many popular and official conceptions of crime This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity It addresses not only conventional offences such as shoplifting burglary robbery and vehicle crime but many other forms of criminal behaviour often an amalgamation of different legal offences which attract contemporary media public and policy concern These include crimes committed not only by individuals but by organised criminal groups corporations and governments There are chapters on for example gang violence hate crime elder abuse animal abuse cyber crime identity theft money laundering eco crimes drug trafficking human trafficking genocide and global terrorism Many of these topics receive surprisingly little attention in the criminological literature The Handbook on Crime will be a unique text of lasting value to students researchers academics practitioners policy makers journalists and all others involved in understanding and preventing criminal behaviour "Don't Shoot, G-Men!"
