. Examining cases from Latin America, Africa, Europe and Asia, this book addresses how violent political movements transform during and after conflict into new types of organisations using the collective political violence transformative CPVT model. The study uses a combination of pre-existing literature from the fields of sociology and political science, archival research and interviews with movement members, former and active, conducted by the author. In studying the Provisional IRA and Sinn Féin in the Spear of the Nation, MK and the African National Congress (ANC), the Abu Sayyaf Group and the Revolutionary Armed Forces of Colombia (FARC-EP), *Transforming Violent Political Movements* paints a picture of organisations that have to respond to their environments to survive. This book will be of much interest to students of political violence, terrorism, war and conflict studies, security studies and IR.

Riotous Deathscapes Hugo Ka Canham, 2023-02-01 In *Riotous Deathscapes* Hugo Ka Canham presents an understanding of life and death based on indigenous and black ways of knowing that he terms Mpondo theory. Focusing on amaMpondo people from rural Mpondoland in South Africa's Eastern Cape, Canham outlines the methodologies that have enabled the community's resilience and survival. He assembles historical events and a cast of ancestral and living characters following the tenor of village life to offer a portrait of how Mpondo people live and die in the face of centuries of abandonment, trauma, antiblackness and death. Canham shows that Mpondo theory is grounded in and develops in relation to the natural world where the river and hill are key sites of being and resistance. Central too is the

interface between ancestors and the living in which life and death become a continuity and a boundlessness that white supremacy and neoliberalism cannot interdict By charting a course of black life in Mpondoland Canham tells a story of blackness on the African continent and beyond Duke University Press Scholars of Color First Book Award Recipient
